Featured Biographies

Bob Dumaine

1939 - 2024

Bob began Sam Houston Philatelics, while still working for Shell Oil Company, which he joined after serving in the U.S. Army. As he rapidly ascended the philatelic ladder, Bob's drive saw the company become nationally recognized. Expanding into stamp auctions and maintaining a grueling travel schedule to attend trade shows across the country, sealed the company's name recognition, and Bob became a larger-than-life character in the world of stamp collecting.

Recognizing that Sam Houston needed a specialty in the philatelic marketplace, Bob became a world-renowned expert in duck hunting stamps. He co-authored the Gold Medal Award-winning book "The Duck Stamp Story." Mr. Dumaine was inducted into the American Stamp Dealers Hall of Fame, the Philatelic Writers Unit #30 Hall of Fame, served as an adviser to the Smithsonian National Postal Museum for the Jeanette Rudy duck stamp exhibit, and was honored by the US Treasury Department in 1989 for his assistance in trapping stamp thieves. Bob wrote a monthly column on duck stamps in Linn's Stamp News for nearly two decades.

In 1992, Mr. Dumaine served as a judge in the prestigious Federal Duck Stamp Contest. He judged multiple Federal Junior Duck Stamp contests in California and Texas, as well as being consulted by state wildlife agencies. His creative mind and business common sense helped many state duck programs succeed. Bob served as a Board Member for the American Stamp Dealers Association in the early 1990s. He was Chairman of the Auction Committee, helping draft the regulations to be an ASDA Qualified Auctioneer.

In 1992, he founded the National Duck Stamp Collectors Society. The Society, dedicated to collectors of hunting and conservation stamps, was very dear to Bob's heart. He knew that for this "offbeat" collecting field to be recognized by serious philatelists, it needed its own organization. The Society is still going strong, and Bob was proud of its many accomplishments and dedicated volunteers.

The Astor Collection

Today very few Philatelists attempt to collect the world as it is costly and time consuming. Back when Countries weren't issuing a flood of new issues every year it was much more commonplace to collect the world. One of these old-time collectors assembled this mainly high-quality worldwide collection now being offered under the Astor name. The pages in this collection were designed by the Philatelist to have a space for every variety known of each stamp. Therefore, a normal listing in Scott may have 8 stamps in a set but Astor may have 12 spaces which includes shades not noted in Scott. What is truly a complete set of 8 in Scott will at first glance appear to be missing issues with the extra spaces. Keep this fact in mind when viewing the Astor Collections. The collector went after any kind of variety that he could find adding a new dimension to these collections. The quality of these lots is well above the norm with few faults and more never hinged than usually found. Collections like this one are not offered often so take advantage of this rare opportunity!! Exceptional quality is always worth an extra bid.

Featured Biographies

Bob Dumaine
1939 - 2024

Bob began Sam Houston Philatelics, while still working for Shell Oil Company, which he joined after serving in the U.S. Army. As he rapidly ascended the philatelic ladder, Bob's drive saw the company become nationally recognized. Expanding into stamp auctions and maintaining a grueling travel schedule to attend trade shows across the country, sealed the company's name recognition, and Bob became a larger-than-life character in the world of stamp collecting.

Recognizing that Sam Houston needed a specialty in the philatelic marketplace, Bob became a world-renowned expert in duck hunting stamps. He co-authored the Gold Medal Award-winning book "The Duck Stamp Story." Mr. Dumaine was inducted into the American Stamp Dealers Hall of Fame, the Philatelic Writers Unit #30 Hall of Fame, served as an adviser to the Smithsonian National Postal Museum for the Jeanette Rudy duck stamp exhibit, and was honored by the US Treasury Department in 1989 for his assistance in trapping stamp thieves. Bob wrote a monthly column on duck stamps in Linn's Stamp News for nearly two decades.

In 1992, Mr. Dumaine served as a judge in the prestigious Federal Duck Stamp Contest. He judged multiple Federal Junior Duck Stamp contests in California and Texas, as well as being consulted by state wildlife agencies. His creative mind and business common sense helped many state duck programs succeed. Bob served as a Board Member for the American Stamp Dealers Association in the early 1990s. He was Chairman of the Auction Committee, helping draft the regulations to be an ASDA Qualified Auctioneer.

In 1992, he founded the National Duck Stamp Collectors Society. The Society, dedicated to collectors of hunting and conservation stamps, was very dear to Bob's heart. He knew that for this "offbeat" collecting field to be recognized by serious philatelists, it needed its own organization. The Society is still going strong, and Bob was proud of its many accomplishments and dedicated volunteers.

The Astor Collection

Today very few Philatelists attempt to collect the world as it is costly and time consuming. Back when Countries weren't issuing a flood of new issues every year it was much more commonplace to collect the world. One of these old-time collectors assembled this mainly high-quality worldwide collection now being offered under the Astor name. The pages in this collection were designed by the Philatelist to have a space for every variety known of each stamp. Therefore, a normal listing in Scott may have 8 stamps in a set but Astor may have 12 spaces which includes shades not noted in Scott. What is truly a complete set of 8 in Scott will at first glance appear to be missing issues with the extra spaces. Keep this fact in mind when viewing the Astor Collections. The collector went after any kind of variety that he could find adding a new dimension to these collections. The quality of these lots is well above the norm with few faults and more never hinged than usually found. Collections like this one are not offered often so take advantage of this rare opportunity!! Exceptional quality is always worth an extra bid.

BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Kelleher, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Kelleher reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Kelleher and are not minimum or upset prices.

2. (a) Bids shall be made in the steps set forth on the bidding page for increments. (b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor or internet bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor, the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. (b) Lots are offered subject to a reserve price. The auctioneer will implement such reserve price by bidding on behalf of the consignor/vendor. (c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Kelleher therefore has a security interest in the consigned material over and above the normal auction commission.
