GRAF ZEPPELIN CENTURY OF PROGRESS FLIGHT, October 1933

A special flight to the Century of Progress Exposition in Chicago was made by the Graf Zeppelin. For this historic event the United States Postal Service designed a unique airmail stamp, the 50¢ "Baby Zeppelin". It featured the airship flying over the ocean with the Exposition towers on the left and the zeppelin's home base of Friedrichshafen on the right. This flight coincided with the Graf Zeppelin's 5th Anniversary and marked the 5th and final visit for this giant airship to the U. S.
