"Needle in a Haystack" Nitpicker Accumulation of Used Definitives, Cut Squares & Precancels, 1910-62, Accumulated primarily during the first half of the 20th century, tens of thousands of stamps with hefty duplication mostly of the 1922, 1938 & 1954 definitives, some of it already checked for perfs, but still a lot to be identified, such as Washington / Franklins for watermark and later issues for tagging. And if you grab the Scott Specialized, there's a whole lot more to be on the lookout for, such as color varieties, wet & dry printings, and large vs. small holes for coils.

Take the 2¢ Washington from the Fourth Bureau issue, for example (#599 & 634); both of these have a Type II, as well as a carmine lake variety, recuts, and in the case of the coil, double transfer and gripper cracks. In addition, a box of the 1922 issue, all with New York City precancels, and many examples of cut squares, some of which have up to nine different die varieties. A perfect lot for the sleuthing philatelist, generally Fine to Very Fine, additional images online.
