Estimate \$500 - 750

During the American Civil War, in addition to his Senate service, Lane raised a brigade of Jayhawkers known as the "Kansas Brigade". He led this force into action against pro-Southern general Sterling Price in the Battle of Dry Wood Creek as Price began an offensive early in the war to retake Missouri for the pro-Confederate state government that had been deposed by pro-Union forces. Lane lost the battle but stayed behind and attacked pro-South pockets in Missouri behind Price. His raids culminated in the Sacking of Osceola, in which Lane's forces killed at least nine men, then pillaged, looted, and then burned the town; these events inspired the novel Gone to Texas by Forrest Carter, which was the basis for the 1976 Clint Eastwood movie The Outlaw Josey Wales.

On December 18, 1861 Lane was appointed brigadier general of volunteers. On Mar 21, 1862, his commission was canceled in culmination of an argument over whether a sitting U.S. Senator could concurrently hold the rank of general.[1] However on April 11, 1862 he was reinstated as brigadier general of volunteers with the confirmation of the U.S. Senate. During 1862-1863 he served as recruiting commissioner for the state of Kansas.

Lane was the target of the event that became the Lawrence Massacre (or Quantrill's Raid) on August 21, 1863.

In 1864 when Sterling Price invaded Missouri, Lane served as a volunteer aide-de-camp to Samuel R. Curtis, commander of the Army of the Border. Lane was with the victorious Union forces at the battle of Westport.

SIXTH AND SEVENTH ISSUE – AUGUST 1944

All the returned cards were overprinted by the Government Printer utilizing a printing press with a tightly locked frame so that the overprinting would fall in precisely the same place with each impression. The cards were held in carefully positioned feed guides and then automatically feed into the printing press for each impression. After passing through the overprinting stage the cards were then re-assembled into packs of five and bundles of twenty-five packs.

Double overprint variety.

The original overprinting has been applied too low during the printing process and it is known that the printer had a number of spoils which were removed prior to sending back to the Post Offices Stores Department. The instructions given to the printer in writing were that; ***“the overprinting was to be placed in such a position as to cross out the words ONE SHILLING, in the lower part of the outer frame. Further the overprinting was not to be placed over or obliterate the King’s head.”***

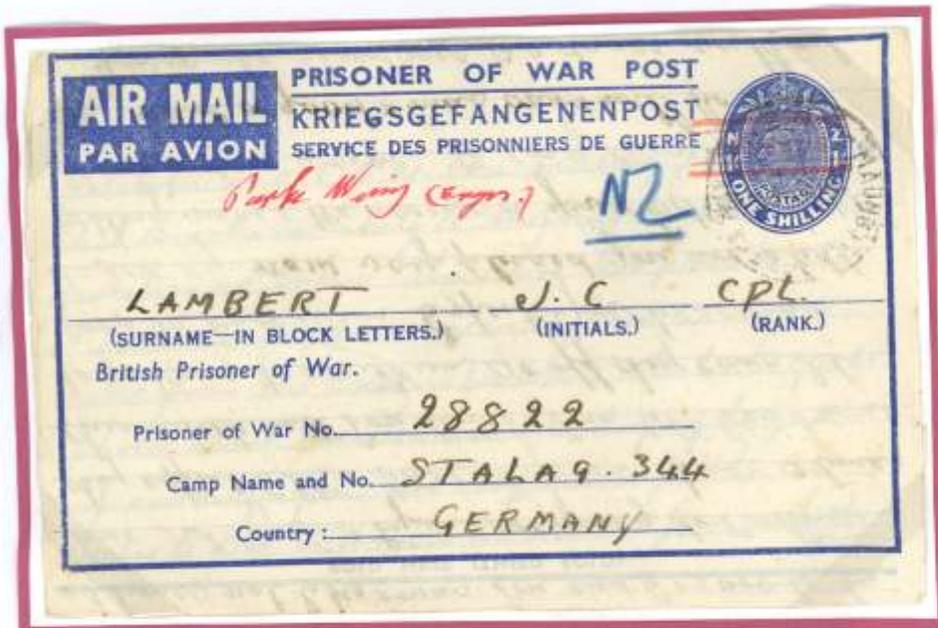

The one known and recorded variety of the overprinting to the sixth issue.

Inverted and misplaced overprint variety.

From 24 August 1944 until 30 June 1945 the postage rate for these cards was 6d.

Earliest recorded usage of type eight air letter cards, 20 March 1945, latest 25 May 1945.

Private Dennison had previously been a POW held in Stalag VIII A at Gorlitz, Germany. All POW's in this camp had been forced marched across Germany some 700 miles, starting on 15 February 1945 to Duderstadt initially and then on to Fallingbistel, away from the advancing Russian Army. He was liberated by General Paton's American forces on 3 April 1945 and flown firstly to Brussels and then on to the United Kingdom to await repatriation to New Zealand.

Eight mint and seven used copies known and recorded of this issue.

NINTH ISSUE – FEBRUARY 1945

During November 1944 the New Zealand Government Printing Office received 16,275 sheets of light weight paper to begin printing this ninth issue of 196,560 air letter cards. This issue was first made available to Post Offices around the country some time in late February 1945 and is the rarest of all the issues, as they were only on sale from mid-March 1945 until the 30 April 1945, when all cards were withdrawn and destroyed by the Postal Authorities in Wellington by fire. Post Office records state that only a few Post Offices actually ordered this issue, with the majority of the issue being destroyed.

Recorded usage of this issue from 5 March 1945 until 20 April 1945.

Seven mint copies recorded.
