2676 ★○ Japan, comprehensive collection, well over 1500 mint and used stamps housed in three albums. Highlights include the 1872 imperf and perf dragons complete used, followed by a good range of 1870s Chrysanthemum issues with denominations to 30s with and without syllabics, the 1876/92 Imperial Crest issues including the 12s rose unused, signed (#63), the 30s violet used (#66), etc, leading through to the 1896 5s Generals mint (#88, 90), the 1899/1907 Chrysanthemums including mint 25s, 50s and 1y (#106/108) as well as interesting perfins etc. Then the 20th century including good commemoratives with the 1916 10s blue and ultra ceremonial cap used (#154), the 1921 10s dark blue Communications Building almost imperceptibly if at all hinged (#166), the 1921 Battleships complete (#167/170), the 1923 imperf complete unused as issued (#179/187), the 1924 5y Jingo on attractive commercial-style Zeppelin 'round-the-world' cover, the 1927 UPU complete mint (#198/201) and later key definitives including the 1929 key 'old die' 8s olive green Fuji mint never hinged (#174a), the 1937 Jingo high values mint (#253/254), etc. Then follows the scarce airpost souvenir sheet mint never hinged (#C8), the 1935 Mt. Fuji miniature sheet of 20 mint never hinged (#222a) and all the national parks with the souvenir sheets mint never hinged on the key issues including the 1940 Daisetsuzan and Kirishima sheets (#306a, 311a) etc. Further better souvenir sheets include the 1948 Beauty Looking Back sheet of 5 mint never hinged, then virtually all the sheets, through to the 1980s. The back of the book here also has a wide scope, with currency, revenues, 19th century telegraph issues, Japanese occupations with postal history, etc, etc. A strong collection, offered intact as received, though there are occasional empty spaces for material the collector was yet to acquire. While there may be some mixed condition and forgeries in the 19th century, overall this is an excellent collection and most worthwhile, requiring not much to complete.
Estimate \$7,000 - 8,000

2677 ★○ Japan, one man's collection, housed in two very well filled Minkus albums with about 2000 mint and used stamps. The first few pages are loaded with classics from the first issues onwards beginning with no less than 30

Dragons including all the denominations imperf and perf, including genuine and reference, especially among the unused. Then the first Chrysanthemum issues of 1872/73 without syllabics with all spaces filled including an attractive example of the 20s lilac used also the 30s gray including the scarce foreign wove paper type, as well as lots of additional shades and types on the other denominations here with some wonderful looking postmarks and fancy cancels. These are followed by another replete page with an impressive range of more than 20 different syllabics, also to the 30s gray top value followed by the Goose, Wagtail and Goshawk types, leading on to the 1876 Chrysanthemums with distinct shades on the 1877 30s violet, etc, etc. The 20th century is also very worthwhile with the second album loaded with the souvenir sheets and virtually complete as such, for example the national parks souvenir sheets complete with covers, including 1938 Nikko, 1939 Aso, 1940 Daisetsuzan, 1940 Kirishima, 1941 Daiton/Niitaka-Arisan, 1941 Tsugita-Taroko, etc, all mint never hinged. Also the 1946 Postal Service imperf sheet never hinged, 1947 Tokyo philatelic exhibition mint, 1948 5y and 8y Miner complete booklets, as well as the 1948 lady looking back and 1949 Wild Geese sheets of five both mint never hinged, Smiling Boy imperf sheet of 10 mint never hinged, lottery sheets, etc, etc. The issues continue virtually complete though to the 1980s, followed by useful Ryukyus etc. This is an excellent lifetime's collection offered intact as received and completely uncataloged. Although there is reference material among the classics that must be expected, there is enormous potential for finds in the 19th century especially for those with knowledge of these challenging issues, as well as plenty of excellent 20th century material in tip-top condition that is often missing from many good Japan collections. A close inspection highly recommended.

Estimate \$5,000 - 6,000

2679 ★○ Korea, classic holding with important rarities, quite a holding of early Korea with a few 100 items including distinctly rare material, housed in one volume, as assembled by this collector as bought from collections and separate purchases over many years of worldwide buying, specifically Korea segregated from the Far East. Probably the best item here is an extraordinary marginal imprint used block of six of the 1902 3ch on 'Tae Han' 50p purple (#37g) with the red Chinese characters being inverted on the three stamps in the upper row. This error on the initial Tae Han overprint is not listed in Scott on the 50p and only a handful in existence. This block is accompanied by a Holcombe opinion stating that it is genuine and rare, with a separate letter from Holcombe that he has never seen or even heard of this error despite having collected Korea himself! Other

- highlights include the 1884 5m rose #1 mint pair, 1895 'yin yang' series complete mint x2 including both types of the 50p purple, as well as complete definitives used together on piece, a very impressive and visual multiple franking (#6/9 rare). The 10p blue also seen with distinct flaw in right-hand tablet (#7 var), followed by the 1897 'Tae Han' overprints in red on 10p unused (#11) and 25p mint (#12), the black overprint on 50p purple used (#15) and dozens more crammed together on a manila stockcard requiring categorisation. Then further 1900/01 'Yin Yang' definitives including the 20ch red brown mint (#27), the 50ch mint (#31), the 1901 10ch purple wing-marginal mint (#25) with unusual pre-printing paper fold, etc, followed by four of the 1902 Emperor's Crown issue mint and lots of the 1902 handstamp surcharges including 2ch on 50p purple used (#36e), again needing further categorisation leading on to the 1903 Falcons to 1w mint, the best being the 1w violet on lavender (#50), a completely sound and very attractive example with full original gum. Also present are Japanese Post Offices in Korea and a fascinating card of the 'tourist forgeries' including overprints and other interesting reference material etc. An excellent range for the Korean specialist collector or dealer, some faults are present as to be expected in such a holding, yet clearly with much more here to discover. Please inspect page for page, stamp for stamp, a lot that gets better and better on each inspection where you find more. Estimate \$5,000 - 6,000

The forerunners are strong with the three different languages including the scarce 'Un'anno di sole!' 10cm rose in never hinged quality with near ideal centering, as well as colors hardly exposed to light as with virtually everything else here. There is also a spectacular horizontal strip of five of the German inscription 10rp brown perforated double vertically in three places. Then the 'Pro Juventute' issues with highlights including 1915 series complete (#B2/B3), 1916 complete x2 (#B4/B6), 1917 complete (#B7/B9), 1918 complete x5 (#B10/B11), etc, then the National Fete souvenir sheet with three examples needless to say for this holding all flawless mint never hinged (#B105), similarly 6x the 1942 Geneva/National Fete souvenir sheet (#B119), as well as the scarce Insects se-tenant sheetlet and much more. - 2770 ★○ Switzerland, a perfectionist's mint and used stock of postage dues with much elusive material**, a further holding from the wannabe dealer with a penchant for quality, this time a wonderful array of postage dues from the 1884/97 series onwards, housed in two volumes with around 3000 stamps mint, mint never hinged and superb used. The first book is dedicated to the 1884/1909 olive green issues with numerals in red, with several 100s of mint and used, appearing at first sight to be a little disorganised compared to the other sections of the stock, however on closer inspection it becomes clear that this is an extraordinary in-depth showing of the different printings with systematic studies of the constant plate varieties, many in multiple format right up to the 100cts. Some of the most interesting

of these are the constant flaws, moreover there are certainly inverted centers on the same issue, here as shown by the breaks in frame which are otherwise very difficult to detect. There also multiples showing tête-bêche breaks in corner ornament, etc. The more you look the more you see here, making an exciting this a particularly exciting this viewing. The later issues in the second volume with many varieties identified, including the 1924/34 25cts on grilled paper mint and used, etc. This was obviously a favorite area of Swiss philately for this man. The strubel issues (also known as the imperforate sitting Helvetia issues) are the most popular specialization subject for most serious classical Switzerland philatelists, careful viewing recommended. 2782 ○ Turkey, an outstanding accumulation of mostly pre 1920s with high values including rare varieties, over 3000 mostly used stamps, most unusual with the vast majority pre-1920 including an impressive showings of high values and scarce issues in quantity. To give you an idea of the unique nature of this holding, there are for instance more than 700 examples of the 1916 star and crescent semi-postal overprints on the 10pi red used (#B25 Scott, \$200 each, Scott retail therefore \$140,000), at the end of this group there is a range of errors that the collector has personally discovered over the decades, including no less than four inverted overprints not listed, seldom seen if not at all. This pattern is repeated with other issues some 170+ examples of Scott #512 (\$35 each, total Scott retail \$6000), with three 'missing star' errors, accumulated over several decades squirreling, followed by 570+ examples of the 1901 5pi lilac rose newspaper stamp (#P48, \$27.50 each, Scott retail \$5000) including double and inverted overprints and highly unusual additional crescent and star overprints in red and black, nevertheless genuine postally used as is the case with virtually all the rest as well. Then 75+ examples of #390 (Scott retail \$67.50 each, approximately \$4000), 270 x #315A (Scott retail \$35 each, total nearly \$10,000), #315B including overprint inverted, followed by the 'Imprime' handstamp newspaper issues including the 1891 1pi blue and gray with black overprint x18 (#P12) and blue overprints x2 (#P12a), plus 2x 10pa with

blue overprints (#P10b), followed by the 1892s with 10x 10pa gray green (#P25), 39x 20pa rose (#P26, Scott retail \$375 each, approaching \$15,000), then 32x 1pi pale blue (#P27, Scott retail \$150 each, nearly \$4000)- an astounding array of good material. Elsewhere there are fascinating groups of Tughras, later 1860s overprints on Crescent and Star types including the 1867 imperf 1pi lilac, the 1886 25pi black and pale gray mint (#73), the Sultan's visit overprints for Monastir, Pristina, Salonique and Uskub an extremely unusual 1913 post office 20pa carmine rose block of 25 with inverted 'Star and Crescent' overprints not listed in Scott, even Turkey in Asia including the 3pi red surcharge on 2pa violet Artillery x15 mint never hinged (#10), etc, etc. The Scott retail on just the stamps we could find in Scott listed in this description alone well exceeds \$200,000 and there is far more here. A phenomenal lifetime's accumulation of expert cherry-pickings, the likes of which are hardly ever available today on the market, offered intact as received with good yet unlisted rarities. Estimate \$6,000 - 8,000

Then the surcharged revenues with 'Religious Tribunals' 500pi orange mint (#16) and extremely scarce 1000pi brown (#17, accompanied by colored photograph certificate), followed by 'Court Costs' with the 10pa green mint and 100pi brown used (#18,#22), the Notary Public (#24, #25), followed by an excellent showing of the '1337' overprints with an extraordinary mint part sheet of 20 of the 5pi red (#35) with the different settings, as well as 50pi ocher with handstamped overprint used (#36a), etc, etc. Then the 2pi blue black 'Land Registry' with two used, one on piece (#40), the 1921 5pi green used (#41), and scarce 'Museum Tax' issues (#42, #43) both superb used copies, followed by the type R16 revenues complete mint and used with both overprint types, as well as an impressive array of the Railway Tax issues again loaded with mint, used and varieties, through to the 'Naval League' complete used again with varieties and signed (#59/63), through to the Newspaper of 1915 overprinted scarce used on piece (#67), the 1922 pictorials complete used (#78/89), etc, etc. An exceptional collection, offered intact as received (photo on web site).

with lots of additional varieties, the 19th century continuing replete through to early 20th century including overprint errors, as well as 1924 Olympics complete mint and used (#282/284) and the back of the book, especially the airposts with 1925 Rincon used on cover and \$1 Pegasus used on centenary cover, as well as lots of officials to investigate. - 2831** ☒ **Worldwide, postal history collection of West Indies Steamship Lines, with extensive 19th century**, a wonderful and evocative collection of a few 100 items of postal history methodically presented with a detailed write-up, housed in 4 old fashioned albums. They are organised by the steamship companies and the various lines they operated from the 1850s onwards. There is much accompanied with collateral to do with the ships, as well as other interesting material. Shipping lines include the Atlantic Mail Steamship Co., Canadian Pacific, New York and Havana Direct Mail, Porto Rico Line, New Zealand Shipping Co, Pacific Steam Navigation Co, Elder Dempster Line, Morgan Line, Shaw Savill & Albion, etc. The collection begins with stampless covers 1860s/70s carried by ships of the Atlantic Mail SS Co. including the 'Eagle', 'Missouri' and 'Morro Castle', leading on to an 1864 'Roanoke' cover carried in the year the ship was seized and burnt by Confederate forces! Further seen items including the 1854 cover Matanzas to NYC carried on the 'Empire City' of the Morgan Line with perfectly struck postmark, etc, as well as a Barbados 1d postal stationery and cover with pair of the 4d brown sent in 1886 and 1890 respectively on the 'Advance' and 'Seguranca' of the U.S. & Brazil Mail SS Co. Also in this first album are the Central American SS Co. labels with all denominations represented unused including the 50cts in two different colors. Further highlights in the second album include an 1891 cover with 4d orange Bahamas single franking and blue 'per SS Santiago' handstamp with Captain's letter contents, as well as a confined Colombia advertising cover with stamp tied by purple strike of the Colombian SS Co. Then Antigua and St. Vincent frankings of the Western Ocean SS Corp, an 1876 whole used merchandise form of the Porto Rico Line, through to Leeward Islands 1½d KGV jubilee tied on cover by squared circle 'SS Scanpenn - posted at sea', U.S. 10cts stationery envelope with purple 'Red D Line, 1886, New York' postmark sent via the 'Philadelphia' with Curacao arrival cds in blue, a particularly attractive registered two-color franking Curacao to England carried on the Red D Line, as well as good Jamaica, Haiti, etc. Also seen the Pacific Mail SS Co. private o/postal stationery for 9 different ships on Guatemala quetzal 1ct ultra. The briefest possible list of highlights for the other albums must include the 1850s issues of the De Cordova's Mercantile Intelligencer, steamship agents' cachets including large stars of Laurie and Co., Barbados in pink and purple, then illustrated memograms from Martinique and Grenada, 'Bar-racouta' mail including British Guiana newspaper wrapper

1884 and Trinidad used on folded 'prices current' bulletin 1887, a wonderful 1904 US consular service Barbados stationery envelope 'per SS Terence' with strip of 5 2½d ultra Britannia, a GB 1880/81 4d gray brown plate 18 paying rate to La Guaira, Colombia per 'West Indian' of the West India & Pacific SS Co., etc. etc. Time and space do not permit further description other than saying this is an immaculately presented and well researched collection, disclosing the development and history of 19th century West Indies shipping lines representing one man's lifetime work.

Estimate \$4,000 - 5,000

2832 ☒ **Worldwide, one man's collection of postcards, mostly 19th/early 20th century**, housed in six small but well filled boxes. Many 100s of postcards both in color as well as black and white, also early multi-layered embossing/printing types giving an experimental 3d effect, etc. There are very diverse themes here such as pretty women, turn of the century circus performers, Swiss cantonal propaganda, as well as much other propaganda WW1 from other countries, early Spanish Matadors, sailboats through to early transatlantic liners, 1909 exhibitions cards, general advertising to name but a few. A thoroughly original lot which was going to be placed in this man's postcard albums, yet he never got around to it, after many years of buying individually at flea markets and the like. Postcard dealers particularly, spend some time viewing this lot, as there will be many pleasant surprises here way beyond this outline description, needing a little work to give it the presentation this excellent holding deserves.

Estimate \$1,500 - 2,000

Worldwide Collections and Accumulations

2833 ★○ **Worldwide, mint and used collection**, last minute entry as we were going to press with a must sell instruction. This is a voluminous lot housed in 5 boxes, some far better than others with a very diverse range of material. Chaotic in presentation, a very quick overview shows good postal history, especially US, and at the other end of the spectrum good solid topical collections. There is so much here to sort and value - we have put an arbitrary \$1200 per box with clearly 3 of these boxes worth much more. Go figure, this estate deserves a good viewing and has to have time spent on it to be appreciated. Estimate \$6,000 - 8,000

2834 ★○ **Worldwide, grandfather's collection with plenty of good surprises**, vintage collection of 1000s of mint and used stamps, virtually all one of a kind, housed in a well-filled Ideal album from the early 1930s with spaces for issues from 1915 to 1930, from Abyssinia to Yunnan-Fou. The majority of countries are replete, with highlights including Albania Korce eagles with 1919 shooting stars to left complete used signed (#91/97) and 1920/21 'besa' and posthorn o/postal stationery complete used (#129/140), excellent Alexandria 1921s to 30m on 1fr mint signed (#31/43) and the two Port Said surcharges also both signed (#45A/46), then the following page mostly mint, although a genuine and sound used example of the very scarce 60m on 2fr purple and ocher signed by Diena (#59, Scott retail \$2,400). This clearly sets the pace for a collection that must be viewed carefully page for page, as much is nonchalantly

presented. Further highlights continue with Austria with the 1931 Rotary o/postal stationery complete mint (#B87/B92), Belgium Antwerp exhibition souvenir sheet used (#221), Castellorizo 1922 o/postal stationery complete mint (#51/59), then a range of useful China, leading on to the Italian POs in China including Peking 20cts orange mint (#16) and the 1918/19 ½ct on 1ct brown mint (#22), similarly the Tientsin with the same key issues (#9, #15) etc. Also interesting Cilicia, Czech with lots of 'Posta' o/postal stationery, Danzig, Fiume including pairs imperf between through to 1921 Governo Provvisorio 2L and 3L mint (#144/145), followed by Iceland Christian X 1kr and 2kr mint (#126/127), strong Italy including Manzoni complete mint with particularly good centering on the 5L (#165/170, Scott retail \$1,400+) and 1928 Philibert complete mint (save first three values used), the 1930 Virgil complete mint (#248/256, #C23/C26), etc etc. Then we are only just crossing the halfway point of the album with better material continuing throughout. We note Japan including the 1921 battleships complete (#167/170), Oltre Giuba complete mint regulars, semi-postals and express stamps (#1/#E2), Rhodes 1929 crusaders complete with the 5L and scarce 10L used (#22/23, Scott retail \$1,150), good Polish Levant 1919 complete mint (#2K½K12, Scott retail \$840) and Poland herself also excellent with the rare 'Poczta Polska' 20pf ultra used (#21a, Scott retail \$2,250), as well as Cracow o/postal stationery with used 3h, 5h, 10h, 20h, 30h and 4k (#41/49, #51/57, #59, total Scott retail \$1,200+), etc. etc. Far more here waiting to be discovered, especially in the Russian revolutionary period onwards. An extraordinary and satisfying old-time collection to view, much recommended.

2841 ★○ Worldwide, 1950s to 1990s, a spectacular stock of mostly mint series including lots of British Commonwealth, enormous holding with 10s of 1000s of stamps, both definitives and commemoratives, the results of many years of hoarding, mostly bought on a new issue service at the time, generally x4, x8 or x12 on material that this wannabe new issue dealer liked. Better countries include Jamaica, Portugal, Norway, Vatican, Zambia, various pacific Islands of which most are British Commonwealth as well as British West Indies, etc etc. This immense holding is 'A-Z'. A conservative figure easily put the catalogue figure in at \$40,000 +++ which means this a great opportunity for a dealer looking to break down a valuable new issue holding of those years, specifically selected series by series often with popular topicals in Mindelheim & Kirchheim, especially birds and animals etc. This is a must sell instruction and is an extraordinary opportunity for a
