2059 ★ Canadian Provinces, extensive and beautiful mint collection, 1857-1947, in mounts on Schaubek pages, over 90% complete for the period, with catalog values to \$5,000. Some rarities in the 1857-1870 period are missing, but the collection is apparently complete from about 1870 onwards. All provinces (excluding Canada) are represented. Newfoundland is quite extensive, with all the basic definitives from the 1860's onwards, and in complete sets. Gum is mainly o.g., ranging from heavily hinged to lightly hinged, with some no gum in earlier issues and a few never hinged in the more modern. Centering tends toward F.-V.F. throughout. There are some faults on the classics, affecting perhaps a quarter to a third of the total catalog value, including faults on the most expensive item in the collection, Nova Scotia No. 4 (catalogs \$5,000, margins added). The great bulk of the items are however in excellent fault-free and very salable condition. This is an excellent lot for the collector wanting to add most of the issues of this area in one stroke, or the dealer (especially the internet dealer) looking for lots and lots of salable, collector-oriented sets and singles. - 2061 ★ Canada, a magnificent mint collection, virtually complete for the period, 1852-1951**, 342 stamps, in mounts on Schaubek pages, missing only a handful of Queen Victoria Pence rarities, otherwise complete (for basic issues) from 1859 onwards, including Large and Small Queens, the Maple Leaves, Queen Victoria Jubilee, all King Edward VII, all King George V including Admirals, coils, Maple Leaf and Scroll definitives, all King George VI, also air-mail, war tax and special delivery (no officials, postage dues or registry, also few or no laid paper or minor varieties - other than Small Queen shades - and no imperf errors). A beautiful basic collection which attempts, with considerable success, to fill all the album spaces.
- Condition:** Gum tends to be average for the period, with some no gum (a very few regummed) in 19th century issues, majority being o.g., ranging from part o.g. through hinge remnants to lightly hinged for modern; there are many never hinged 20th century issues but all the key values through 1942 are hinged. We note only a few faults (the occasional thin or crease); these affect 10% or less of the total catalog value. Centering tends toward Fine for the earliest issues, then generally F.-V.F. from the Large Queens onwards, with a significant number of Very Fine; no outstanding Superb 100 Jumbos, but pleasing attractive collectible appearance throughout. Colors (with only about 6 exceptions) are quite fresh and bright. And - just for full accuracy - two Small Queens are in fact used.

2074 ★ Great Britain, chaotic accumulation, strictly for stamp workaholics only, this is a somewhat chaotic old-time accumulation of many hundreds of QV to KGV stamps mint and used, the good thing is it is all on quadrille album pages, often with write-up and with little gems to be found when you look carefully with superb used cds examples and useful mint/unused classics. We saw penny reds and 2d blues imperf and perf identified by printings inc. 1854 1d perf 14 in blued paper strip of 4 used, later perf 1d reds plated, 1870 ½d assembled by plate on both shades and 5 different plates mint inc. one marked as the scarce plate 9 though difficult to determine, 1870 1 ½d also with plates and shades, etc etc. Among the surface-printed we note small corner letters 1/- green used, 1865 3d rose mint with straight edges at top and left wing margin, lots of 3d rose, 4d vermilion and 6d violet plates, 1867 10d red brown used, 1872/73 6d pale chestnut plate 11 unused, and a very attractive wing marginal used example of the 6d gray plate 12, then colored corner letters inc. 2 ½d mauve plates 5 and 9 both mint, 1877 4d sage green cds used, 1880/83s to 1/- brown used, 1880/81 2d pale and deep rose shades and

the 5d indigo used, 1d lilac 14 dots, lots of 1883 'lilac and greens' to 1/- inc. cds used 4d, 6d and 9d, followed by extensive shades and printings page after page on the KEVII definitives with the distinct possibility of making finds. The KGV definitives are also highly specialised mint and used, as well as seahorses to 10/- used inc. several 2/6d shades and the re-engraved 5/- and 10/- used, the former with light cds and near-perfect centering, Exhibitions 1924 and 1925 both complete mint and used, 1929 Pucs with control numbers, etc, etc. Completely uncataloged, yet will certainly run into 10s of 1000s of £s. Sleepers likely including top quality, viewing a must (photo on web site).

Estimate \$1,500 - 2,000

2075 ★ Great Britain, old-fashioned collection, well over 400 mint and used QV to KGVI stamps well written-up with lots of good material. The collection starts with line-engraved inc. 1d red probably from the black worn plate, used with neat maltese cross and four margins, then the perf 2d blue 1858/69 thick and thin lines with all the plates complete used and plate 9 mint, 1d reds also by plate with 34 different mint inc. plate. 102 pair and good plates 78 (unused), 114, 182 and 223, as well as the used plates complete to 224 (less 77!) in far better condition than normally encountered throughout. Then the early surface-printed, including different types on the 1855 4d rose used, 6d lilac used pairs on deep and pale shades, later QV high values inc. 1883 5/- with unusual Monks Kirby cds and the 10/- pale ultra sound and well centered, 1887/91 jubilees complete mint inc. shades on 3d and 6d and both the 1/- green and 1/- green and red, followed by the KEVII same types with mint to 1/- and used to 10/-, mint KGV definitives inc. 9d olive green, 1913 royal cipher watermark ½d green mint, the re-engraved seahorses of 1934 complete mint to 10/- with vibrant colors in excellent condition, etc, through to KGVI inc. definitives 1937/48 complete mint to £1 brown, £1 silver wedding mint never hinged and used, 1951 high values complete to £1 mint and used, etc, etc. A very pleasing old-time collection completely uncataloged, with the distinct possibility of finds. Please inspect carefully page for page, preferably with an SG (photo on web site).

- 2078 ★○ Indian States: Jammu and Kashmir, an old-time specialised and important collection,** An extraordinary old-time collection housed on quadrille album leaves of well over 350 mint and used stamps from 1860s to 1890s, imperf and perf, virtually all one of a kind, written-up the old fashioned way, ie in ink on the pages, often stamp for stamp. The collection displays much scholarship on the different printings with watercolors and oil colors, as well as many subsidiary shades differentiated, with many scarce items present and items that even we have never seen before over many years of experience. All of the early issues of Jammu and Kashmir but one are cut-square, with the best quality often on the best stamps. These include (unused as issued, unless otherwise stated) the 1866 1/2a gray black SG#1, the 1866 1a ultra (#3a), the 1869 4a red (SG#8), followed by the 1874/76 special printings with the 1a emerald green unused and used (#21) the latter with corner thin mentioned for accuracy's sake only, plus the 4a bright blue (#19). Then the complex oil color issues with more than 40 stamps over four pages, with highlights including the 1/2a sage green x3 (#35), 4a sage green signed (#37), 4a red x2 (#28), etc. The oval types follow for use in Jammu only, from 1867 onwards, again with better including 1/2a indigo (#54) and 1/2a and 1a deep ultra (#56/57), leading on to the equivalent designs for use in Kashmir only, similarly in-depth with all denominations of the 1867/77 issues on native laid paper, types distinguished on the 1/4a black. Then an extensive survey of the general issues of 1878/94 for Jammu and Kashmir combined, with the provisionals, definitives and new colors, again studied issue by issue and with additional sections showing the types of official re-issues that were subsequently used for postage, leading through to the officials starting with the red unissued types, then the black issues including medium laid papers, as well as a section on revenues with horizontal design of guards either side of shield in black, blue, ocher and red, again seldom seen. This is an important collection of this popular Indian Native State. The sections that we could catalog with certainty, came to well over £10,000 in Gibbons - this only consists of a few pages and a fraction of the collection. There is much more that which we could catalog subject to certificates and we leave this to the experts to evaluate. There may be reference copies present but none that we could recognise. Please see the scans for yourself on the internet to get the flavor of this lifetime's work. A real opportunity for the specialist. (photo on web site). Estimate \$4,000 - 6,000

- 2120 S Brazil, an important collection of specimens**, well over 200 mint never hinged stamps of the portrait issue of 1906/19 to the 5000 Re-Issues Liberty head (#174/188), all one of a kind, with specimen overprints and punched holes as released from the printer's archives. This represents a complete series of stamps from each of the printing runs, as ordered by the Brazilian post office, organised chronologically. There are lots of distinct differences in shades as it was not possible to match perfectly the different inks, as well as of course the many different types of the specimen overprints in blue and red, large and small, with and without serifs, etc. This is an invaluable collection and would be extremely difficult, if not impossible, to replace today as many issues were only produced in one sheet and this is a complete run of the orders. The condition is virtually perfect throughout. A fantastic opportunity for the specialist, particularly as an in depth collection of these elusive issues (photo on web site). Estimate \$2,500 - 3,500
- 2121 ★★★○ Brazil, dealer's stock, 1844-1945**, 350+ stamps in counter book, better mint includes #78, 172-173, 342-355(x3), C1-C16, C26-C27, 1CL1-1CL7(x6), better used includes 22, 28, 39, 53-60, 61-67(x4), 68-77, 96a, 97, 98, 364-374, C1-C16, C26-C27, C29-C30, and P1-P9, typical mixed condition, overall appealing and well worth checking out, with some varieties, o.g., hinged or never hinged, F.-V.F. Scott \$5,360 (Owner's). Estimate \$1,500 - 2,000
- 2122 ★○ Brazil, selection of 52 almost all used Small Numeral Issues, 1844-66**, including used Scott 10, 22, 28, 38 (3), 44 and 48, huge catalog value and overall clean and F-VF, viewing suggested. Estimate \$500 - 750

- 2124 S Colombia, an important collection of specimens**, about 300 mint never hinged specimen stamps, all one of a kind, organised chronologically. There are both regular and back of the book issues here from 1910 through to 1950s, representing virtually every commission completed by the printers, making this a particularly important record for the specialist. The issues include the independence centenary series complete to 10 pesos (#331/338) and the 1910 registration and acknowledgment of receipt issues for the same occasion (#F22, H17), through to the 1935, 1939 and 1940/43 pictorial types (#437/439, #467/474, #488/492, etc.), the 1946 bi-color Sucre series (#528/536), the 1947 orchids (#546/551) etc., as well as all the postal tax for construction issues (#RA8/RA12, #RA18/RA25, etc.) and all the airposts including three complete runs on the 1941 series (#C121/C133), etc, etc. Often only 1 or 2 sheets were overprinted specimen. Many of these items are therefore very scarce and the quality is tip-top mint never hinged throughout, with vibrant colors hardly exposed to light. A great opportunity for the specialist, seldom available in collection format (photo on web site). Estimate \$1,500 - 2,000
- 2125 S Costa Rica, an important collection of specimens in pristine condition**, about 1000 mint never hinged stamps, virtually all one of a kind, organised methodically, starting in the early 1900s through to the 1950s. Many of these only exist in very small quantities, often two sheets or even only one sheet ever printed as specimens, therefore there are many scarce stamps here in their own right. Highlights include back of the book with the 1909 telegraph stamps complete, through to regular issues with the 1921 15cts purple Bolivar (Scott #110), the 1931/32 airpost overprints (#C11/C13) with both printings of the stamps and only 100 of each specimen ever produced, through to the 1946 soccer airpost types (#C121/C123) with only 50 each having overprint muestra, followed by airpost high values of types #C24/C27, however these are also the red overprints for the 1946 Pan-American postal congress that was scheduled to be held in Rio de Janeiro but cancelled at the last minute, very seldom seen. Then more comprehensive series of further revenue types, most were overprinted for different fiscal functions with some overprinted at source including 'cheque', 'deportivo', 'universitario' and 'timbre consular' surcharges. There is also the rare Waterlow and Sons composite essays in sheetlets of four in three different colors, values from 10cts to 100 pesos, design similar to types of the 1892 series, again exceptional. There is so much more here to view as this represents a fascinating history of the post office of Costa Rica, invaluable for differentiating the printings with definitely some unsolved mysteries here to research. These archival issues are hardly ever seen in collection format with everything in perfect condition. A highly recommended opportunity for the specialist, dealer or collector. (photo on web site). Estimate \$2,500 - 3,500
- 2126 ★○ Croatia in transition, 1918-19**, Croatia forerunners for that country's unification with Yugoslavia with a few 1000s stamps housed in one substantial volume with mostly inverted overprints as well as other errors through to the unoverprinted issues of 1918/1919, and scarce back of the book. There are inverted overprints in multiple format on virtually every issue as well as many double and misplaced the overprints, 'wrong' overprint types including multiples. Highlights in the regular stamps include the overprints on types of 1916 10f violet and 15f red mint x 2 and used (#2L3/2L4), then the issue 10f rose with white numerals mint (#2L4A) and the 15f violet mint x 6 and used (#2L5). Then the issues of 1916/18 inc. 50f parliament building pair mint (#2L16) with overprint type sideways, similarly the 80f green (#2L18) with cartwheel type overprint sideways on corner block of six, followed by the Charles and Zita types inc. 20f brown (#2L25) with blue overprint inverted and double overprint of blue and black together, the 25f blue (#2L26) corner block of 25 with inverted overprints, blue and red overprints doubled, etc etc. Then a study of the freedom of Croatia-Slavonia series follows, with the 10f rose double impression block of 25 (#2L28), a block of 4 with upper stamps having cliché "25" instead of "10" se-tenant with normal lower stamps, the 10f proofs in violet and green perf and imperf, with a similar range on the other denominations inc. 20f and 45f rose se-tenant pair imperf, 25f blue side-margin imperf block of 6, thru to 45f (#2L31) mint and used x 4, imperf, imperf double impression pair and proofs in red and violet, etc, followed by the allegory of freedom, youth with standard and falcon types of 1919 with at least three full sets of imperfs including clear district shades on every denomination, as well as the 10f red with two imperf double impressions both expertise by Ercegovic, etc. Then the back of the book with many further errors on

- semi-postals, special delivery, newspaper stamps and postage dues including the 1f with double overprint one inverted, signed (#2LJ2a var), the 2f issues with values in black with 2 or 3 signed, inverted overprints on 10f used on piece, signed, 12f mint, signed twice, 20f mint block of 4, 30f, etc, then the 50f green and black again with two mint examples expertised by Ercegovic, as well as the 5f and 6f denominations prepared for use but not issued. There is also some attractive postal history. This is a great collection for the specialist of this area, dealer or collector, as there is so much unusual material (photo on web site).

Then the 1906/13 pictorials series of 20 with distinct shades on the different printing runs, as well as a complete series of 12 imperfs on a 1908 printing, the presidents with centers in black including a 1914 'exterieur' type series of 13 that were never released due to theft in transit from the printers! There are many more series here into the 1950s including the airposts from the first issues onwards, all in the same mint never hinged pristine quality as printed, vibrant colors throughout. - 2286 ★○ Syria, Lebanon, Alaouites and Cilicia, a very attractive oldtime collection**, beginning with Cilicia with the T.E.O. types to 50pi green on straw mint (#85), as well as errors inc. the good 5pa green old general post office type (#76a) with double overprint, one inverted, a particularly interesting stamp and is not listed in Scott or anywhere else we could find. The collection continues with better French Syria as well as airmails and semi-postals with the first T.E.O. overprints of 1919 mint (#1/3, Scott retail \$1075), all with signatures and O.M.F overprints to 25pi on 5fr olblue and buff mint (#50), as well as many more later semi-postals and airpost, again with signatures. A good collection virtually complete of Alaouites to high value Mersons, mint airmails etc, not forgetting French 'Grand Liban'/Lebanon, again with many good items from the first issues onwards including airmails and semi-postals such as help for refugees/secours etc, also seen some post offices abroad in the Levant to high values etc. A wonderful original collector's collection with vibrant colors and tip-top condition throughout. An excellent holding of Middle East with far more here than described and more discoveries to be made, especially in varieties (photo on web site).
Estimate \$1,500 - 2,000
- 2287 ★○ Thailand, collection of mint and used with postal history**, virtually one of a kind from #1 through to the modern era, including a work in progress section mostly classics and early 20th century. Beginning with the first series complete, followed by the 1887/91 Chulalongkorn series complete, through to the 1889 surcharges with the distinct possibility of good stamps here, similarly with the dozens of the atts surcharges present. then the 1899/1904s complete used, the 1905/08 temple types complete used, the 1908 statue of Chulalongkorn on horse complete used to 40 ticals blue and black, the 1909 satang overprints inc. 6s on 4a red and gray mint etc. Then the 1912 King Vajiravudh complete used to 20 baht blue and brown throne room complete used, etc. as well as better back of the book with all three series of the 1920 wild tiger corps 'scouts fund' semi-postals complete used, leading on to the postal history section. These include the Vienna printing 1 baht Vajiravudh in combination with 1932 Prajadhipok issues on cover of Berlin, accompanied by vivid red luftpost cancels and more than a dozen other colorful frankings from an original correspondence, especially attractive with the issues of the 1941 Mahidol/ Plowman/Pavilion series, including illustrated covers etc etc. Completely uncatalogued, offered intact as received, thorough recommended.
Estimate \$1,500 - 2,000
- 2288 ★○ Tibet and Nepal, collection including postal history**, an impressive collection of approximately 800 stamps including large multiples and covers, housed in one substantial volume with a far more varied range of material than usually seen, including much genuine besides the inevitable reference material. In the Tibet, we note first issues complete unused (as issued) including 2/3t carmine with 'potsage' error, followed by a page of the 1914 large format 4t blues and 8t reds both unused and used, as well as on cover which we presume to be a philatelic creation, though the stamps are probably genuine. Then an extensive showing of the square type snow-lions including scarce pin-perf examples with ½t orange unused x3, 2t scarlet unused x2 and a used 4t emerald top value, as well as an imperf pane of 24 with unusual spots of violet ink canceling each stamp, followed by spectacular oversized types, possibly revenues, not listed in Scott, then finishing with more than two dozen further covers again presumably of philatelic origin, nevertheless interesting for the variety of postmarks and registration handstamps. The Nepal also makes an exciting viewing with lots of tete-beche pairs on the 1/2a black used, multiples including a very scarce 2a brown imperf block of 52 unused incorporating tete-beche pairs, followed by a block of 64 of the 1917 1a indigo, as well as a page of 4a dull green examples in multiple format again including a scarce used imperf tete-beche pair. This collection, more than most we have seen, shows that the Scott catalog is far too simplified on these fascinating issues. There will be reference items, as to be expected. A great opportunity for the specialist of this area to enjoy an unhurried viewing, including many items seldom seen.
Estimate \$2,000 - 3,000
- 2289 ★○ Turkey, highly specialised collection of the 19th century Morton and Co. Local Posts**, a collection of the large circular locals issued for use on T.B. Morton & Co. steamers, taking mail via the Danube from Constantinople in 1869, in exceptional quality with the majority cut square. The stamps are organised methodically by issue and written-up on quadrille pages, starting with the 20 paras red on white with and without steamship illustration, including a particularly scarce used example from July 1869 with Morton postmark and another showing 'Monton' for 'Morton' error. Then the 1 piastre in blue, black or red on purple for the Constantinople-Galatz rate, again including the 'Monton' error, followed by the 1 piastre blue newspaper issues including an unusual forgery of the first issue, followed by the 1 piastre red on blue for use on mail to Ibrael, again with 'N' for 'R' error and a rare used example cut-square with magnificent margins all round, as well as the newspaper issues in varying shades of ink and different papers. Then in the same detail follows the 1 piastre for use to Scilina red on yellow and blue on yellow for the newspaper issues, including the error of spelling on both types. These issues are seldom seen, especially in the format of a highly specialised and important collection. An excellent opportunity. Try to find this again. Please study photoplates to get a flavor of this wonderful collection (photo on web site).

Beginning with the Danube from Constantinople in 1869, exceptional quality with the majority in cut-square condition. The collection is organised methodically by issue and written-up on old fashioned quadrille album pages, starting with the 20 paras red on white with and without steamship illustration, including a particularly scarce used example from July 1869 with Morton postmark and another showing the 'Monton' for 'Morton' error. Then the 1 piastre in blue, black or red on purple for the Constantinople-Galatz rate, again including the 'Monton' error, followed by the 1 piastre blue newspaper issues. Then the 1 piastre red on blue for use on mail to Ibrael, again with the 'N' for 'R' error and a rare used example cut-square with sidewalk margins all round, as well as the newspaper issue in varying shades and different papers. Then follows the 1 piastre for use to Scilina, red on yellow and blue on yellow specifically for the newspaper issues, again including the

error of spelling on both types. These issues are rare, particularly in the format of an in-depth collector's collection. This is a great opportunity as such a good collection of these issues are hardly ever available on the market, offered intact as received (photo on web site).

Further complete Bolivar series include the 1899/1901 (#142/149), the '1900' o/postal stationery (#156/160) and the 1915/23 portraits (#259/268) as well as distinct shade differences.
