- 2205 ☒ Canada, WWII Prisoner of War Correspondence.** An original correspondence that just surfaced after 60 years. When this was given to us from our colleagues in Quebec, we asked whether they had time to read this or part of it. They reminded us that there are about up to 1000 covers written in French and we understood it would be a mammoth task. The overwhelming majority have made the most of the space available on the letter writing side of the Kriegsgefangenenpost from the various Stalags. It would take weeks for even a fluent French speaker and historian to assimilate all the information here. There are mainly 5 family names in this correspondence, Madame V Branly, Henri Brochart, Mme Prissette-Florentin, Madame Cotrez and Raymond Leroy. Clearly this deserves to be researched as primary sources of WWII. On the postal history side we have noticed unusual palm tree cancels, similarly insect cancels, various other fancy cancels such as rabbits, fruit, obscure symbols presumably of Aryan significance and every cover has numerous strikes, each telling its own story. The years covered are primarily through the occupation period from 1940 and from what we can see, comes to an abrupt halt in mid 1944. Often the covers are juxtaposed with blue, red and black cancels, some of the Stalags have

fancy censor geprueft cancels all of their own, such as the heart largest of Stalag 38. Nevertheless the content as well as all the philatelic significance makes this equally special. If these were offered individually on Ebay, many should sell at \$30 - \$50++ each, especially with the contents translated. However it would be such a shame to split this up, it is therefore offered intact as received and hopefully will be kept that way. A wonderful opportunity for the postal historian and historian. Estimate \$3,000 - 4,000

- 2206 ☒ Canada, WWI Postal History.** Including patriotic, propaganda and a huge variety of postmarks often written from the Front. Although this arrived in a large battered album and we had to jettison the front binder, it was quite clear that this was an unusual and important holding. There are no prices anywhere as this represents one mans collection with its own history of the events of WWI. There are over 100 pages with approximately 5 to each page, ie more than 500 items in total. We noticed fancy labels for the Allies designed to create funds for the wounded tied to the postmark, as well as postcards with the call to go forward Le Chants du Soldat and various different camps, including colored from the camp from Creuse. There are many different kinds of postcards, romantic postcards, color postcards with soldiers with children defending their homeland, various regiment cancels, all kinds of war scenes including horrific war dead, as well as postcards of horses dying in the street. Perhaps the most potent is the colored postcards of the Kaisers soldiers shooting two 15 year old French children for obstruction etc. There are censor strikes galore including unusual such as double concentric and oval from the union of women in France, Le Capitaine etc. Further propaganda also includes cards with the Kaiser of the target practice on the Kaiser and much much more. An extraordinary range with many items here that should sell at \$20++ each on Ebay. An opportunity to buy one mans collection. Estimate \$1,500 - 2,000

- 2252 ★○ India, British and Portuguese, an Extensive Accumulation.** A very well filled and diverse holding of many thousands of stamps, specifically focusing in these 2 areas of India, there is duplication, sometimes up to a dozen or so of each, often however that is uniform for complete series with much focus on commemoratives. British India starts from the first issues imperfs onwards with a good range of Queen Victoria and King Edward VII, with virtually everything stacked "stamp on stamp", making an interesting and challenging value. A similar pattern with King George V and King George VI through to back of the book, as well as useful mint modern, apparently very desirable in today's hot market for India. Portuguese India also strong with much from the 1950s again in complete series from late 1940s with our lady Fatima issues, Jose Vaz, ruins of Sancoale Church as well as Map of Damao and Nagar and Arms of Vasco da Gama through to 1959 Coin Manual, etc. This description is only the tip of the iceberg, must be viewed, completely uncatalogued. Estimate \$500 - 750
- 2254 ★○ Indian Native States, an Important, If Not Unique Collection of Revenues.** Housed in 11 substantial albums, well written up and highly specialized. Definitely the best and most specialized collections of the area that we have ever seen. It is no exaggeration to say that it is beautiful and would be virtually impossible to replace. There are 11 large albums, chronologically organized State by State, representing a lifetime's work of the hunt and collating such, all one of a kind, denomination by denomination, there are about 1350 examples, occasionally with revenue stamps applied to the documents in multiple format with extensive revenue papers, all well researched and written up. This is a very difficult collection to value, some of these are so attractive and scarce that if offered individually on the net could easily fetch \$50 to \$100 each+++. Some of the Indian Natives States here, for example, include Alwar, Aundh, Baghal, Baroda, Benares, Bhajji (particularly attractive fancy cancels), Bhopal, Bikaner, Bundi, Chhata pur, Dhami, Dhar, Dholpur, Gwalior Indore, Idar, Indaragh, Jaipur (Jeypoor), Jaisalmer-Jubbal, Jodhpur, Jhind, Jhalawar, Kotah, Kishangarh, Lakhtar-Mysore, Melar Kotla, Miraj, Mewar, Nawanager, Pudukkottai, Patiala, Partabgarh, Rajgarh, Shapura, Sangli, Travancore-Cochin, Tonk, etc etc. Many of these have colorful Maharajahs, coats of arms, very ornate designs, each and every one a collectable item in its own right. A once in a lifetime opportunity for a dealer or collector, especially at our valuation range of about \$5 each. (Ex-Cardinal Spellman Philatelic Museum deaccessioned).
Estimate \$4,000 - 6,000
- 2255 ★○ Indian Native States, an Old Time Collection.** Several 100s of stampss, mint and used, even a little postal history. We have had no time to go through this carefully, however a quick inspection revealed this collection has a good showing from States such as Alwar, Bamra, Bhopal including officials, Bhor, Bundi, Bussahir, Chamba, Charkhari, Cochin all the way through to Wadhwan, well worth further inspection. The Convention States also has interesting material but not as challenging and certainly more obvious from QV onwards. The collection overall is loaded with distinct possibilities especially in the 19th century and is ideal for the specialist of Native States to enjoy a good viewing.
Estimate \$500 - 750
- 2256 ★○ Indian Native States, an Old Fashioned Collection.** Copiously drawn up with appropriate squares and descriptions to accommodate all the different permutations this collector was trying to achieve. The collection has mint and used from the 19th century onwards and probably the most interesting parts are Travancore and Cochin. The latter particularly from 1882 onwards with an extensive study of the various different definitives, as well as the overprints, with as far as we can see over 100 different stamps here including various errors for the specialist to research. Other interesting States include Charkhiri, Hyderabad (well worth spending time on) Idar, Indore, Jaipur, Jhind with various 19th century imperfs, Kishangarh, interesting Poonch imperfs, etc with much non-Scott listed. A recommended viewing for the specialist, many finds likely.

- 2266 ★○ Jordan, a Magnificent Collection of World Class Standard.** An extraordinary specialized collection with several hundred of these elusive issues, hugely underestimated in Scott and for that matter Gibbons, given the very low printing numbers and that good collections such as this are hardly ever seen on the market today. This is well written up on quadrille album leaves, mint and used, housed in two albums, there is some minor toning so please carefully view. Also, there are a tremendous number of varieties this collection having been formed in the 1950s. The collection is absolutely loaded with multiples, often disclosing the different settings, even complete sheets seen and their accompanying constant varieties, such as dropped numerals and missing letters, reversed albino inscriptions, overprints in different colors, overprints radically misplaced, different surcharges se-tenants, inverted as well as narrow overprints, tete-beche, double perforations, proofs etc. Where there is used in the collection, they are postally used. Furthermore, there is also a small reference section again written-up which gives very useful comparison purposes, clearly demonstrating that the overwhelming majority of this collection has been correctly annotated as genuine. Just a few of the many examples seen are the 1924 (Jan) SG 114 reconstructed sheet of 36, the 1923 (Sept) SG 111a surcharge inverted pair mint, the 1923 issue in sheets, etc. This was given to us at the 11th hour, the best way to appreciate how good this is would be to visit us here and study this carefully, it is quite probably a once in a lifetime opportunity, it is that special. If you cannot view it personally, please study the scans on the internet in their entirety. This is a breathtaking irreplaceable collection, the best we have ever seen of Transjordan with a good number of unique items. Estimate \$15,000 - 20,000

This is a beautiful collection, extremely well displayed with extensive write up housed in 1 substantial album, mint and used with many permutations most of which are not listed in Scott. This definitely requires the use of an overseas specialized catalog as there is much seldom seen material. It is specifically post 1945 in tip-top quality beginning with the April 1945 m/s for the return of Dr Benet, including a registered cover of the same to England which is certainly scarce. Equally unusual are gutter pairs of the 2, 5 and 6k of the same again on another registered cover! The collection continues to unfold with the 16th May special presentation sheets for the new republic including the hailed return of the Boys Scouts movement, banned by the Third Reich in the Protectorate. Further propaganda here promoting the short transition of democracy before the Soviets consolidated their power. Also present unusual definitives in blocks of 4 from the corner margins of the sheets with the plate numbers, as well as an extensive range of airmails with se-tenants etc, among the different types of miniature sheets well worth researching and much more that makes this collection special. It must be viewed to be fully appreciated. Estimate \$600 - 800

Starting with a rejected design of the 10c Ceres head, as well as accompanying explanation for its rejection through to a mint booklet pane for the Marshall Petain 1f50, dated 18.8.42 with interest in the advertising on the selvaige, then 1941 "Contre le Bolchevisme" airmails with 3 different examples of the set of 2 including missing overprints, the same again with selvaige, as well as the "Front de l'Est Ostfront" overprint also present. Then there is the Czech volunteer 1917 labels in which the collector explains how "for all intents and purposes (these issues are) a semi postal", followed by an excellent study of the 1939-1942 London Propaganda forgeries. Issued to aid the French underground, these scarce postal forgeries are accompanied by the genuine issues, again the collector has approached this in a scholarly manner and highlights the subtle differences between the two. Next is a newly discovered variety on #477 and #488, leading on to Guynemer semi-official (as listed in Maury) air post labels, mint and with postmark, described as scarcer than #C1 and #C2, worth further investigation. Also seen, a study of the 1936 Radiodiffusion block of four, as well as double surcharge (Yvert #34a), followed by, proofs, etc. A fascinating studious collection that makes an absorbing viewing. - 2411 ★ France, an Interesting Volume of Mint Stamps 20th Century.** Starting slowly and builds up quickly. There is also much never hinged, often when you least expect it, i.e. in the late 1930s/40s. Beginning with various odd value early definitives of the Sower types needing further identification, followed by the 1924 Olympic series complete and virtual completion from the 1930s Congress pair overprints onwards, including "Pour l'art et la Pensée" mint, then page after page of better series of the 1930s including the Intellectuals, through to the 1940s including definitives leading on to back of the book with the 1950s and 1960s with comprehensive UNESCO "Conseil de l'Europe", etc. Then the early Affranchis including mint never hinged 45 Merson and various complete series thereafter all the way through to the musical instruments, ending with further non-Scott listed back of the book. Yet more regular militaria including Napoleon quotes, battle scenes, ships such as cuirasse Charlemagne and French regiments including the 249 de Ligne, 364 Regiment infanterie 1914, 1915, 1916, etc, etc. One of the more unusual items seen is the entrance ticket for the Exposition Universelle de 1900 held in Paris. There is more exposition related material including a companion piece for the 1900 ticket, Lyon 1914 labels, La grande Semaine de Tours 1934, Jeanne D'Arc inspired Rouen, 1931, etc. A very attractive collection with much more here than described. Estimate \$200 - 300
- 2416 ★○ French Colonies, Thousands of Stamps Mint and Used.** Housed in a very well filled album, chaotically presented from the classics onwards. For example, in the classic colonial generic types there are some attractive four margined Ceres examples. Similarly with the 'peace and commerce' types with some superb used franc value noticed. In the 20th century, virtually every country represented yet almost consistently with 19th century interspersed, again in good condition. For example Reunion with 5c overprint on 30ct Napoleon with blue cds concentric circle type stuck in the middle of the page of various different of the 1930s stamps. Further countries seen include New Caledonia, Madagascar, Indo-China, Ivory Coast, Guadeloupe etc, even good French Polynesia with lots of extensive series from the 60s and 70s noticed. Somewhat chaotic in presentation with the vast majority housed stamp on stamp. Material ranges from the 19th century through to the 1950s with, as far as we can see, nothing later than that time. Apart from French Colony generic types and French Post Offices Abroad, we have noticed and in no particular order, Gabon Oubangui-Chari, French Guiana, Upper Volta, Martinique, Obock, French Establishments in Oceania, French Equatorial Africa, Tchad, St Pierre and Miquelon, etc, etc. Much of this is definitives from the 1910 to 1930 period, although we have noticed later 19th century peace and commerce types, as well as back of the book, non-Scott listed. The French colonial holding ends with dated wing corner marginal blocks of 4 mint inc Madagascar, New Caledonia, etc. There is also considerable value in the non-French area inc from 19th century Germany to Third Reich, even US again from the 19th century onwards, the French part however is the best and a slow viewing will no doubt yield many more discoveries, a much recommended viewing. Estimate \$500 - 750

The collection starts with nice examples of the 1852 King William III issue depicting different plates and shades, including 5¢ x7, 10¢ x6 & 15¢ x2 (1-3), followed by 1864 perforated stamps in distinctive colors, and then by a valuable representation of XIX Century issues with some useful duplication: 1867 (7-12 type I & 9-10 & 12 type II), 1869-71 (17-22), 1872-88 group of perforation varieties (23-33), 1891-93 Wilhelmina group with scarce numeral dotted cancels & usual circular date stamps used from 1896 onwards (40-49), 1893-96 (51-54), 1893 (53), 1898-1924 Numerals & Queen Wilhelmina issue, 1913 King William (90-100). - 2511 ★○ Netherlands, Extraordinary Range of Material.** Virtually everything 20th century, mint and used, with everything stacked "stamp on stamp" making this an interesting but difficult viewing, as there are many 1000s of stamps here. We have not had time to go through this properly, yet clearly there is much never hinged from the 1930s through to the 1950s including key high value definitives, for example the 1953/71 62cts dull lilac definitive with at least a dozen mint never hinged examples. A similar pattern with the commemoratives from the 1930s with for example better series such as Scott #206 to #208, #212 and #213, #B94 to #B97, #B103 to #107 and much more of this era with dozens of series mint never hinged. The used is also strong from the 19th century onwards, ending in extensive back of the book. Completely uncatalogued and gets better on each inspection. Look carefully, much hidden and more here than described. Estimate \$400 - 600

In fact the majority of the stamps here are originals and are ridiculously undervalued by Scott. There are also interesting cancellations making an appearance when rummaged through, for example octagonal numbers on 5cts perf, cds cancels in black and blue on roulette types etc, etc. Strictly for stamp workaholics, stuck down to partially stuck down.
