Grading and Condition

Superb Extraordinary item in the finest condition
Extremely Fine Outstanding and exceptional quality
Fine-Very Fine (F-VF) Stamp and or cover in sound condition; if a stamp; it is less well-centered than Very Fine but better centered than Fine.
Fine Sound in all aspects. Perforated stamps will have the designs clear of the perforations; the designs of imperforate stamps will not be cut into any significant degree.
Very Good (VG) Imperfect centering (stamps) or poor general appearance.

Covers & Cancels

Minor imperfections, including but not limited to: nicks, edge or flap tears or slight reductions are normal conditions for 19th century envelopes that have been postally transmitted. Folded letters would have at least one file fold. Acceptable forms of conservation include light cleaning and edge mending. Covers may have an ordinary stamp with a minor defect. The above exist in most 19th century covers and are not always described and therefore not grounds for return.

Catalogue Values

Unless otherwise noted, the currently available Scott Catalogue values (2013 - 2014 editions) are quoted in dollars and rounded to the nearest dollar. Other catalogues are often used for foreign countries or specialized areas as provided.

A similar pattern with the Omahas including 2 x 4¢, 4 x 5¢, 3 x 8¢, 5 x 10¢ and the 50¢ green. This leads on to the turn of the century definitives between 1894/1903s, the former with different values through to the \$1 (x2) and most other values well represented as well. It is completely uncatalogued, original and clearly the retail potential is colossal. Definitely an opportunity for a dealer, the presentation lends itself to an unhurried viewing, much is hidden. - 2374 ★/○ Colombia, Mint and Used Collection.** Very much an old time crusty dusty collection with considerable merit, especially in the classics. Housed on Scott album leaves the collection beings with the 1859 imperfs, #1 unused with faults but 4 sidewalk margins, #2 again four margins this time used with blue "O" cancel, #3 with 2 distinctly different shades again both four margined, the first with a blue oval Bogota, the second with a Cucuta Franca cancel, #4 again with 2 examples one with 4 large margins, this again with Bogota and the latter with Honda script, #6 and #6a both four margined examples, one unused and one used, followed by high value 1p carmine this with small faults. Then the 1860s including #10, #11 and #12 the latter absolutely exceptional quality. This is followed by the Arms of New Granada, with both 5c yellow and 5c buff four margined with blue oval and red letter cancels respectively, through to 1862 with 4 substantial margins including the side of the sheet of #20 used and also 4 margins on the high value #22, this time with script Pasto cancel. Then the 1863s #24 - #29 complete, mostly four margined examples including material outside the box, followed by a similar pattern with the 1864s complete #30 - #34 with some superb examples here too. The 1865 also complete, ie #35 - #42 with a wide variety of cancels followed by the 1866 also complete through to the 10 pesos, again virtually all four margined examples. Then the 1868 onwards including high values 1870s and yet again much material outside of the box, making a most impressive page with all kinds of postmark studies. A similar pattern with the 1877 imperfs followed by the 1876/79 laid paper issues, again virtually all four margined between #81 - #84. Still further imperfs 1881 through to 1883 and of course, as is standard with this collection, more material written up outside of the box, through to perforated issues 1883 onwards with page after page replete. This continues through to turn of the century and as the collection unfolds into the Cartagena issues, as well as the Barranquilla printings, yet again with lots of varieties with different kind of cancels including those used abroad. Also seen 2 superb large margins #323 and #324, the 50 and 100 pesos high values imperf. Hardly empty spaces thereafter into the 1970s where the collection then goes to back of the book, including #F1 and #F2, #F7 again well balanced margins, followed by the various registrations labels perf and imperfs through to 1925. Also present the receipt, late fee and postage due stamps, followed by the departments and then the various local issues and officials, quite extensive particularly for the issues of Antioquia, Bolivar, Boyaca, Cauca, Cundinamarca and Santander with much elusive material here, nonchalantly presented, often with well filled pages and material chock-a-block, as is the case with the classics of Colombia. Extraordinary in scope, a wonderful collection with much more here than described, offered intact as received.
Estimate \$3,000 - 4,000

- 2442 ★/○ Germany: World War II Occupation Issues, Substantial Stock.** Including Bohemia and Moravia under German occupation and Poland Generalgouvernement, also Alsace-Lorraine. 1000s of stamps housed in a very large stockbook, with each page split in the middle, giving a parallel mint and used Michel numbering to the left and the right respectively. Also as far as our random checks go there has been a further separation of the mint never hinged from the hinged, it is definitely a "turn-key" stock. Beginning with Bohemia and Moravia first definitive series mint complete to the 10k, this is followed by an abundance of further definitives probably leaning more towards used than mint, yet nothing in excessive quantities, perhaps up to 10 of each, including occasional se-tenants. A similar pattern with Alsace-Lorraine through to Polish occupation which is very substantial with no doubt a huge retail potential running into many 1000s of dollars. An extraordinary holding, ending with large presentation folders specifically for "B & M" and further Michel specialised such as inter-panneau strips, also seen imperforate Poland etc etc, should be viewed to be appreciated. Ideal for dealers looking to replenish their stocks of these occupation areas inexpensively. Estimate \$600 - 800

No description here can do real justice to the extensive range of material present, in outline we saw Bezirks from places such as Bornim, Penig, Lychen and Lobau, etc, all used, all genuine. Also an extensive study of Saxony Province with the difference papers and watermarks, similarly with Thuringen with the distinct probability of good finds to be made here, as well as the more obvious items such as the National Theater miniature sheet. There are many 'AX', 'AY', 'XA', 'XB', 'WX', 'WY' watermarks galore here to investigate, similarly a study of the different shades of Mecklenburg Vorpommern with some very challenging material here as well. This represents the postal history part, the used, the associated forerunners and issues made in harmony with the EU/EEC of the Europa collection complete, also offered in this auction. While not quite as comprehensive as their mint counterpart, these 3 albums as well filled with plenty of highlights inc the Swiss 1959 CEPT PTT overprints, both off and on cover, latter FDC, the used series from 1956 onwards, through to the Liechtenstein honeycomb superb used on piece, forerunners superb used such as the 1952 Luxembourg series of 6, similarly the Germany ERP, the Greek series of 6, the 1949 Italy ERP and various better NATO and other European themes. The second album consists of FDCs of the same, again virtually complete, but missing the 1956 yet 1957 onwards through to Liechtenstein honeycomb FDC and virtually everything else FDC through the 1960s/70s in pristine condition, including the scarce Spanish Andorra 1972 with many countries with a very diverse range of cachets. The final album is also interesting as it focuses on the various 'sympathy' issues and forerunners with yet another Swiss 1959 PTT series and many hundreds of others, all over Europe, dealing with themes that connect Europe together (although not specifically EC sanctioned issues) by the year. Much expensive material too inc very high cataloguing miniature sheets of Romania, Hungary, etc, probably running into thousands of euro in their own right. Also seen the French 'Conseil d'Europe' and further parallel issues, FDCs, EFTA complete, all the joint Scandinavian issues before they became part of the EU, etc. These three substantial albums serve as an excellent accompaniment to the superb never hinged Europa collection, as mentioned, offered separately in this auction. - 2762 ★/○ Worldwide, Mint and Used Collection.** 11 crusty dusty stamp albums, with thousands of stamps, mint and used. A clear the cupboard instruction from a worldwide collector who has decided to focus on just the US from now on. All of them appear to be a bit battered yet full of character. The 1st collection is Bulgaria, without binder, very old fashioned album leaves, with as far as we can see virtually complete from the 19th century to the 20th century including unusual issues such as Bulgaria in Thrace, the condition is exceptional and at sometime or another catalogued 2500 euro, probably considerably more today. The 2nd and 3rd albums are probably the best, they are both old fashioned Ideal albums representing the 19th century through to 1910 and 1911 to 1930, 'A-Z' i.e. Alexandria through to Wallis. Some of the other areas include Baden and Bavaria with a dozen or so numeral imperfs, Belgium from imperf epaulettes, Brazil, China with coiling dragons, Costa Rica from 1863, Denmark from imperf spandrels, France from imperf Napoleon heads, through to 1862 complete to 80cts similarly with the Ceres again complete to 80cts, followed by a wide range of peace and commerce to 5fr, Mersons inc key value 2fr and much back of the book, French Colonies, Germany from the shields onwards inc both pfennige and pfennig complete to 50pf with their respective shades, Netherlands, Italy, Japan from 19th century onwards, etc. The 4th album is a beat-up Viceroy stamp album, very crusty with several hundred stamps in it from the 19th century onwards, worth investigating the Persia imperfs. The 5th album is British Commonwealth with a few hundred stamps from QV onwards, condition very mixed. The 6th album worldwide focusing only the early 20th century, however we notice GB QV green and carmine 1/- with cds, Northern Rhodesia 1935s Silv Jubs high values, etc. Then the 7th album, an old fashioned homemade album, not uninteresting. Next the 8th album is a Permanent album with gold leaf quadrille pages specifically focusing on Belgium from the 1850s onwards including a beautiful 1ct epaulette cds four margins and various better issues afterwards including an attractive registered letter to Paris with the complete series of definitives of Prince Albert to 5fr (#92 to #102) with the label 'do not post on Sunday' se-tenants and most unusual as such, also present various other better early semi-postals such as #B107 to #B113 complete and much more. The 9th, a Royal stamp album with several 100s of stamps including a few KGV1 high values. The 10th Improved album with surprising Egypt, Brazil, China from mint Coiling Dragons, Japan, Spain, Turkey, etc. The 11th album is an old Lincoln probably assembled in the late 19th/early 20th century including non-Scott listed revenues and the like and again covering all conditions, etc. These albums have been unloved for many years and are looking for a new home, there is the distinct probability of many sleepers present.
