## **Grading and Condition**

Superb  
Extremely Fine  
Fine-Very Fine (F-VF)  
Fine

Very Good (VG)

Extraordinary item in the finest condition.

Outstanding and exceptional Quality

Stamp and or cover in sound condition; if a stamp, it is less well-centered than Very Fine but better centered than Fine.

Sound in all aspects. Perforated stamps will have the designs clear of the perforations; the designs of imperforate stamps will not be cut in to any significant degree.

Imperfect centering (stamps) or poor general appearance.

### **Covers & Cancels**

Minor imperfections, including but not limited to: nicks, edge or flap tears or slight reductions are normal conditions for 19th century envelopes that have been postally transmitted. Folded letters would have at least one file fold. Acceptable forms of conservation include light cleaning and edge mending. Covers may have an ordinary stamp with a minor defect. The above exist in most 19th century covers and not always described and therefore not grounds for return.

### **Catalogue Values**

Unless otherwise noted, the currently available Scott Catalogue values (2013-2014 editions) are quoted in dollars and rounded to the nearest dollar. Other catalogues are often used for foreign countries or specialized areas as provided.

A lovely, unmailed set of these rare original etchings, fresh; few very minor tone spots, mostly in blank margin, otherwise Very Fine. Estimate \$1,000 - 1,500

*During the siege, Parisians were reduced to eating cats, dogs, and rats. However, the bourgeoisie, who still dined at the deluxe restaurants, demanded much higher fare. As food reserves dwindled, these restaurants, including Voisin, a restaurant run by renowned chef Alexandre-Étienne Choron, eyed the animals kept at the local zoos. For the midnight Christmas meal of 1870, Choron proposed a menu principally composed of the best parts of the animals kept in the Garden of Acclimatization, an amusement park for children opened in 1860 in the Bois du Boulogne. His dishes included elephant consommé, roasted camel, kangaroo stew, bear shanks roasted in pepper sauce and wolf in deer sauce. A week after the elephant from the Garden of Acclimatization graced the Christmas table at Voisin, the two elephants (Castor and Pollux) from the Paris Zoological Garden were consumed at the New Year's Eve meal.*

- 240 ☒ **France, 1870-71, Siege of Paris: Boule de Moulins**, folded letter to Paris endorsed “Paris par Moulins (Allier)”, postmarked (and datelined) Potrieux, 31 Dec; postage (apparently a strip of five 20c stamps) has been washed off, as has the postage on a majority of these letters, Very Fine. Estimate \$250 - 350

*As an alternative to the pigeon post, the “Boules de Moulins” were zinc spheres, 20cm (about 8”) in diameter, which were to be filled with mail and floated down the Seine into Paris. The charge for this service was 1fr, representing 20c postage and 80c to be paid by postal authorities to creators of the system, 40c upon departure and 40c upon arrival. The system was a resounding failure. Between January 4-28, 1871, more than 40, 000 letters were sent by this method—none made it to Paris during the siege. They were found later, one “bottle” being recovered as recently as 1988.*

- 241 ☒ **France, 1870-71, Siege of Paris: Pigeon Post**, two actual microfilms of official dispatches carried by Steenacker's pigeons, one 30x55mm and holding 16 pages of documents, the other 30x22mm; also a contemporary photographic print of a third microfilm on collodion paper (39x52mm), the last from the “Lafolloye” album and not flown; also included are two unused slightly different forms on which a correspondent could answer four “yes” or “no” questions to be microfilmed to be sent into Paris; one of them is *pre-franked with an unused 1862 5c Napoleon (Scott 23)*, a Very Fine and very scarce group. Estimate \$750 - 1,000

*The pigeon post was used to get news of the outside world into Paris during the siege. Homing pigeons were carried out of Paris on the same balloons that carried the mail. Messages from unoccupied France were collected, microfilmed (many on a single piece of film) and placed in capsules attached to the pigeons, which were then released to fly back to Paris. Once back in Paris the microfilms were projected onto large screens from which they were individually transcribed onto forms similar to telegraph forms, and forwarded to their intended recipients. The service began on*

*September 27, 1870 and formally ended on January 31, 1871. During the four months of the pigeon post's existence, more than a million messages were carried into Paris by pigeon.*

*P. F. Steenackers was Director-General of Telegraphs and Posts (including pigeons) at Tours, one of the two cities where the pigeons were based (the other being Poitiers). It was Steenacker who saw the value of the microfilm in this endeavor.*

- When the "Í GILDI" stamps were issued, postal authorities neglected to send the prescribed number of stamps to U.P.U. headquarters in Bern. By the time the oversight was discovered, there were no stamps, either with or without overprint, to be had. Accordingly, Thiele Printing Works in Copenhagen was instructed to reprint the original stamps for overprinting in Reykjavik. The reprints were perforated 12¾, but were on paper with the new crown watermark, thus distinguishing them from the original stamps. A small number of the reprints were left unoverprinted and are very rare.*

## Collections and Accumulations

- 1801 ★/○ Colombia, Mint and Used Collection.** Very much an old time crusty dusty collection with considerable merit, especially in the classics. Housed on Scott album leaves the collection begins with the 1859 imperfs, #1 unused with faults but 4 sidewalk margins, #2 again four margins this time used with blue "O" cancel, #3 with 2 distinctly different shades again both four margined, the first with a blue oval Bogota, the second with a Cucuta Franca cancel, #4 again with 2 examples one with 4 large margins, this again with Bogota and the latter with Honda script, #6 and #6a both four margined examples, one unused and one used, followed by high value 1p carmine this with small faults. Then the 1860s including #10, #11 and #12 the latter absolutely exceptional quality. This is followed by the Arms of New Granada, with both 5¢ yellow and 5¢ buff four margined with blue oval and red letter cancels respectively, through to 1862 with 4 substantial margins including the side of the sheet of #20 used and also 4 margins on the high value #22, this time with script Pasto cancel. Then the 1863s #24 - #29 complete, mostly four margined examples including material outside the box, followed by a similar pattern with the 1864s complete #30 - #34 with some superb examples here too. The 1865 also complete, ie #35 - #42 with a wide variety of cancels followed by the 1866 also complete through to the 10 pesos, again virtually all four margined examples. Then the 1868 onwards including high values 1870s and yet again much material outside of the box, making a most impressive page with all kinds of postmark studies. A similar pattern with the 1877 imperfs followed by the 1876/79 laid paper issues, again virtually all four margined between #81 - #84. Still further imperfs 1881 through to 1883 and of course, as is standard with this collection, more material written up outside of the box, through to perforated issues 1883 onwards with page after page replete. This continues through to turn of the century and as the collection unfolds into the Cartagena issues, as well as the Barranquilla printings, yet again with lots of varieties with different kind of cancels including those used abroad. Also seen 2 superb large margins #323 and #324, the 50 and 100 pesos high values imperf. Hardly empty spaces thereafter into the 1970s where the collection then goes to back of the book, including #F1 and #F2, #F7 again well balanced margins, followed by the various registrations labels perf and imperfs through to 1925. Also present the receipt, late fee and postage due stamps, followed by the departments and then the various local issues and officials, quite extensive particularly for the issues of Antioquia, Bolivar, Boyaca, Cauca, Cundinamarca and Santander with much elusive material here, nonchalantly presented, often with well filled pages and material chock- a-block, as is the case with the classics of Colombia. Extraordinary in scope, a wonderful collection with much more here than described, offered intact as received. (no photo). Estimate \$5,000 - 7,500

The collection then continues in the same fashion for the 1920s #40 to #53, starting with a complete set, mint never hinged and then focusing again on each specific denomination with varieties, including half sheets, near complete sheets, etc. A spectacular collection, impressive in its scope and attention to detail, clearly the product of a knowledgeable man with a passion for this intriguing and complicated philatelic area. An opportunity, seldom available for the specialist, to buy a collection offered intact as received (no photo). Estimate \$4,000 - 6,000
- 1961 ★/○ Germany: Saar, Mint & Used Collection, 1920-58.** In a Lighthouse hingeless album, including 1920 (1-15), 1920 (41-58), 1921 (68-81 & 83), 1921 (85-98, including three vertical tete-beche pairs), 1922-23 (99-116), 1927-32 (120-35), 1934 (139-53), plus 1926 (B1-4), 1933-34 (B47-53), 1922-23 (O1-15) & 1927-34 (O16-26), and many other in the modest range. - 1962** ★/○ **Germany: Upper Silesia, An Important and Valuable Holding.** Including postal history, housed in 2 volumes. Thousands of stamps categorised in depth, both mint and used, incorporating one of the most methodical studies of the errors of this country at the end of WWI through to the Plebiscite in 1921. Apart from the regular first definitive numeral issues and following overprints of the same, housing multiples as well as philatelic and commercial postal history including stationery, this extraordinary study unfolds of all the sub-sections "a", "b" and "c" numbers are present. There are for example, mixed overprints of different types, roman numerals in Michel, off-sets, double surcharges, currency denominations missing, broken letters, inverted overprints, double both inverted overprints, double regular surcharges, triple surcharges, double overprints with 1 inverted, currency on top etc. Generally speaking on the errors, everything has been written up and also includes center sheet, middle sheet horizontally and vertically interpanneau panes, etc. Then with the dove bearing olive branch pictorial definitives, again different types, many shades, interpanneau pairs through to the Plebiscite overprints with and without overprints, inverted overprints, double surcharges, off-sets etc. This is a very similar pattern to the earlier definitives, again here all categorised to high values, leading on to postal history mostly commercial from places such as Kattowitz, Beuthen, Hindenburg, etc, through to Zaborze etc, including registered. The second volume has the Germania overprints, all of course signed by Dr Haertel (geprueft!), valued accordingly through to the further officials in-depth, again with double overprints, vertical overprints, diagonal overprints, double one inverted overprints, double vertical and horizontal combined and much more with virtually every possible conceivable error that is known on these issues. The catalog on that which can be cataloged will run into many tens of thousands of euros and there is irreplaceable material here. The holding ends with Polish influence Gorny Slask both perf and imperf, as well as further postmarks studies of the same. An opportunity for a dealer to market on Ebay the potential will be gigantic or for a collector to further develop into gold medal status. (no photo). Estimate \$7,500 - 10,000
- 1963** ○ **Germany: Danzig, a Specialised Used Collection.** In uniformly excellent quality throughout. An impressive well filled collection of Danzig, housed on album pages, mostly used and as importantly many contemporaneous cancels, as specified in Michel. Also present there are different varieties, shades, errors, etc. Beginning with #1 -#15 to the 5m, followed by #16 - #20 again complete, etc. The collector then focuses on different varieties, as listed in Michel such as the differences in burelage through to the airmails, as far as we can see complete with the issues of 1920/23 having both watermarks represented (as well as further varieties). Then a good range of the regular issues ending in 1938/39 with DAPOSTA miniature sheet, Port Gdansk overprint, etc, etc A fascinating collection, formed decades ago with the real possibility of discoveries not necessarily identified by the collector, please inspect carefully page for page. (no photo). Estimate \$1,000 - 1,500
- 1964** ★/○ **Germany: Memel, Mostly Used Collection,** Attractive collection housed on album pages, with several dozen stamps all one of a kind, with the exception of the 19th century Germany Shield issues with a trio of Memel cds postmarks. Also seen, the propaganda label referring to the loss of Memel from the motherland. There is a good range of completion from the 1920s onwards with many on piece, while the airmails do not have quite as much depth as the definitives, every page is well worth spending time on, especially for varieties not listed in Scott. (no photo). Estimate \$300 - 400
- 1965** ★ **German WWII Occupations, Mint Assortment.** In stock pages, including **Serbia** 1941 (2NC1-10) & 1943 (2NB27-28), **Macedonia** 1944 (N3-6, N8), **Montenegro** 1944 (3NB3-6), **Lithuania** 1941 (Michel 2-8), **Ljubljana (Lubiana)** 1944 (N36-53), **French Legion** 1941 Polar Bear sheet (Michel Block 1), **Pernau** 1941 (Michel 1-10, including 3k imperforate & perforated examples), **Pskov (Pleskau)** 1941-42 (20K, block of 10, Michel 10) & (60 + 40K, block of 10, Michel 12), plus several Russian stamps with "Raepina/ Eesti-Post" overprints, which are tied individually on paper fragments. See photos of the entire lot on our website, F.-V.F. (photo on web site). Estimate \$1,500 - 2,000
- 1966** ★/○ **German WWII Occupations, Substantial Stock.** Mainly Bohemia and Moravia and Poland Generalgouvernement. 1000s of stamps housed in a very large stockbook, with each page split in the middle, giving a parallel mint and used Michel numbering to the left and the right respectively. Also as far as our random checks go there has been a further separation of the mint never hinged from the hinged, it is definitely a "turn-key" stock. Beginning with Bohemia and Moravia first definitive series mint complete to the 10k, this is followed by an abundance of further definitives probably leaning more towards used than mint, yet nothing in excessive quantities, perhaps up to 10 of each, including occasional se-tenants. A similar pattern with Alsace-Lorraine through to Polish occupation which is very substantial with no doubt a huge retail potential running into many 1000s of dollars. An extraordinary holding, ending with large presentation folders specifically for "B & M" and further Michel specialised such as inter-panneau strips, also seen imperforate Poland etc etc, should be viewed to be appreciated. Ideal for dealers looking to replenish their stocks of these occupation areas inexpensively. (no photo). Estimate \$1,000 - 1,500

- 1989 ★/○ Greece, Fantastic Old Time Hoard.** Including strong Hermes Heads and early Olympics. Many thousands of stamps stuffed into one well filled volume stock book. Starting off with well over 100 large Hermes Heads to 80 lepta, mint and used, stuffed stamp on stamp in desperate need of organisation. Also about 250 of the small Hermes heads to 1 drachma, many superb examples noticed. Then the perforated Hermes heads with about 150, again with much potential here. This is followed by the Olympic issues firstly with the 1896 with about 200 examples to the 2 drachma with a wide range of postmarks that will delight the Olympics collector, including about 20 of the 40 lepta purple, 10 of the 60 lepta black, 10 of the 1 drachma blue and not forgetting a superb used 2 drachma with double concentric green cancel. Then follows the second Olympic issues, again in the hundreds, mint and used with at least 2 dozen of the high value drachma running Hermes, followed by the third Olympics of 1906 again to the 3 drachma approaching a couple 100 here as well, including over a dozen of the high value drachma values. Then follows an equally intense range of subsequent definitive and commemoratives issues, again all completely uncatalogued including airmails with a range of early 20th century overprints well worth investigating and the high values of the 25 drachma and definitives. The holding continues in similar strength all the way through to the 1950s, neatly stacked with each stamp showing a little of each. It is all completely uncatalogued, no doubt it will be a small fortune and the potential here is enormous. Recommended for a dealer to break up. It is also ideal for the classic postmark collector with a particular liking for the Hermes heads and early Olympics. (no photo).

- 2006 ★/○ Honduras, Oldtime Very Specialised Stamp Collection With Good Postal History.** 2 well filled volumes, as well as a stack of stockpages full of covers waiting to be placed into the main collection which has postal history directly incorporated into it. There are also many proofs, errors as well as much scarce and unusual postal history. The first album begins in the 19th century with Seebeck proofs of the January 6th 1890 seal of Honduras as issued by the Hamilton Bank Note Co imperforate blocks in various colors, then the 1891 General Luis Bogram issue, again imperforate plate proofs in issued and unissued colors with blocks and each denomination having 9 different color trials. Then there are the 1892s with imperf between plate proofs to 75c, the 1895s again with plate proofs in various colors, followed by the 1896 first and second printings proofs, followed by the 1896 train issue with different errors and varieties such as horizontal pairs imperf between as well as double impressions, different papers, shades, etc. Then the Official stamps of 193-1915, with regular issues, double, maybe even triple, surcharges, this continues through to the 1930s with the collectors meticulous detail and enthusiasm for the subject clearly showing through with double impressions, overprint errors, provisional issues, more imperforates, imperf between mint and used, imperf vertically, etc. etc. Then the postal history which has many unusual and important items, beginning with an attractive strip of 3 1898 train 5¢ with line cancels sent to New York, as well as the 10¢ and 5¢ train on cover, this time sent to New Orleans, carefully written up. Also seen advertising mail, postal stationery, officials and provisionals including fancy flag cancels, as well as airmails. The second album begins with further postal history, filled to the gills with a particularly interesting study of the postal stationery of Honduras. Finally, the balance of the postal history equally intense, deserving further investigation and categorising to build into the first and second albums. A must view for the specialist, a real opportunity as collections of the caliber and detail are hardly ever on the market today, offered intact as received. (no photo). Estimate \$5,000 - 7,500

- 2175 ★/○ Serbia, Mint and Used Collection.** A delightful old time collection in quality far better than normally encountered, mint and used, housed on old fashioned album pages. Beginning with the "coat of arms" types, there is a sidewalk margins 1 para dark green on lilac rose paper, signed, as well as 2 other large margin example including the 2 good paras dull green as well as the 2 paras brown, however they are not signed. Then the Vienna printing of the Prince Michael Obrenovich 111 issue with superb used 20 paras and 40 paras both with light rectangular Cyrillic cancels. Then further 1867 this time mint, with the 1 para green and 2 paras bister brown, followed by the 1868 1 para green and imperf of the same, as well as the 2 paras, again both imperf with sidewalk margins. Then an extensive range of the Prince Milan issues, both mint and used to the 50 paras including key values 15 paras. There are also further examples of these and other denominations to 50 paras with different perms and some of these cancels are delightful "sock-on-the-nose" cds, there are 3 dozen different examples in this study alone. Then the King Alexander issues, again extensive, with page after page of dozens of these with many varieties through to turn of the century "arms of Serbia" overprintostal stationery, followed by 1904 centenary issues complete mint and used, yet a further range of the 1905 onwards King Peter issues through to back of the book and non-Scott listed material of the early 20th century. Then the collection unfolds with 1915 military staff complete mint yet further studies of the "two king issues" through to WWII. This too is also extensive however much mint are stuck to the page, unlike its earlier classical counterparts, nevertheless well filled and the miniature sheet are completely fine. Overall the collection is very impressive and will delight any dealer or collector of this area, especially for the indepth pre-1920 material in excellent condition with considerable good material "outside of the box". - 2209 ★/○ Switzerland, Valuable Collection, 1843-1996.** Tremendous, relatively complete collection in a 3-volume *Davo* hingeless album with slipcases; the best part of the collection is the 20th century, which is just about all mint and very nearly complete—we'll get to more of the 20th century in a moment. First, a word about the 19th century, which is mainly used, with a huge catalog value, but it is plagued by quality problems, though most of it is reasonably attractive; included are used Cantonals 1L1, 1L4, 2L1a, 2L2-3, 2L6, 2L7, and Federal issues #1-3 & 7-13, 31, 35, 81 and mint/unused #46, 47, 77 & 78; the Scott value for this part of the collection is \$66,000!

Now for the 20th century. Again, just about everything is here, with the most significant missing item being the NABA sheet. The back-of-the-book is also virtually complete, apparently missing only 1O1-8. Most of the Postage Dues are used, as are the first issues of the Society of Nations and I.L.B.; otherwise the Officials are just about all mint and NH from about 1938. As for condition, it is uniformly Very Fine and, from 1930 or so, virtually all NH. There are also a few earlier NH, like #111, 118, 125, 184, 185 & C1-2. The Scott value for the 20th century is \$11,000

Somewhat of a Jekyll & Hyde lot, but one of undeniable value.

Estimate \$5,000 - 7,500

- 2323 ★★ Worldwide, Extensive New Issues, 1980s through to 2000s.** An extraordinary accumulation weighing over 60 kilos, judging by the UPS boxes that arrived. They are all from one man that spent the equivalent of several 10s of 1000s of dollars on new issues into the 2000s. These were sent by registered post to the same address on a regular basis for approximately 25 years. For the most part the buyer merely opened up the registered letters and then closed them! Estimate \$1,000 - 1,500

*During the siege, Parisians were reduced to eating cats, dogs, and rats. However, the bourgeoisie, who still dined at the deluxe restaurants, demanded much higher fare. As food reserves dwindled, these restaurants, including Voisin, a restaurant run by renowned chef Alexandre-Étienne Choron, eyed the animals kept at the local zoos. For the midnight Christmas meal of 1870, Choron proposed a menu principally composed of the best parts of the animals kept in the Garden of Acclimatization, an amusement park for children opened in 1860 in the Bois du Boulogne. His dishes included elephant consommé, roasted camel, kangaroo stew, bear shanks roasted in pepper sauce and wolf in deer sauce. A week after the elephant from the Garden of Acclimatization graced the Christmas table at Voisin, the two elephants (Castor and Pollux) from the Paris Zoological Garden were consumed at the New Year's Eve meal.*

- 240 ☒ **France, 1870-71, Siege of Paris: Boule de Moulins**, folded letter to Paris endorsed “Paris par Moulins (Allier)”, postmarked (and datelined) Potrieux, 31 Dec; postage (apparently a strip of five 20c stamps) has been washed off, as has the postage on a majority of these letters, Very Fine. Estimate \$250 - 350

*As an alternative to the pigeon post, the “Boules de Moulins” were zinc spheres, 20cm (about 8”) in diameter, which were to be filled with mail and floated down the Seine into Paris. The charge for this service was 1fr, representing 20c postage and 80c to be paid by postal authorities to creators of the system, 40c upon departure and 40c upon arrival. The system was a resounding failure. Between January 4-28, 1871, more than 40,000 letters were sent by this method—none made it to Paris during the siege. They were found later, one “bottle” being recovered as recently as 1988.*

- 241  **France, 1870-71, Siege of Paris: Pigeon Post**, two actual microfilms of official dispatches carried by Steenacker's pigeons, one 30x55mm and holding 16 pages of documents, the other 30x22mm; also a contemporary photographic print of a third microfilm on collodion paper (39x52mm), the last from the "Lafolloye" album and not flown; also included are two unused slightly different forms on which a correspondent could answer four "yes" or "no" questions to be microfilmed to be sent into Paris; one of them is *pre-franked with an unused 1862 5c Napoleon (Scott 23)*, Very Fine, a very scarce group. Estimate \$750 - 1,000

*The pigeon post was used to get news of the outside world into Paris during the siege. Homing pigeons were carried out of Paris on the same balloons that carried the mail. Messages from unoccupied France were collected, microfilmed (many on a single piece of film) and placed in capsules attached to the pigeons, which were then released to fly back to Paris. Once back in Paris the microfilms were projected onto large screens from which they were individually transcribed onto forms similar to telegraph forms, and forwarded to their intended recipients. The service began on*

*September 27, 1870 and formally ended on January 31, 1871. During the four months of the pigeon post's existence, more than a million messages were carried into Paris by pigeon.*

*P. F. Steenackers was Director-General of Telegraphs and Posts (including pigeons) at Tours, one of the two cities where the pigeons were based (the other being Poitiers). It was Steenacker who saw the value of the microfilm in this endeavor.*

- 242  **France, 1870-71, Ballons Montés balance**, small miscellaneous group comprising **three covers and a card** mailed during the Siege but, due to the length of time needed for delivery and to the lack of ballon monté endorsement, apparently sent by conventional means; first two are from the same correspondence to Vitry, dated 20 & 21 Sep and backstamped Vitry, 24 & 21 Oct, respectively; 3rd is postmarked Pl. de la Bourse, 23 Sep, to Dagachon, where it was backstamped 22 Oct; the card was to Boulogne-sur-Mer and is postmarked Ministère des Finances, 10 Oct, and backstamped Boulogne-s-Mer, 17 Nov; **also** included are **two different** unused *Depeche-Réponse* for sending communications into Paris, three unused blue **ballon monté lettersheets**, and two imperf **propaganda labels** urging independence for Alsace-Lorraine, one in French, the other in German. *When the "I GILDI" stamps were issued, postal authorities neglected to send the prescribed number of stamps to U.P.U. headquarters in Bern. By the time the oversight was discovered, there were no stamps, either with or without overprint, to be had. Accordingly, Thiele Printing Works in Copenhagen was instructed to reprint the original stamps for overprinting in Reykjavik. The reprints were perforated 12¾, but were on paper with the new crown watermark, thus distinguishing them from the original stamps. A small number of the reprints were left unoverprinted and are very rare.*

## U.S. Wholesale Lots: The 116 Nassau Street Stock

*The most active street in philately in its heyday, not one shop remaining at this fabled location. Where did all the stamps go to? We have a small piece of that puzzle. We are pleased to present herein the remaining intact stock of one of philately's iconic dealers who was located at 116 Nassau Street (sixth floor maybe?). A true pioneer for high quality singles, plate blocks and yes - mint sheets. This holding is likely the last of its kind. It is astounding and mind-numbing to see scads of high quality singles, blocks, line pairs, plate blocks, mint sheets. So much so, that our eyes have been jaded- don't let yours be. This is too good to be true but once it's gone, it's gone for good. So please make sure to allow the proper time viewing these lots. This offering will not disappoint and will aptly reward the time spent. Of course there are some mixed quality and faults, but by and large, this is one of the cleanest stocks we encountered since the famous NJ sale days!*

- 1903 ★/○ Colombia, Mint and Used Collection.** Very much an old time crusty dusty collection with considerable merit, especially in the classics. Housed on Scott album leaves the collection begins with the 1859 imperfs, #1 unused with faults but 4 side-walk margins, #2 again four margins this time used with blue "O" cancel, #3 with 2 distinctly different shades again both four margined, the first with a blue oval Bogota, the second with a Cucuta Franca cancel, #4 again with 2 examples one with 4 large margins, this again with Bogota and the latter with Honda script, #6 and #6a both four margined examples, one unused and one used, followed by high value 1p carmine this with small faults. Then the 1860s including #10, #11 and #12 the latter absolutely exceptional quality. This is followed by the Arms of New Granada, with both 5¢ yellow and 5¢ buff four margined with blue oval and red letter cancels respectively, through to 1862 with 4 substantial margins including the side of the sheet of #20 used and also 4 margins on the high value #22, this time with script Pasto cancel. Then the 1863s #24 - #29 complete, mostly four margined examples including material outside the box, followed by a similar pattern with the 1864s complete #30 - #34 with some superb examples here too. The 1865 also complete, ie #35 - #42 with a wide variety of cancels followed by the 1866 also complete through to the 10 pesos, again virtually all four margined examples. Then the 1868 onwards including high values 1870s and yet again much material outside of the box, making a most impressive page with all kinds of postmark studies. A similar pattern with the 1877 imperfs followed by the 1876/79 laid paper issues, again virtually all four margined between #81 - #84. Still further imperfs 1881 through to 1883 and of course, as is standard with this collection, more material written up outside of the box, through to perforated issues 1883 onwards with page after page replete. This continues through to turn of the century and as the collection unfolds into the Cartagena issues, as well as the Barranquilla printings, yet again with lots of varieties with different kind of cancels including those used abroad. Also seen 2 superb large margins #323 and #324, the 50 and 100 pesos high values imperf. Hardly empty spaces thereafter into the 1970s where the collection then goes to back of the book, including #F1 and #F2, #F7 again well balanced margins, followed by the various registrations labels perf and imperfs through to 1925. Also present the receipt, late fee and postage due stamps, followed by the departments and then the various local issues and officials, quite extensive particularly for the issues of Antioquia, Bolivar, Boyaca, Cauca, Cundinamarca and Santander with much elusive material here, nonchalantly presented, often with well filled pages and material chock-a-block, as is the case with the classics of Colombia. M with varieties, including inverted. The second album starts with left hand corner sheet marginal block of 16 of the 1m carmine rose Scott #36, a block of 18 of the lower left hand corner marginal of #37, the right hand corner marginal block of 16 of #38 and right hand corner marginal block of 16 of #39, all never hinged. The collection then continues in the same fashion for the 1920s #40 to #53, starting with a complete set, mint never hinged and then focusing again on each specific denomination with varieties, including half sheets, near complete sheets, etc. A spectacular collection, impressive in its scope and attention to detail, clearly the product of a knowledgeable man with a passion for this intriguing and complicated philatelic area. Also as far as our random checks go there has been a further separation of the mint never hinged from the hinged, it is definitely a "turn-key" stock. Beginning with Bohemia and Moravia first definitive series mint complete to the 10k, this is followed by an abundance of further definitives probably leaning more towards used than mint, yet nothing in excessive quantities, perhaps up to 10 of each, including occasional se-tenants. A similar pattern with Alsace-Lorraine through to Polish occupation which is very substantial with no doubt a huge retail potential running into many 1000s of dollars. An extraordinary holding, ending with large presentation folders specifically for "B & M" and further Michel specialised such as inter-panneau strips, also seen imperforate Poland etc etc, should be viewed to be appreciated. - 2105 ★/○ Greece, Fantastic Old Time Hoard.** Including strong Hermes Heads and early Olympics. Many thousands of stamps stuffed into one well filled volume stock book. Starting off with well over 100 large Hermes Heads to 80 lepta, mint and used, stuffed stamp on stamp in desperate need of organisation. Also about 250 of the small Hermes heads to 1 drachma, many superb examples noticed. Then the perforated Hermes heads with about 150, again with much potential here. This is followed by the Olympic issues firstly with the 1896 with about 200 examples to the 2 drachma with a wide range of postmarks that will delight the Olympics collector, including about 20 of the 40 lepta purple, 10 of the 60 lepta black, 10 of the 1 drachma blue and not forgetting a superb used 2 drachma with double concentric green cancel. Then follows the second Olympic issues, again in the hundreds, mint and used with at least 2 dozen of the high value drachma running Hermes, followed by the third Olympics of 1906 again to the 3 drachma approaching a couple 100 here as well, including over a dozen of the high value drachma values. Then follows an equally intense range of subsequent definitive and commemoratives issues, again all completely uncatalogued including airmails with a range of early 20th century overprints well worth investigating and the high values of the 25 drachma and definitives. The holding continues in similar strength all the way through to the 1950s, neatly stacked with each stamp showing a little of each. It is all completely uncatalogued, no doubt it will be a small fortune and the potential here is enormous. Recommended for a dealer to break up. It is also ideal for the classic postmark collector with a particular liking for the Hermes heads and early Olympics. Estimate \$1,500 - 2,000

- 2121 ★/○ **Honduras, Old Time Very Specialised Stamp Collection With Good Postal History.** 2 well filled volumes, as well as a stack of stockpages full of covers waiting to be placed into the main collection which has postal history directly incorporated into it. There are also many proofs, errors as well as much scarce and unusual postal history. The first album begins in the 19th century with Seebeck proofs of the January 6th 1890 seal of Honduras as issued by the Hamilton Bank Note Co imperforate blocks in various colors, then the 1891 General Luis Bogram issue, again imperforate plate proofs in issued and unissued colors with blocks and each denomination having 9 different color trials. Then there are the 1892s with imperf between plate proofs to 75c, the 1895s again with plate proofs in various colors, followed by the 1896 first and second printings proofs, followed by the 1896 train issue with different errors and varieties such as horizontal pairs imperf between as well as double impressions, different papers, shades, etc. Then the Official stamps of 193-1915, with regular issues, double, maybe even triple, surcharges, this continues through to the 1930s with the collectors meticulous detail and enthusiasm for the subject clearly showing through with double impressions, overprint errors, provisional issues, more imperforates, imperf between mint and used, imperf vertically, etc. Then the postal history which has many unusual and important items, beginning with an attractive strip of 3 1898 train 5¢ with line cancels sent to New York, as well as the 10¢ and 5¢ train on cover, this time sent to New Orleans, carefully written up. Also seen advertising mail, postal stationery, officials and provisionals including fancy flag cancels, as well as airmails. The second album begins with further postal history, filled to the gills with a particularly interesting study of the postal stationery of Honduras. Finally, the balance of the postal history equally intense, deserving further investigation and categorising to build into the first and second albums. A must view for the specialist, a real opportunity as collections of the caliber and detail are hardly ever on the market today, offered intact as received. Estimate \$3,000 - 4,000

- 2363** ★/○ **Baltic States, Mostly Pre-Philatelic Postal History From the 18th Century To Mid 19th Century.** Essentially Latvia with many exhibition items. An outstanding range of material housed in one battered volume with about 3 dozen or so items, primarily of Latvian postal history, from the 18th century onwards. For the most part the alphabet used is Cyrillic, as of the day. We are able to detect Riga, however there is much more here, deserving expertise and research. The condition is far better than normally encountered with some crisp clear strikes boldly juxtaposed against each other, occasionally fancy illustrated monarchical chevrons on reverse etc, as well as concentric circles, straightlines etc. Loaded with strikes from different towns, possibly from places no longer extant. This would be a very difficult holding to replace, especially in this quality. Inspection highly recommended. Estimate \$1,000 - 1,500

- 2369** ★/○ **Europe, Old World Collection With Particularly Strong Third Reich.** Impressive 1939 Schaubek album, actually called by Schaubek "Das Kleine" ("the small one"), yet still a hefty tome! Not hinge remaindered, offered intact as received, there are many 1000s of stamps from the 19th century onwards, mint and used. Probably the best country is Germany which has a strong showing of Third Reich, for example, the 1933 Wagner series complete mint, the good watermark Hindenburg definitives mint, the 1934 officials and airmails complete to the 3rm zeppelin also the 1934 professions complete to 40pf, 1935 Trains and Costumes again both complete to 40pf, 1936 Olympics etc with many further series to 40pf purples, the good semi-postals horse of 1938, various miniature sheets etc, also better Saar 1934 to 5f complete and superb used Madonna "Volksabstimmung" complete. Other interesting areas include Bavaria, Belgium, France, Memel, Netherlands, Norway, Austria, Poland including the 75 groszy purple Stratosphere miniature sheet on cover, Romania, Russia particularly Tsarist, Sweden, Turkey etc. A well rounded collection completely uncataloged, offered intact as received. - 2370** ★★ **Europa, Complete Mint Collection, 1956-80's.** 1000s of mint stamps, all one of a kind, housed in a very substantial album with see through pochettes beautifully displayed, enabling the viewer to see if the stamps are never hinged (without taking them out, always a blessing!). Starting off with the 1956 Luxembourg towers with particularly good centering with completion throughout this includes of course the Liechtenstein honeycombs of 1960, you name it whatever were the iconic stars were, they are here with Spanish Andorra 1972 and much more with a good range of the miniature sheetlets as well, through to the 1980s complete, chronologically organized. This collection is completely faultless and reflects through their stamps the history of the drive towards the United States of Europe. Considering this would have been worth \$10,000++ in 2005, this is an excellent opportunity today. Who knows which way the market will go in Europa? In any event, a perfectionists collection. Estimate \$750 - 1,000
- 2371** ★★/★/○ **Europe, Mint & Used Collection, 1860-1940.** Several hundred stamps mounted in a Schaubek album, includes Eastern Europe, Scandinavia, Germany & States, Belgium with B233-B240, B256-B263, France, Greece, Great Britain, Italy, and Russia, a neat little collection begging for expansion, F.-V.F. - 2372** ★/○/☒ **Europa, FDCs, Forerunners and Used.** Housed in 3 albums. This represents the postal history part, the used, the associated forerunners and issues made in harmony with the EU/EEC of the Europa collection complete, also offered in this auction. While not quite as comprehensive as their mint counterpart, these 3 albums as well filled with plenty of highlights inc the Swiss 1959 CEPT PTT overprints, both off and on cover, latter FDC, the used series from 1956 onwards, through to the Liechtenstein honeycomb superb used on piece, forerunners superb used such as the 1952 Luxembourg series of 6, similarly the Germany ERP, the Greek series of 6, the 1949 Italy ERP and various better NATO and other European themes. The second album consists of FDCs of the same, again virtually complete, but missing the 1956 yet 1957 onwards through to Liechtenstein honeycomb FDC and virtually everything else FDC through the 1960s/70s in pristine condition, including the scarce Spanish Andorra 1972 with many countries with a very diverse range of cachets. The final album is also interesting as it focuses on the various sympathy issues and forerunners with yet another Swiss 1959 PTT series and many hundreds of others, all over Europe, dealing with themes that connect Europe together (although not specifically EC sanctioned issues) by the year. Much expensive material too inc very high cataloguing miniature sheets of Romania, Hungary, etc, probably running into thousands of euro in their own right. Also seen the French Conseil d'Europe and further parallel issues, FDCs, EFTA complete, all the joint Scandinavian issues before they became part of the EU, etc. These three substantial albums serve as an excellent accompaniment to the superb never hinged Europa collection, as mentioned, offered separately in this auction. Estimate \$600 - 800

## Worldwide Accumulations and Dealers' Stocks

- 2494 ★★ **Worldwide, Extensive New Issues Accumulation, 1980s through to 2000s.** An extraordinary accumulation weighing over 60 kilos, judging by the UPS boxes that arrived. They are all from one man that spent the equivalent of several 10s of 1000s of dollars on new issues into the 2000s. These were sent by registered post to the same address on a regular basis for approximately 25 years. For the most part the buyer merely opened up the registered letters and then closed them! There are well over 100 fat registered envelopes loaded with material. Virtually all the envelopes have the original invoices reflecting his cost, often running into hundreds of dollars each. There is also a large stack of new issue material that is outside of the envelopes and like the rest unprocessed, this part is housed in 3 boxes. All of this material is typical of what is inside the envelopes, new issues all in complete series of commemoratives, definitives, se-tenants in blocks, booklets, miniature sheets, covers, etc. This is quite a challenging lot to being to get a handle of the value of what is here, as it is very intense and hidden. A real project that with time and effort should be prove very rewarding. Some of the countries seen include Azerbaijan, Georgia, Faeroes, Moldova, Romania, Slovakia, Ukraine, Sweden, Hungary, Macedonia, Swiss, Cyprus, French Andorra, Lithuania, Latvia, Luxembourg, UN and Austria. The rest of the lot you will have to research. The person who spends time on this lot will be the buyer, however it is work, work, work! Estimate \$6,000 - 8,000

## GERMANY AFTER WORLD WAR II

- 308 ★/○ **German Local Issues, Collection, 1944-45, Mint and Used.** More than 1200 German stamps, mostly Hitler heads, with Hitler's likeness blacked-out using a variety of devices. This collection was purchased as a unit by the consignor. It was originally acquired sometime after World War II by a New York stamp dealer, from a German youth, whom the dealer found trying to it at stamp markets in New York City. The young man, as he related his story to the dealer, had been a motorcycle courier in eastern France during the war. After France was liberated, in August of 1944, post offices were depleted of French stamps, so the locals used blacked-out Hitler head stamps, obliterating Hitler's likeness. In whatever city, town or village the youth found himself, he had Hitler stamps "canceled", mainly with cork, but also with a variety of improvised devices, such as belt buckles, pins with designs, rings, etc. The dealer eventually bought the young man's entire holding, which had been stored in envelopes, many identified by the town in which the stamps had been "canceled". As a result, about half of the stamps are so identified. Stamps are both mint & used, an interesting lot, and an intriguing story. Inspection invited, F.-V.F. (photo on web site).

## Collections

- 340** ★/○ **Paraguay, The Magnificent Dr. Kurt Benirschke Collection.** The extraordinary, comprehensive collection keenly assembled in 20 supremely well annotated albums from the first issue, nearly to date. After considerable thought, and aside from 2 exhibition quality single lots and a handful of covers, we decided it best to offer this collection intact, as the depth of coverage in this collection is not likely to be seen again anytime soon. Within this labor of love, you will find virtually every issued stamp, in addition to proofs and essays, hundreds of varieties, both listed and unlisted, many of which belie their meager catalog valuations. Due to the nature of his professional work, Dr. Benirschke traveled to Paraguay on many occasions, always finding time to spend with the local dealers and collectors there, often acquiring many difficult pieces from these sources. The collection begins with the rare first issue essays, 6 examples in various colors or shades, and continues on with duplicated, mint or used first issues with several identified forgeries, excellent blue or black 1878 surcharges, including Scott 4-5 used, 5F-5H mint, 6 used, 7 used, a surcharge proof block of 4 for 4-6 etc. From the 1879 issue onwards, the coverage is simply astounding, with specialty pieces (i.e. #19 block of 4, signed Knietschel), identified reprints, scores of varieties, such as overprint errors including double and inverted types, part-perfs and imperfs, scarce trial color proofs, specimens, paper types, bisects, fantails, unissued values, bogus issue stamps, inverted centers, missing overprints, etc. Coverages extends for regular issues, incredible airmails like C80a, many rare imperfs, plus officials, with many Waterlow specimens, missing colors etc., also noted. The post-1960 era through the modern is comprehensive in nature, including unlisted sets and souvenir sheets, specimens and varieties, plus telegraphs, dues, etc. To page through this extraordinary collection will appeal to both the novice or expert, and its safe to say is quite incomparable in scope. Fresh and routinely F-VF or better, a keepsake collection to be relished, inspection invited. (no photo).
