- 2353 ★/○ Montenegro, Highly Complete From Classics Through To Both Italian and German Occupations.** An important stamp and postal history collection. This represents a very comprehensive range of classics, with hardly any empty spaces, from the first issues of 1874 onwards through to the early 20th century, followed by an extensive range of the occupations. The latter was bought intact through the estate of the Egen family, the Ortskommandantur of Cetinje, Montenegro under German occupation with scarce stamps accompanied by letters, photographs and documents, spanning a period from 1943 to his death in action in November 1944. Probably the best item is a cover addressed to Egen himself franked by the 1943 "Nationaler Verwaltungsausschuss" overprints 50cts brown, 1L ultra and 2L rose pair sent from Njegusi 16.1.44 to Cetinje with arrival postmarks 19.1.44 and 19.1.45 with the latter error of date crossed out in blue crayon. These issues are only cataloged in Michel as a set on cover, however since covers values of any denominations are so seldom found on cover as here, a recent certificate was obtained by the expert for Montenegro Dr Brunel and now accompanies this very scarce cover, probably unique. There are dozens of more stamps, on piece, including some Italian occupation overprints, as well as further 1943 German issues with the overprints on King Peter heads, including the 10L and 20L ultra both with two examples and with constant varieties such as the italic "i" in "Militaer" on 1L surcharge, also the broken "a" in "Verwaltung" on upper stamps in pairs of the 2L and 5L surcharges respectively, etc. These are followed by the large pictorial types including the 25cts pair, the 1.25L with 50cts together on piece together with the rare 5L red on orange used, plus 2L pair and the 1L and 5L airposts etc - there are only a handful in existence of the 5L red on orange used. Although there are reprints and items mismounted, this collection has a vast array of items. There is also much important collateral here with primary sources reflecting the last days of the war for Montenegro. This collection of stamps, postal history and collateral must be studied unhurriedly to appreciate this absorbing lot. Do not miss viewing and enjoying this opportunity. Estimate \$4,000 - 6,000
