- 69 ★/○ **Pakistan, Provisional Overprints Assortment.** A very interesting study of the first issues of Pakistan with several dozen items housed in one small but valuable stock book, beginning with the 1947 definitive of KGVI, mint and used, this represents a wide range of provisional overprints or at least overprints that are handstamped and machine printed in different sizes, very specialised and to a certain extent still unknown philatelic territory. Not every denomination is represented - they simply could not be found. However, in the high values KGVI there are 3x 1rp, including a pair of clandestine inverted, 5x 2rps, 6x 5rps and 5x 10rps, the latter high values 5rps and 10rps also with bluish black overprints. Also, present lower values, generally speaking most denominations represented including stamps with overprints we have never seen before, again deserving further research. Other items include back of the book, KGVI service overprints, 1rp and 2rps (3x) and cinderella to investigate. We are of the opinion that the used is far better than the mint and that despite reference items being here, no doubt this is a very special property having taken years to form with many scarce, possibly unique items present, and offered intact as received, Fine to Very Fine (photo on web site).

We also noted a small plastic box filled with glassines containing mint or used sets, part sets and singles. Viewing essential to evaluate properly, Fine to Very Fine (photo on web site). Estimate \$200 - 300

166 ○ **German States: Bavaria, Oldtime Hoard of Imperforates, 1849-68.** A postmark hunters dream with thousands of stamps in envelopes, including examples of the broken circle issues of 1849, through to complete circle examples issued in the 1850-58 period, through the coat of arms imperforate stamps issued in 1867 & 1868. The denominations for the first issues range from the 1kr, 3kr & 6kr (in abundance). We did notice one envelope with examples to the 18kr. The vast majority are in good condition with much four margined in all issues. However the real value here is in the huge variety of postmarks, especially in the cogwheel number types. An opportunity very seldom available for a dealer or collector, where knowledge will be king, Fine to Very Fine (photo on web site).

Estimate \$2,500 - 3,500

167 ★ **Germany, Mostly Mint Collection, 1933-45.** Highly complete for the period with many better sets & souvenir sheets such as 1933 (B49-57 & B50a-55a), 1933 souvenir sheet (B58), 1933 (C43-45) & 1935 Ostropa (B68, used). Estimate \$1,000 - 1,500

171 ✉ **Germany, Third Reich Postal History With Se-Tenant Or Booklet Panes.** About seventy-five covers, housed in one album with very attractive se-tenant frankings, including some with advertising, and other with interpanneau strips or blocks. Also double X and other booklet panes, commemoratives and definitives. There are many superb commercially used covers here that would individually sell easily for \$50 each on ebay, especially good with the correct rates. A remarkable collection with considerable merit, Fine to Very Fine (photo on web site).

Estimate \$800 - 1,200

172 ▲ **Germany, Vintage Clippings Off Envelopes and Parcels, 1880s-1920s.** Two boxes with many thousands of stamps virtually all on piece with an interesting range from eagles to the Germanias types both Reichspost and Deutsches Reich, through to inflation including the re-valued currency as of 1923, much multiples throughout of all periods. This is a great lot if you have the patience to wade through it, many important finds likely, this will keep you occupied for many days, Fine to Very Fine (photo on web site).

Estimate \$400 - 600

173 ★/○ **Germany, Mostly Used Collection, 1871-1938.** Several hundreds of stamps in Schaubek album, occasionally presented parallel mint & used stamp on stamp. We noted strength in the Weimar Republic and subsequent Third Reich period. Better noted include 1928-29 Chevros complete, various castles to 50pf, through to 1934 professions, 1935 costumes, 1936 Olympics and many other desirable sets from this period, including a couple of zeppelin stamps, Fine to Very Fine (photo on web site).

Estimate \$300 - 400

174 ★★/★/○ **Germany: Allied Occupation, Mint & Used Assortment.** A rather valuable range of several hundreds of stamps, methodically arranged row by row, page by page. It has a catalogue figure at the bottom of each page, which comes to about 25,000 DM-this was worked on last some fifteen years ago! We therefore expect the catalogue figure today to be in the order of 25,000 euros. Highlights include posthorn overprints complete, a very good selection

of the castle issues to 5DM, different varieties correctly identified with scarce types present. Similarly we noted good French Zone (Baden, Rheinland-Pfalz & Wurttemberg), plus AMG issues and Germany Federal Republic examples. Please note that there is nothing here in excessive quantity, generally one to two of each. A very much turn-key assortment with huge potential for easy resale, Fine to Very Fine (photo on web site).

Estimate \$1,500 - 2,000

- 175 ★ **Germany: Allied & French Occupations, Mint and Used Collection.** An attractive collection, well-filled with several 100s of stamps and hardly any empty spaces, both mint and used, beginning with the occupations of 1939 for Poland, Luxembourg, Alsace & Lorraine, as well as troops in the Eastern territories. The second part of the collection is AMG from 1945 onwards, virtually complete with good posthorns through to French occupation with Baden and Rheinland Pfalz, etc, perfection, Fine to Very Fine (photo on web site). Estimate \$400 - 600

- 176 ○/☒ **Germany: Soviet Zone, Specialized Used Collection, 1945-46.** A fairly complete used collection arranged according to Michel in two large stockbooks; highlights include 10NB11, 12NB1-12, 14NB16a (2, one canceled to order (NH) signed Zeier BPP), 15N1 canceled to order, signed Zeier BPP, 16N3a (2, one marked fake cancel), 16N7b signed Zeier HBP, 16N9 & 9f, 16NB4a canceled to order plus several gutter pairs & a gutter block; specialized varieties abound throughout and there are more than 80 covers included as well; all clean and F-VF. Very high catalog. (photo on web site).

Estimate \$3,000 - 4,000

- 177 ★/○ **Germany: Soviet Zone, Mint & Used Specialized Collection.** A fascinating holding mounted on old fashioned album leaves with much in multiple format, clearly formed many decades ago. There is a good range of shades on the definitives of Mecklenburg Vorpommern with much Never Hinged and colors hardly exposed to light. There is also a range of mint imperforate blocks, as well as good used material, clearly specialized yet unreconstructed in its presentation. The same could be said of the numeral issues, again for multiple format with a wide range of shades and colors in blocks of 4, also interesting perforated issues used. The collection ends with the Bezirks, for example Gera to the 5m mint, followed by dozens used for the different regions, again to high values. This section is as valuable as the earlier issues and in our opinion virtually all the Bezirk overprints are genuine. What is needed is plenty of time, a Michel catalogue and a calculator. We have noticed plenty of signatures and we think there is huge potential here, dealers do not miss, Fine to Very Fine (photo on web site). Estimate \$1,200 - 1,800

- 178 ★★ **Germany: Soviet Zone, West Saxony & Thuringia Specialized Collection, 1946.** Superb Never Hinged and highly specialized holding of the 1946 **West Saxony** "Leipziger Messe" issue & **Thuringia** Bridge Reconstruction issue, former specifically including horizontal or vertical gutter pairs, as well as interpanneau block of four from the center of the sheet; latter also including vertical or horizontal gutter pairs, plus a block of four from the center of the sheet. Virtually every combination as listed in the Lighthouse album pages present here with several high cata-

logue value items running into thousands of euros. Viewing recommended, o.g., never hinged, Very Fine (photo on web site). Estimate \$750 - 1,000

- 179 ★★/★/○ **Germany: Berlin, Nearly Complete Parallel Mint and Used Collection, 1948-90.** Lacking only the used 2m-5m black overprints and both 1949 Currency Victims souvenir sheets, the collection is mounted in a German *Lighthouse* album; the mint sets of both the black and the red overprints are signed Schlegel BPP (the red being NH!), as are the used 1m & 2m red; there are also a large number of se-tenant combinations included; condition is uniformly F-VF and, from 1953 onward, all NH; in addition there are a few earlier NH sets including 9N61-67 & 9NB1-5. A marvelous collection. (photo on web site). Estimate \$800 - 1,200

- 180 ★★/★/○ **Germany: Berlin, Complete Collection, 1948-90.** Mint or used in a Safe hingeless album ("Dual" pages from 1979); 9N1-20, 9N61-63, 9NB1-3 and 9NB3a are MNH, the souvenir sheet signed Schlegel BPP with his 1994 certificate; everything else through 1951 is used; from there on the sets are MLH or used until the mid-1960s when most is MNH with a few used. Condition, other than a few minor flaws on the red Berlin overprints, is just about all clean and F-VF. All-in-all, a very nice collection. (photo on web site). Estimate \$600 - 800

- 181 ★/○ **Germany: Berlin, Mint & Used Collection.** Very pleasant, often parallel mint and used, housed in a Safe Dual album, beginning with black overprints to 84pf, red overprints to 2mk complete all genuine, followed by the 1949 UPU complete, the Goethe and the currency revaluation complete, used, all with correct contemporaneous cancels as with everything else, i.e. Berlin Philharmonic, bells to the left, right and center, etc, all good throughout, perfection, Fine to Very Fine (photo on web site). Estimate \$400 - 600

- 182 ★/○ **Germany: Berlin, Mint & Used Collection.** Comprehensive collection housed in a *Lighthouse* album, overwhelming parallel mint and used from 1953 onwards, including the bells, cathedral, freedom etc, notwithstanding the Black Berlin overprints series complete mint never hinged, Red Berlins overprints to 80pf, 1949 UPU high values 1dm and 2dm von Stephan superb used, contemporaneous cancels etc, 98% complete mint and used, perfection, Fine to Very Fine (photo on web site). Estimate \$400 - 600

- 183 ★/○ **Germany: Berlin, Substantial Stock.** Thousands of stamps housed in a fat stockbook well filled on every page, mint and used. The earlier pages of course are far more important than the later years. Highlights include Berlin Black Overprints to 1m used, signed Dr Dub, also Red Overprints high values 1m and 2m unused, unsigned very probably correct, similarly Green Overprints this time used etc. Better commemoratives from the 1940 early 1950s including the Currency series unused, Goethe with 4 x 10pf green, 2 x 20pf red and 1 x 30pf blue, E.R.P with 5 superb used copies, Beethoven x2, Berlin Philharmonic etc. Overall a useful turn-key stock, probably destined for a dealer. - 185** ★/○/☒ **Germany: Allied Occupation - Bizone, Specialized Mint & Used Collection, 1945-49.** A fantastic parallel mint & used collection of many hundreds, neatly mounted and written up according to Michel in three blank albums; includes innumerable shade, perforation, watermark, overprint and plate varieties, as well as multiples and nearly 40 covers, with all issues of the period strongly represented; highlights are literally too numerous to mention, though we did note the 60pf perf. 11 Building never hinged and the 1948 Airmail Permission label properly used on a cover to the U.S. franked with 4x 20pf Building. Condition is clean and F-VF throughout with much of the mint being NH. A truly once-in-a-lifetime opportunity to acquire a ready-made collection of this ever-popular collecting area. - 192** ★★/★/○ **Greece, Mint and Used Collection, 1861-1967.** Compact, fairly complete collection in a 4-volume Behrens paperback album, each volume containing about 20 pages much like an old approval book, but with printed spaces and descriptions like a normal specialty album; not much in the way of rarities, but we noticed a good number of \$100-&-up stamps, the most notable of which was a mint set of 1941 National Youth set overprinted for used in Epirus (N219-238); in addn, there are loads of \$25-\$100 stamps, many of which are mint high values in otherwise used sets; from the early 1960s onward the coll is complete and 99% MNH, with the overall condition of evg else being generally cavf. - 203 ○ **Iceland, Used Assortment.** Several hundred stamps, virtually all postally used, as far as we can see no tollur cancels from the late 19th Century coat of arms ore issues through early 20th Century King Christian IX 1902/04, through gildi overprints, on to the double king portrait issues, again with a similar pattern of many different cancels to explore, ending with Christian X 1920/22 etc. There is also an interesting range of officials/pjonustu issues, again including the gildis Scott types O3, double kings with multiple through lots of o/ps 1920s etc. A chaotic, disorganised and interesting used holding, very much full of potential and completely uncatologued, Fine to Very Fine (photo on web site).

- 209 ★/○/☒ Israel, Extraordinary Assortment of the First Coins Issue, 1948.** "When in doubt, take it out", this was exactly what this collector did during many years of collecting Israel. When you first see this wild and crazy lot, it looks like it could be many tens of thousands of dollars. However, there some reference examples present. Yet in our opinion the overwhelming majority are genuine, including those with tabs. Nevertheless on the assumption that the higher denominations are to be valued on the basis "as seen", this especially goes for the imperforates of the same which we have never seen before to the 1000mils. There are also excellent plate blocks, including genuine 500mils value and dozens of lower denominations for the specialist to research. The postage dues are also worthwhile, however it is the first coin plate blocks rouletted, as well as incorrect inscription on tabs and much more that give this holding so much interest. Dealers of this country do not miss out on this wonderful opportunity, Fine to Very Fine (photo on web site).
Estimate \$2,500 - 3,500
- 210 ★★/★ Israel, Mint Accumulation, 1951-2000.** Useful mint holding with hundreds of singles, tabbed singles, blocks and souvenir sheets, all neatly identified, includes all with tabs unless noted 31-32, 35-36, 46-47, 48-50, 66-69, O1-O4, also includes two binders with souvenir sheets and sheetlets including 16 NH, 187a (x4), 241a (x2), with plenty of other tab sets, a sure fire money maker at our low estimate, a wonderful lot to break down for retail or internet sales, Fine to Very Fine (photo on web site).
Estimate \$1,000 - 1,500
- 211 ☒ Israel, One Man's Postal History Collection.** A few hundred covers mostly early housed in four well-filled cover albums with many better items, especially from the issues of the late 1940s. For example various first coins used as postage dues for underpayment, different denominations including registered, as well as postage dues with the overprints used on commercial correspondence. Other better items include double pair with illustrated tabs on flag with at least three of these, also variety on flags, postal stationery on flags and combination flags/US postal history, further areas include Kibbutzim combination usage, again with postage dues, plenty of early coins issues to investigate through to the early 1950s. In fact virtually everything here stops in the early 1950s. An excellent collection that gets better on each inspection, highly recommended, Fine to Very Fine (photo on web site).
Estimate \$600 - 800

We also noted a fair number of Jewish Fund labels, including some booklets. Three covers with Interim or Jerusalem locals and several aerogrammes to Hartford, CT. - 219** ★/○ **Italy, Mostly Used Collection.** A few hundred stamps, all different all one of a kind, and mounted on well filled ancient album pages from the first issue imperforate to the modern era. Certainly, at first glance very impressive with no empty spaces and much outside the box, completely uncatalogued, even some of the better semi-postals and air mails present from the 1930s through to interim government overprints 1944/1945 to post-WWII etc. Viewing much recommended, finds likely, Fine to Very Fine (photo on web site). - 220** ★/○ **Italy: Fiume, Outstanding Collection of Collections.** Several hundreds of mint and used stamps, filling this bulging volume, including the rare and signed hand stamped overprints. Beginning with 1918 through to the early 1920s with virtually everything present in Scott and much more in Sassone, not just the Gabriele d'Annunzio definitives, mint and used, as well as the Reggenza Italiana del Carnaro overprints, also the same for the A R B E and Veglia overprints galore, as well as a very good range of Governo Provisorio overprints, then the Regno d'Italia ornate overprints through semi-postals, special delivery, postage dues and newspaper stamps, etc. As far as we can see on our random checking, all the used is postally used and much of the mint is never hinged, as well as various different expert signatures noticed. There are many varieties and above all, most of the categories that are in Sassone mentioned for the first overprints are represented something distinctly lacking in Scott. The vendor - who put this together this over many years by buying numerous Fiume collections, privately and in auction, states that the catalogue must easily be in excess of 100,000 euro by Sassone, we would agree with that. Please study the scans for more information, an outstanding opportunity, Fine to Very Fine (photo on web site). Estimate \$3,000 - 4,000

- 250 ★/○ Palestine, European Post Offices Abroad Assortment.** Several hundreds of mint and used stamps issued in the 19th & 20th Centuries, in one well-filled stock book, including for example Ottoman Empire used in Jeru-

salem & Jaffa with multiples. A similar picture for Austro Hungarian Empire abroad including early whiskers through to the Para and Piaster overprints to high values such as 20 Piaster, different settings etc, well worth investigating among the 100s of stamps in this category alone. Then a good a range of German postoffices used in Turkish Empire specific for Palestine including eagle and Germania, through to Italian POs abroad, mint and used very extensive, also including areas outside of Palestine. Russia used abroad to 100 piasters, Russian POs in Levant, ending with French POs abroad to high values, all completely uncatalogued, immensely interesting and a recommended viewing, Fine to Very Fine (photo on web site).

- 251 ★★/★/○ Philippines, Valuable Stock, 1854-1990.** Crammed into six stock books and one binder, runs the gauntlet from Spanish Administration to US Administration to Republic, better used includes 250, 273, better mint includes 229, 289, 319-325, N1-N7, NJ1, NO2, and this is just a small sample of the lot, back-of-the-book is generally spotty, but with a whole binder of souvenir sheets and blocks, there are many extras such as complete booklets and blocks, an excellent buy at our low estimate, examination encouraged, Fine to Very Fine (photo on web site).

Estimate \$750 - 1,000

- 252 ○ Poland, Kiloware, 1919-24.** Pairs, strips & multiples tied and cancelled on box pieces, unpicked and waiting for a keen eye. We also noted some Hungary, Ukraine & Lithuania stamps. Inspection a must to envision the opportunity afforded here, Fine to Very Fine (photo on web site).

- 253 ○ Portugal, Used Assortment.** A well filled stockbook with many hundreds of stamps with nothing in excessive quantity, virtually all commercially used from the imperforate Pedro issues onwards, through to the imperforate King Luiz with a wider range of perforated 1867/1870 & 1870/1884 types through to high values 1000 reis, further 1880/1881 portraits on to the 1894 Prince Henry complete series #97/109 used, similarly to the 1000 reis, followed by an abundance of turn of the Century definitives through to the modern era. There are no catalogue figures, yet we will clearly run into many thousands, possibly five figures, mixed condition in the classics to be expected, Fine to Very Fine (photo on web site).

- 254 ○ Romania, One Man's Lifetime Collection, 1858-1990.** In four well-filled albums, and highly complete, including a good range of King Carol imperforates, as well as a good section of the perforated issues outside the box. A similar pattern continues right through this collection with much non-Scott listed material here. A joy to view such completion, seldom seen nowadays, Fine to Very Fine (photo on web site).

Estimate \$1,500 - 2,000

- 255 ★/○ Romania, Mint & Used Assortment, 1850s-1960s.** Thousands of stamps housed in a well-filled stock book, representing the duplicates and questionable classics from one man's lifetime collection, also offered in this auction. Starting with the 1858 coat of arms issue with sixteen stamps between #1 to #7, including fascinating manuscript cancels, black fancy cancels, oval postmarks, etc. A similar pattern with the imperforate King Carol issues

with about 60 examples here and many more hundreds of the subsequent 19th Century perforated issues. We also noted a very strong 20th Century section, and you could probably make at least three or four good Romanian collections out of this lot. All rare stamps in this lot are offered as is, reflected as such in our conservative estimate. Huge potential for the expert, well worth allotting plenty of time to view, Fine to Very Fine (photo on web site).

Estimate \$1,200 - 1,800

256 ★/○ Romania, Mint & Used Collection. Interesting collection, unusually put together as a secondary collection over the years, heavily duplicated in the classics, clearly with much merit on virtually every album page - nearly every page is displayed 'stamp on stamp', i.e. overlapping each other making a challenging viewing. This is not the case with the Moldavia 1858 types, although a very presentable Scott #3 108 pa close but clear margins mint unused (presumably a reference copy?), followed by further coat of arms Walachia, then imperfs Prince Carol 1866/67 through 1868/70 types with three 50 bani and numerous other values, about three dozen of this issue alone, overwhelmingly four margined examples. A similar pattern unfolds for the type A11 Prince Carol defins with several dozen to the 80 bani including a superb used strip of four of the high value and distinct range of shades, followed by a further extensive studies of the 1880 types through to 1893/1898, again with several dozens 'stamp on stamp' with many discoveries likely. The early 20th century is also particularly strong, again including lots of unusual multiples, not just blocks of 4, sometimes blocks of 6 and 8, as well as better early commems through to WW2. An unusual and excellent secondary collection that would be top of the line for most., Fine to Very Fine (photo on web site). Estimate \$800 - 1,200

257 ★/○ Romania, Mint & Used Assortment. Think of all the items that could not fit into the main collection or the primary work in progress, rather a diverse range of occupations and early imperforates, useful, with a few dozen examples from the Moldavian coat of arms to the King Carol to 50 bani 1860s types imperforates in quantity, through to perforated definitive types 19th Century by the dozens, high values 1906 commends through to souvenir sheets of the modern era, Fine to Very Fine (photo on web site).

Estimate \$300 - 400

353 ★/○/☒ **Worldwide, Eclectic Mint & Used Assortment.** Extremely interesting property housed in a thick stock book, for the most part representing purchases made at European auction houses. This investor still kept many of the single stamps in their individual auction folders and this alone comes to a few thousand dollars equivalent at cost. There are also stamps taken out of these individual folders that overall is even more valuable, however they are presented all over the place, somewhat chaotically. Another excellent section is the postal history including superb German illustrated FDCs of the early 1950s, as well as a good range of censor strikes on Spain during the war, also seen a fabulous Belgian Congo early airmail cover with Great Britain postage due applied on arrival. The best postal history however is Palestine/early Israel with many good items clearly worth \$50-\$100 each, including commercial first postage dues applied in the late 1940s, coin tabs, combination kibbutzim/first coins, early Palestine under British Mandate including registered usage. Other highlights include stamps with early Italian and French post offices in the Middle East, Imperial China, scarce Burma, further French Colonies, good Spain with much never hinged from the 1930s etc. This is at best only an outline description, the tip of the iceberg with many more discoveries to be made - please inspect carefully page for page. Ideal for a mail auction house looking for photograph items for the catalogue all at once,

very conservatively valued by us, Fine to Very Fine (photo on web site). Estimate \$4,000 - 6,000

633 ★ U.S., Back-of-the-Book, Mostly Revenues and Cut Squares, 1862-1980.
