CONDITIONS OF SALE - Public Auction

THE PLACING OF A BID SHALL CONSTITUTE ACCEPTANCE OF THESE CONDITIONS OF SALE BETWEEN BIDDER AND DANIEL F. KELLEHER AUCTIONS, LLC ("KELLEHER")

BIDDING

1. Unless announced otherwise by the auctioneer, all bids are per lot, as numbered in the printed Catalogue. Kelleher, as agent for the consignor or vendor, shall regulate the bidding and shall determine the manner in which the bidding shall be conducted. Kelleher reserves the right to withdraw any lot prior to sale (without liability to any potential purchaser or agent), to re-offer any withdrawn lot, to divide a lot or to group two or more lots belonging to the same consignor or vendor, and to refuse any bid believed not made in good faith. Estimates of sales prices contained in the printed Catalogue reflect the best judgment of Kelleher and are not minimum or upset prices.

2. (a) Bids shall be made in the steps set forth on the bidding page (ii). (b) The highest bid acknowledged by the auctioneer shall prevail. Should a dispute arise between bidders (including a dispute between a floor or internet bidder and the auctioneer acting on behalf of a mail bidder, consignor or vendor), the auctioneer alone shall determine who the successful bidder is and whether to reoffer the lot in dispute. Should a dispute arise after the sale, the auctioneer's sale records shall be conclusive. On all lots sold, a commission of **20% *** on the hammer price is payable by the buyer to the auctioneer together with any sales and use tax or customs duties.

3. (a) The auctioneer reserves the right to bid on behalf of clients (and consignors or vendors) but shall not be liable for errors and omissions in executing instructions to bid, however received, and whether such errors or omissions be those of the bidder or agent or those of the auctioneer.

(b) Lots are offered subject to a reserve price. The auctioneer will implement such reserve price by bidding on behalf of the consignor vendor. (c) It may also be assumed that all consignors have been advanced monies against the sale of their consigned material and Kelleher therefore has a security interest in the consigned material over and above the normal auction commission.

(d) Purchases made by a consignor or vendor or his agent on his own lots shall be considered as a sale subject to commissions and sales tax as applicable.

(e) Agents are responsible for the payment of the purchase price for all purchases made on behalf of their clients, unless other arrangements with the auctioneer have been confirmed in writing prior to the auction.

PAYMENT FOR PURCHASES

4. (a) Payment for lots, including those on which opinions are desired (Condition of Sale), shall be as follows:

(b) Floor Bidders. Payment of the purchase price, or such part thereof as Kelleher shall require, shall be made by the purchaser in cash or bank or certified check or in such other manner as Kelleher may determine. The name and address of the purchaser of each lot shall be given to the auctioneer immediately following the sale of such lot.

(c) Mail Bidders. A successful mail bidder will be notified of lots purchased. Before Kelleher will send such lots, payment in full must be received by Kelleher within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Kelleher at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft on a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Kelleher of receipt of a sending at the advised address shall constitute delivery. All charges for handling, delivery and insurance obtained by Kelleher on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$20.00 will be made.

(d) **Prompt Payment Discount** - Successful bidders whose payment is received within 15 calendar days from the date of the auction, shall be entitled to a 2% prompt payment discount of the hammer price of each lot, regardless of the method of payment.

5. Title shall not pass to the purchaser until full payment has been received by Kelleher as agents for the consignor or vendor.

6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions.

(b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Kelleher, may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty at such time as Kelleher Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, all other charges due thereunder, including commissions with respect to both sales, whether payable to Kelleher or to a third party and all incidental damages. It shall be in Kelleher's sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Kelleher. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder.

(c) A defaulting purchaser shall be deemed to have granted Kelleher a security interest in property in Kelleher's possession owned by such purchaser. Kelleher shall have all of the rights afforded a purchase money secured party under the Connecticut or Massachusetts Uniform Commercial Code with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Kelleher to such purchaser. Kelleher is authorized to file a Financing Statement in order to perfect its rights as a secured party.

(d) If Kelleher takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Kelleher to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Kelleher with its attorneys with respect to all matters arising out of a delinquent account.

(e) Unless otherwise acceptable to Kelleher, payment is to be made only in the form of cash, bank check or certified check, personal check (which must clear prior to delivery of lots), credit card (AMEX, Visa, MasterCard and Discover), PayPal or a bank wire transfer. Payments made by credit card are accepted as a courtesy without surcharge, if paid within 15 days of sale date.

WIRING INSTRUCTIONS:

Please contact us for our wiring instructions.

EXHIBITION AND INSPECTION OF LOTS; QUALITY AND AUTHENTICITY

7. (a) See viewing schedule for on-premises viewing. Ample opportunity is given for on premises inspection prior to the auction date, and, upon written request and at Kelleher discretion. Live video viewing is also available, please contact our offices to arrange same.

(b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue.

(c) Quality. Any lot which a purchaser considers to be incorrectly described may be returned to Kelleher within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Kelleher within four weeks of the date of the auction; however, Kelleher may, in its discretion, refuse acceptance of such returned lot. If an opinion of a mutually acceptable authority is desired, the period of time within which a lot must be received by Kelleher will be extended in accordance with Condition of Sale 7(g). In the event that a dispute cannot be resolved by reference to a mutually acceptable authority, and Kelleher thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned intact and in the original packaging and in the condition received (unaltered) by the purchaser. The following lots are not returnable except at the discretion of Kelleher: (i) lots from purchasers who attended the exhibition of the lots; (ii) lots examined by postal viewers; (iii) lots on account of their appearance, if they are illustrated in this Catalogue or online; or (iv) lots described as having repairs, defects or faults for any reason. (v) lots containing more than ten (10) items. (d) Authenticity. Any lot which is declared otherwise than genuine by a mutually recognized authority is returnable, provided such lot is received by Kelleher within four weeks of the date of the auction. Proof that a mutually acceptable authority declines to express an opinion is not grounds for the return of a lot.

(e) Expenses incurred a purchaser in the submission and the return of a lot under Conditions of Sale 7 is not subject to refund.

(f) Numerical grading is subjective and is based upon the condition of each issue. Lots may not be returned if a third party grades a stamp at lower than our grade.

(g) Lots with existing certificates from the Philatelic Foundation (PF) or Professional Stamp Experts (PSE), British Philatelic Association (BPA), Royal Philatelic Society (London) (RPSL) and Australia (RPSA), Vincent Graves Greene Foundation (VGG) or any other expertizing authority as recognized by the International Association of Philatelic Experts (AIEP), for items within their specialty and dated within the last seven (7) years from the date of sale, will be offered and sold on an "as-is" basis and as so stated on the certificate. Such lots may not be returned for any reason, including but not limited to a contrary verbal or written opinion or certificate.

SALES TAX/CUSTOMS DUTIES

8. Unless presentation of satisfactory proof that it is exempted by law, a purchaser shall pay to Kelleher the Connecticut, Massachusetts or any compensating use taxes of any other State claiming jurisdiction. Buyers outside the U.S. are responsible for all customs duties. A purchaser shall indemnify Kelleher and hold it harmless of and from any claims of any jurisdiction for sales taxes relating to the purchase of articles at the auction, whenever the same may arise.

WILLIAM B. MARTIN COLLECTION

William B. Martin (1942-2001) was a lifelong stamp and coin collector. Bill was born and raised in Ellenville, New York and at the time of his death resided in Pottersville, New York. Bill was passionate about world travel, history and the outdoors and his collection reflects all of these interests. As a librarian, he was in his element as a researcher and seeker of knowledge. His favorite travel destinations were Europe, South America (Peru in particular) and his beloved Adirondack Mountains. Among his many accomplishments were becoming a New York State Licensed Guide and a member of both the Adirondack 46er's and the Catskill 3500 Club. Bill was also a proud United States Army veteran and served his country in the Vietnam War. His collection is new to the market and shows his "likes" and eye for rarity and quality.

Extraordinary item in the finest condition

Outstanding and exceptional quality

Stamp and/or cover in sound condition; if a stamp, it is less well-centered than Very Fine but better centered than Fine.

Sound in all aspects. Perforated stamps will have the perforations clear of the design; the designs of imperforate stamps will not be cut into to any significant degree.

Imperfect centering (stamps) or poor general appearance.

Covers & Cancels

Minor imperfections, including but not limited to nicks, edge or flap tears or slight reductions are normal conditions for 19th-century envelopes that have been postally transmitted. Folded letters would have at least one file fold. Acceptable forms of conservation include light cleaning and edge mending. Covers may have an ordinary stamp with a minor defect. The above exist on most 19th-century covers and are not always described and are therefore not grounds for return.

Catalog Values

Unless otherwise noted, the currently available Scott Catalog values (2018 edition) are quoted in U.S. dollars and rounded to the nearest dollar. Other catalogues are often used for foreign countries or specialized areas as required.

Collection Lots and Condition

Please note that ALL collection lots are sold on an "as-is" basis and are therefore not returnable for any reason. Every attempt has been made to provide an accurate description, and images for most are available on our website. Most collection lots will contain stamps/ covers with varying degrees of imperfections/faults. We strongly suggest that lots of interest be viewed in advance of the sale.

Please also note that late payment for purchases may, at Daniel F. Kelleher's option, be considered just cause to revoke all return privileges.

Machin trials discovered after 20 years

- 91 ★★田 **Great Britain, 1997, Queen Elizabeth II, deep green (as used for 2p), light grey (as used for the 29p), flame (as used for 1st class, undenominated trials), full panes of 100, a limited supply of these were discovered, o.g., never hinged, Very Fine; each with photocopies of 2017 R.P.S.L. certificates that were issued for the discovery set of sheets (photo on web site). Estimate \$12,000 - 18,000**

Sheets of three trials of the Machin head, produced in 1997, have come to light in this the 51st anniversary of the introduction of Arnold Machin's iconic portrait of Queen Elizabeth II. The Machin definitives were first printed in lithography in 1980 as Royal Mail expanded its range of suppliers. However, by the mid-1990s it had decided that all the standard definitives should be printed in gravure. At the time The House of Questa, based in south London, did not have gravure capability. As the company wished to participate in all future tenders for Royal Mail stamps, whether printed by litho or gravure, in gummed or self-adhesive versions in sheets or stamp booklets, it decided to make a major investment in a gravure press and an automated booklet maker. To achieve the best, Questa partnered with a number of highly qualified and renowned organisations to deliver the skills, processes and technology required to ensure it would be ready for production in less than 18 months. Courvoisier, based in Switzerland, was at that time arguably the finest gravure stamp printer in Europe. The company agreed to assist Questa with technical advice and cylinder making. As part of this process Royal Mail gave permission for a print trial at Courvoisier using the Machin head: the original material to enable the trial to take place was supplied by Questa. Part of the thinking at the time was that Courvoisier might undertake the production of the cylinders needed for final stamp printing on behalf of Questa, but this did not materialise. The undenominated trials were produced in October 1997 in sheets of 100 (from larger sheets of 200 guillotined in two) with the Courvoisier imprint along the vertical margins. They exist in three colours: deep green (as used for the 2p), light grey (as used at the time for the 29p), and flame (as used for 1st class). Courvoisier had printed the then current Kenya definitives, these being of the same overall size as the Machin definitives. As a consequence, the trials were printed on coated paper without phosphor bands, and have perforation 15 x 14. However, the stamp image is slightly smaller than that used on Machin definitives. Barry Robinson, then Design Director of Royal Mail, visited Courvoisier to see the preparations. It is believed the trial sheets were printed on one of the small gravure printing presses at Courvoisier, some being printed during the visit. The gravure press and the automated booklet line were produced by ATN in France. The new machinery would not fit within Questa's original base in Camberwell: the move to Byfleet was part of the development. Courvoisier was founded in 1880 and started printing stamps in 1937. It was noted for the high quality of its photogravure work, but sadly it ran into financial difficulties and ceased trading in 2001.

When the “Í GILDI” stamps were issued, postal authorities neglected to send the examples to U.P.U. headquarters in Bern. By the time the oversight was discovered, there were no stamps, either with or without overprint, to be had. Therefore, Thiele Printing Works in Copenhagen was ordered to reprint the original stamps for overprinting in Reykjavik. The reprints were perforated 12, but were on paper with the new crown watermark, thus distinguishing them from the original stamps.

Figure 12 A.

As each sheet of 200 stamps only had one Type I stamp, we can arrive at some approximate idea of how many Type I stamps were printed.

If the total was 36,300, very few of this number have survived. After a search extending over twenty years, I have only been able to discover a total of some 36 copies. There is no wonder so few collections can show this remarkable stamp, remarkable because it is more of a stamp than simply a type example, because it contains the full original die design, a characteristic no other One Cent imperforate shows. The U. S. Catalogue lists 7 R 1 E in three colors, viz., Blue, Pale Blue and Dark Blue, and the latter is so rare it is not priced at all in the catalogue. This stamp in the dark blue color is indeed a very rare stamp. I recall seeing but one. (Figure 15 X).

The 1938 Catalogue places a value of \$7,500.00 on an unused copy of 7 R 1 E. My record lists three known examples, as follows:

(A) An irregular unused block of eight as illustrated in Figure 15 S. This piece includes 4 R 1 E to 9 R 1 E and 14 and 15 R 1 E. The photograph from which this illustration was made was stained and extremely poor and by no means does this item justice. This remarkable item forms but one of the many fine gems in the famous Raymond Lapham Collection of Boston.

(B) An unused single in an eastern collection, see Figure 15 T.

1851 Issue

Unique Dark Blue 7R1E Type I

- 816 ○ **1¢ dark blue, type I (5)**, position 7R1E, four clear gigantic margins all around showing every glorious bit of the type with portions of left and bottom stamps, in addition this stamp is in the rare dark blue shade which Ashbrook noted in his book is "...so rare it is not priced at all in the catalogue. This stamp in the dark blue color is indeed a very rare stamp. I recall seeing but one.", black New York large slug in circle cancel, used on circular mail; tiny corner creases at top, a small sealed tear at bottom and small thins, Very Fine to Extremely Fine centering, illustrated in Ashbrook and National Philatelic Museum 1851-57 handbook. Scott does not price this unique example in the "dark blue" shade. A significant rarity which would grace the pages of the finest of collections, *less than 100 examples of this stamp are thought to exist making it one of the rarest of the US stamps and a key part to any U.S. collection of classical issues*, ex. Ashbrook, Bacon, Ward, Superior; with 1957 P.F. and 2018 P.S.E. certificate. Scott \$67,500 for "blue". **Estimate \$40,000 - 60,000**

During the production of this stamp, it was clear that an entire pane of the full design wouldn't fit on the plate, so the existing transfers were erased, the plate was turned upside down and the sheet was restarted. As this second attempt progressed it was clear the full design would not fit on the sheet, so the design was reduced and the remaining stamps were transferred with reduced design. This is the only stamp of this issue from position 7 on the right side of the early state of plate 1 to retain the full type characteristics and also have the double impression of the first erased image. Illustrated in Ashbrook. This is the stamp Ashbrook was describing in his book and signed Ashbrook and photographed as Figure 15 X in Ashbrook's amazing tome, see Ashbrook, 1938, Volume 1, page 119 (figure 15X). Ashbrook mentions "I believe it was used only on printed circulars as I have never seen its use on a Drop Letter." The large slug handstamp is rare and only used during part of this rare types period (7R1E) for a few months according to Ashbrook.

Official Special Printings

Special printings of Official stamps were produced in 1875 at the same time as the regularly issues Reprints, Re-Issues & Special Printings were produced. They are un gummed and were overprinted "SPECIMEN", these are Special Printings and are different than the "Specimen" issues. Although perforated, these stamps were sometimes separated with scissors and/or razors, often times the perforations may be mutilated and the designs affected. We have listed the perforations and illustrated the examples being offered.

Please note that these are being sold as illustrated.
