Grading and Condition

Superb	Extraordinary item in the finest condition
Extremely Fine (XF)	A stamp or cover of outstanding and exceptional quality.
Very Fine (VF)	Scott Catalog's standard. Stamps will present a nice, balanced appearance. Covers appear new or show only minimal wear.
Fine-Very Fine (F-VF)	Stamp and/or covers are sound. Stamps are fully margined but noticeably off-center. Covers show normal travel wear
Fine (F)	Sound in all aspects. Perforated stamps will have the perforations clear of the design; imperforate stamps will not be cut into to any significant degree. Covers show extensive wear.
Very Good (VG)	Stamps with imperfect centering, stamps or covers with poor general appearance.

Covers

Minor imperfections are normal for 19th-century envelopes that have been postally transmitted. These include, but are not limited to, nicks, edge or flap tears, or slight reductions; folded letters will often have at least one file fold. Further, covers may have an ordinary stamp with a minor defect. Acceptable forms of conservation include light cleaning and edge mending. These conditions, even if not described, are not grounds for return.

Catalog Values

Unless otherwise noted, the currently available (2021 edition) Scott Catalogue values are quoted in U.S. dollars and rounded to the nearest dollar. Other catalogues are often used for foreign countries or specialized areas as required.

Collection Lots

Please note that **all** collection lots are sold on an "as-is" basis and therefore **not returnable for any reason**. Every attempt has been made to provide an accurate description, and extensive imaging is available on our website. Most collection lots will contain stamps and/or covers with varying imperfections or faults. We strongly suggest that all lots of interest be viewed in advance of the sale.

Please note that late payment for purchases may, at Daniel F. Kelleher's option, be considered just cause to revoke all return privileges.

Frank Correl

Frank was born in Germany in 1929. His interest in stamps started at the age of 6 during one of his family's winter vacations in Switzerland, where he admired the colorful stamps on letters in the hotel's reception. Frank and his sister left Germany on the Kindertransport in 1939. During his first year in England he was given a Whitfield King catalogue as a Christmas present, a seminal event in his collecting life.

He was reunited with his parents in the US in 1943. College and graduate degrees in business administration and history led to a 27 year career in USAID. He traveled extensively, both for work and in his private life. Wherever he was he would visit the local post office and he would send letters to himself and to friends as a way to develop a collection of used covers.

He was a frequent contributor to stamp magazines such as *The American Philatelist* and *Mekeels*. He wrote about historical events such as the plebiscites in Schleswig-Holstein and Eupen-Malmedy, as well as places he visited, Yemen, Guinea-Bissau, Maldiv Islands, Nepal and Eritrea.

He died in January 2021, looking at and for stamps till the very end . . .

Gordon M. Fisher Collection

Dr Fisher was truly a renaissance man and developed many talents in his 90 years. Born in Little Falls MN in 1925, he grew up in the Depression and never stayed in one place for too long. He would be regarded today as 'gifted' but the term was seldom used in those days. At the age of 7 he was writing letters in French and was not welcome at the local bridge club after beating even the most experienced players. After WW2, the GI Bill took him on a course of academic study; from the University of Miami to Louisiana State University and his PhD in pure mathematics. He met his wife, Dr Dawn Fisher, an equally accomplished mathematician in Miami and they remained happily married for 60 years. Dr Fisher taught at Princeton, the University of Otago and James Madison University for most of his career. He pursued his hobby of philately with passion and found peace in the process. By nature, he was driven to complete each country or subject once he had begun. Of particular note is the New Zealand collection, where the Fisher family spent 7 happy years. With the launch of Sputnik in 1957, this triggered a new interest in space philately and covers. The collection is expansive, detailed and meticulous and the family hopes that it will find happy homes and continue to bring pleasure.

- 1114 U.S., Mostly 19th & Early 20th Century Covers**, Over 1000 covers covering a lot of ground, beginning with around 20 stampless covers dating as far back as 1827 with 100's of others from the 19th century, many still with their enclosed letters. Good representation of Bank Notes and 1st & 2nd Bureau issues. There is one album devoted entirely to postal stationery, which contains the only modern material in this collection, postal cards which are either FDC or mint, but still much early envelopes and cards. Another album has even better material, with a few Blood's Penny Post of Philadelphia, #69 on cover, U351 sent registered mail, and F1 also on a registered cover. Many picture postcards too, mostly from the 1910s. Something of interest here for any U.S. cover collector, Generally Fine to Very Fine, Some images available online. - 1115 U.S., Duplicate Stock with Many Better, 1855-1998**, A total of 17 binders of various sizes and one stockbook; mostly used but there is a fair amount of mint too, some in blocks. Some have less than 1,000 stamps while others have many times more. But this lot isn't just about quantity; as the title says, there is a lot of better material here. Take the Columbians, for example; from the 4¢ to 15¢, here are the quantities #233 (19), 234 (15), 235 (3), 236 (13), 237 (15, 1 mint), 238 (4). How about the Trans-Mississippians? 285 (18), 286 (35), 287 (2), 288 (8), 289 (2), 290 (6). Seven of the binders house commemoratives, while six others are for definitives. How do these stack up? Here's the 1890 issue from the 3¢ to 10¢ as an example 221 (24), 222 (44), 223 (26), 224 (6), 225 (7), 226 (28). The first bureau issue of 1894 does not seem to be sorted by watermark, only denomination. The same for the Washington/Franklins and also not checked for perforation, so this lot even comes with a little mystery of perhaps finding the scarcer varieties. Other than that, this collection is well organized with additional volumes on airmails, high denominations, precancels and one marked B-O-B containing good stock of special delivery, dues, cut squares and even some possessions, like Hawaii, Cuba Canal Zone and D.W.I. Condition does vary; yes, there will be some space fillers but also many sound copies of higher value stamps, Generally Fine to Very Fine, We are including a number of scans online to give you a better idea of the scope of this collection. - 1339 Canada & Provinces, Extraordinary Mint & Used Collection, 1851-1965**, Here's a collection which must have been languishing in a closet for decades; a Scott Specialty album with a very strong offering of classics, most still with very vibrant colours, the only downside being that it was either in a humid climate or in someone's basement, because some of the mint is partially adhering to the page. In the right hands, these stamps could be liberated and placed in a better album, which a collection of this caliber truly deserves! Some of the better sets & singles you will encounter include the following **mint #46-47, 50-65, 96-103 and used 5, 14, 17, 18, 21-25, 27**. 1348 Delectable Lineup of Classics, 1851-1929, Small collection on "102" cards, which on more than one occasion caused me to do a double-take! Like an imperforate four-margin Beaver which happens to be on laid paper, making it Canada #1 or the highly elusive Queen Victoria 1¢, 2¢ & 12½ with clearly visible watermarks from "Bothwell Clutha Mills" (#22a, 24a, 28a). Paul Cali, the man behind the mammoth Belgian cancellation collection and other lots in this sale has done it again. Following the same approach, this 3-volume set has all stamps in black mounts on quadrille pages, well annotated, and in the case of Great Britain, noted catalog numbers are for the most part referencing the book *British Postmarks: A Short History and Guide* by R.C. Among the fantastic mint you will encounter is #26 (VLH), 29 & 30 (signed), 32, 43, 45 (NH), 371 (NH), 431, B110 (LH), B110a (NH), B112-16, C46 (NH), J132-58, P1 (regummed, see scan of certificate), P6-7 and the following sets, all NH 378-79, B57-65, B66-70, B81-86, B93-98, B100-05, B107-09, B122-27, B185-88, B269-71, C57-59. And what about the used before 1890? Beautiful 4-margin examples of the 1850 issue and choice newspaper stamps with color & type variations; in terms of Scott # we're looking at 1-2, 6-8, 17-18, 33, 40b, 46, P1, P5-6 (on newspaper fragments) & P7. The albums end at 1972, but there is an accompanying binder of stocksheets with later mint & used singles, some various odds 'n ends like imperfs, Cinderella sheets, telegraph stamps and a set of local issues from Osttirol with gold overprint (MiNr I), as well as a few stray premium items, like a used P2 (yes, not a typo!), genuine but repaired as stated in certificate, and a used PR9. Also included are very well represented assemblages of Offices in Turkey, Occupation of Italy as well as Italian Occupation, an extremely impressive lineup of Lombardy & Venetia with various types including used 1-2, 7, 8 (on piece), 12, 15-19, PR2 and mint 2 (NG), 20-24, and Bosnia & Herzegovina with mint 85 & 108b (NH). - 1453 Austria, Mesmerizing Presentation of Austro-Hungarian Cancellations, 1850-1920**, Four volumes containing around 3,600 stamps of the Austro-Hungarian Empire organized by various cancellations referencing two philatelic works, *Handbook of Austria & Lombardy-Venetia Cancellations* by Edwin Mueller and *Die Regulären Poststempel der Stablen Ortspostämter in der Österreichischen Reichshalte* by Wilhelm Klein, both largely photocopied and accompanying this collection. The first volume begins with unusual cancellations, such as #38 cancelled in Vaduz (Liechtenstein), ship & train cancels, Offices in Turkey #16 cancelled in San Giovanni (present-day Albania), and Vienna Money Letter & telegraph cancels. After two pages of pre-1900 cancels on Hungarian stamps, we have eight glorious pages of Lombardy-Venetia with many better stamps regardless of the postmark, such as #5, 6, 11, 12, 14, 18, 21, 23, 24. Festivities continue with six pages devoted to Offices in the Turkish Empire featuring cancels from Beirut and Bucharest to Alexandria and Constantinople, and over 20 pages of town cancels from the following - Vienna, Brunn, Trieste, Graz, Linz, Salzburg and Prague. The second volume is the largest with a breakdown of town cancels by province encompassing the following areas - Austria, Bohemia, Moravia, Croatia, Italy, Dalmatia, Romania, Slovenia, Hungary, Poland, Silesia, and Slovakia. Volumes 3 & 4 feature cancels from 1900-20, as well as cancels on postage dues and newspaper stamps. The scope of this collection is absolutely amazing and the fact it was put together by one person makes it all the more incredible. Be sure to check out the other cancellation lots from this same consignor, as it doesn't end here! Some condition issues but mostly Fine to Very Fine, Imaged in full and available online. Shipping charges apply - weight 21 lbs. (photo on web site)..... Estimate \$3,000 - 4,000

- 1454 Austria, Extensive Mint & Used Collection, 1850-1992**, Here's a Scott Specialty album where the collector was clearly thinking outside the box; not only was the Scott Classic Catalogue consulted for perforation, type and color variations, but Michel too. All in black mounts, it is basically a parallel mint & used collection well into the 1960s and predominantly mint from then on. Even the modern era features some surprises which could easily be overlooked, such as imperforate varieties of #688//98 (8 corner blocks) and C60 (imperf block). But the strength of this collection is in the classics, and there's an abundance of them on overpopulated pages. Among the better unused in this collection, 1-2, 4-5, 6, 8, 51-65, 70 (imperf pair), 70-85, 104b (never hinged), 100-20 (imperf pairs), 127, 128-44, 161a, 164-67, 288-93 (imperf pairs), MiNr. Shipping charges apply - weight 16.4 lbs. (photo on web site) Estimate \$2,000 - 3,000
- 1456 Austria, Mostly Mint Collection, 1850-2011**, A 2-volume Scott Specialty album, which runs up to 1994, is mostly mint with almost all stamps in mounts. Very well-filled throughout, it looks to be complete from 1945 onwards. Here are just some of the better sets & singles you will encounter mint #354-73 (NH), 378-79 (NH), 427, B106-09, B110, B122-27 (NH), B132-37 (NH), C46 (NH), and used 1, 6-8, 17-18. Additionally there is a secondary used collection from 1910-87, a hingeless Lindner album with mint from 1971-82, Offices & Territories on pages with some better, like Lombardy-Venetia #6 & 12, and a handful of FDCs with some better as well, such as 599-603 on one cover. And as solid as the main collection is, a good chunk of the value from this lot comes from an accordion folder jam-packed with new issues up until around 2011, the latest date I spotted. Sets, souvenir sheets, booklets and more. Some scans available online but on-site viewing still recommended, Generally Fine to Very Fine. Shipping charges apply - weight 24 lbs. (photo on web site) Estimate \$2,000 - 3,000

- 1458 Austria, Bundleware, FDCs & More, 1867-1981**, Lots of interesting material in this unusual lot; we have 11 stockbooks filled with 1000's of mint & used stock and not all run-of-the-mill either, with perf and paper variants, privately perforated newspaper stamps, Feldpost with many on piece, telegraph stamps, offices in Crete & Turkey, and Bosnia & Herzegovina, and two shoeboxes filled with similar material. Next up are 7 cover albums with over 450 FDCs running from 1966-81, an attractive and clean collection. But I was totally unprepared for what I discovered next bundleware! Normally this term wouldn't excite me, but here we're talking about packs going back to the 1867 issue, and the sheer amount is mind-boggling. From my approximations, there has to be well over 100,000 stamps here, and I welcome anyone to count them and prove me wrong! And all appear to be 1920s or older, which sets up the possibility of finding scarcer varieties considering perf and printing variations, with or without varnish bars, and various postmarks. Perfect for the Austrian collector with some downtime, Fine to Very Fine, Check out the photos online; you have to see it to believe it! Shipping charges apply - weight 65.6 lbs. - 1497 Czechoslovakia, Large Mint/Used Collection, 1918-2000**, A very clean and well-filled collection into the 1970's hinged on album pages with mint stamps generally in mounts and never-hinged. An accompanying stockbook with 100's of stamps at first seemed to be merely duplicates until I noticed a number of items which were not in the album, such as used 429a, 719 perf & imperf, 556, 1134a, 1554 and an unused card of 288-92 as footnoted in Scott. A second stockbook did not have 100's, but many 1000's of duplicates, mostly used including Bohemia & Moravia and for the most part designated and sorted by Scott number from #1 well into the late 1970's. Czechoslovakia may be a dead country, but the spirit of the Czechs & Slovaks is still very much alive! Overall Fine to Very Fine. Shipping charges apply - weight 18 lbs. (photo on web site)..... Egypt

- 1509 Egypt, Collection of Egyptian Oddities, 1842-1968**, I began rummaging through this box of Egypt feeling much like archaeologist Howard Carter when he began excavating the tomb of Tutankhamun. Okay, perhaps I'm exaggerating, but there was this unquestionable sense of excitement while sorting this lot. Digging through around 40 covers, I came across many which tickled the imagination - cover with Italy #31 dated 5/29/1869 from Alexandria to Genoa with an Alessandria d'Egitto handstamp, numerous censored mail and military covers (with M3, M5, M7), C3 on cover to Switzerland, C4 to Germany, a stampless cover dated 3/22/1842 from Alexandria to Malta, a registered cover from Cairo to Karachi with C1 & 118-20, a picture postcard with French Offices in Alexandria 1 & 4 sent to Amsterdam and two picture postcards with Offices in Port Said, one with #5 to Bern with a Swiss postage due and the other to England with #23 and a GB due. - 1566 Germany, The “Ordnung muss sein” Accumulation, 1849-1990s,** To call this a messy German lot almost sounds like an oxymoron, but this is indeed what we have here - two boxes filled with stamps on various pages ranging from notebook paper to hingeless Lighthouse pages, 100’s of glassines and other envelopes crammed with stamps, loose stocksheets, bags with stamps on paper, small boxes filled with *Bundesrepublik* bundlware, a stack of first-day panels, folders with full and partial sheets and, well, fistfuls of loose stamps. And if you ask me if this lot is worth considering, my answer would be very simple; if you have the patience to sift through this accumulation, then absolutely! 1687 Worldwide, Heavyweight Champion of the World, 1841-1952, Weighing in at 14 lbs. and at the height of 6 inches, this massive Minkus Master Global Stamp Album packs quite a punch. With easily over 30,000 stamps, there's good representation of just about everything, and surveying just Great Britain alone, I found the following used #3, 32, 45, 64, 81, 82, 85, 96, 99, 102, 117, 121, 122, 126. - 1694 Worldwide, U.S., U.N., Israel Stamps & Covers Accumulation, 1861-2011**, This lot is in fact worldwide covering many different countries, but the bulk is without question from the three above-mentioned issuing authorities. There is a ton of United States here, with about 18 albums of both mint and used collections covering various date ranges, three of those volumes with mint envelopes and postal cards, and 1000's of covers, mostly FDCs. Many FDC sets are still in their original binders from Fleetwood and the Commemorative Society, such as a beautiful boxed set entitled "International Tribute to the History of Flight" and another 2-volume set of "Golden Replica" cachets. We also have numerous mint sets and commemorative panels as issued by the USPS, a 76-page binder of Cinderellas featuring Xmas & Easter seals, Boys Town and other labels from around the world as well as four mint sheet folders with full sheets, a few unopened retail stamp packets, old approval books, a few binders filled with various souvenir cards, stamps on paper, stamps in glassines, stamps in boxes, stamps, stamps and more stamps and that's just U.S.! Not far behind is the amount of Israel included in this lot, again with 1000's of covers consisting of FDCs, postal stationery, air letter sheets and maximum cards. A lot of it is well organized in cover albums, but some of it is loose too in boxes and tubs. There's a shoebox crammed with 100's of glassines containing singles and blocks, a couple of collections on album pages, mint sheet folders with 100's of full sheets, and many better stamps noted throughout. And finally, anything and everything that has to do with the United Nations; we have two mint collections which look complete, one with N.Y. & Geneva up to 1976, and another covering all three offices including postal stationery to 1982. Another 4-volume Minkus set consists mostly of FDCs but also has the 1962 UNTEA set (2nd printing). Speaking of FDCs, there's a gorgeous 7-volume hardcover set of the Flag series, along with a box containing 100's more, including maximum cards, souvenir booklets and postal cards. Sound enticing? If certainly does to some of us, because we know lots like this contain hidden treasures and that’s the exciting part. With just a quick examination, I uncovered mint Austria #B87-92, Belgium B178, Indonesia 65b+c, U.S. 581-91, 740-49 plate blocks, and Liechtenstein 1-3 used. Other items of note include eight boxes of “102” cards including much U.S., British Commonwealth, Poland, Portugal, Romania & Sweden, 100’s of covers, many FDCs including a collection mounted on pages and organized by topic, around a dozen albums with multiple U.S. collections, a giant stack of commemorative panels one of which was the 1875 set of 24 U.S. Newspaper Proofs, a stockbook with a good selection of German States, Offices & Colonies, over 20 U.S. Mint Sets and numerous USPS Commemorative Stamp Folios still unopened, mint sheet folders with full & partial sheets and a ton more U.S. mint carrying a lot of face value. 1725 Worldwide, Old-Time Accumulation, As a child, I remember a bulk of my father's collection in old, yellowing glassines and cigar boxes crammed with duplicates, so it's no wonder I found this lot so nostalgic! There is some material here from the last 30 or so years, mostly in the form of U.S. or Canadian postage, but the majority by far is material set aside a long time ago. You will find tens of thousands of stamps in glassines, boxes, bags, even 100's of dealer stamp packets still in their original envelopes. Some are still on paper, others hinged on pages or in one of the over 20 albums offered in this lot. A few albums are "newer", like a beautiful hingeless White Ace 3-volume set of mint Vatican (1929-93), almost complete after 1938 with two FDC albums and stock in glassines, and then there's four Stenders albums of Scandinavia up to 1945, still very clean and usable with many better items, like Denmark mint #185-91, used 68, 82, 131, C2-3, Greenland Q4b used, Iceland mint 74, 128, 144-48, used 12, 121, 149, C15-20, O50, Norway used 15, 16-18, Sweden used 2, 14. There's also a fairly well-filled 4-volume Scott set of Latin America until 1969 and a spotless U.N. (1951-84) collection in a hingeless Lighthouse album, complete mint for all three offices with flag mini-sheets. What else is here? Lots of U.S., hundreds of covers, postal stationery, plate blocks, mint sheet folders, dozens of souvenir cards, stockbooks of U.S.S.R., Greece and India. And of course, many cigar boxes Thank you for smoking! Fine to Very Fine, Thank you for smoking! Viewing in person highly recommended. Shipping charges apply - weight 316 lbs. (photo on web site) Estimate \$2,500 - 3,500

1726 Worldwide, "The Whole Shebang" Covers & Album Collections, 1859-2018, Not satisfied with a single album, let alone a single stamp? Then try this lot out for size! Dozens of albums, a mountain of mint, stockbooks, boxes of FDCs, and other curiosity items. Let's look at FDCs first, with at least 3,500 from the U.S. in various cover albums with many better, such as #615-16, 620-21 (on one cover), 648, 735 (New York), C46. Some nice Fleetwood editions, like the "Birds & Flowers of the 50 States" (1982) to dozens of unopened DCP sets from USPS in the 2000s. How about a 4-volume UNICEF set in slipcases of the UN Flag issues or a handsomely-designed album from the Postal Commemorative Society entitled "First Day Covers from Around the World" featuring covers from 113 different issuing entities. There's also over 50 mint sets, or as they were later known, yearbooks, from USPS and the vast majority are here from 1971-2008. Many other USPS collector editions and souvenir folders, like "Legends of the West" and the "1980 Olympic Games", both in hardcover. And there's a lot of U.S. mint to speak of too, not only from these various sets but in the form of loose singles, plate blocks, coil rolls, booklets, etc.; at least \$500 in face but probably much more. Some premium items as well, like the Legends of the West recalled sheet (#2870), Bugs Bunny with no die cutting (#3138c), an uncut press sheet of 3409-13, a plate block of R733, even some misperfs & imperfs, like 1625a. Looking outside the U.S., there are 14 binders, filled with stamps from Abu Dhabi to Zambia, which look entirely mint, two all-mint collections of Luxembourg (1945-71) & Liechtenstein (1912-71), both in hingeless Lindner albums. Other collections in albums include a homemade job on quadrille pages for Monaco (1952-81), which too is all mint, an extremely well-filled collection of nearly all mint British Honduras/Belize (1960-2003), a 9-volume set of U.S. Commemorative Panels (1972-94), a White Ace album with over 30 U.S. Souvenir Cards, and a 3-volume set containing nearly 200 U.S. Souvenir Pages from the 1970's. An album which is empty is even worth mentioning, because it is a hingeless one from Lighthouse for Japan with pages from 1871-1959 and in pristine condition. A few other mostly empty but premium hingeless albums from SAFE and Lindner cover Japan (1960-79), Cayman Islands (1946-72) and French Antarctic (1955-72), as well as a boxful of supplements. And many more surprises, like a box of full and partial sheets of Christmas & Easter seals along with other Cinderellas, a box of manila folders organized by country and crammed with mostly modern mint material, even a small collection of U.S. Post Office patches. Guaranteed hours of fun! Really needs to be evaluated in person to be fully assessed, generally Fine to Very Fine. Shipping charges apply - weight 490 lbs. (photo on web site) Estimate \$2,500 - 3,500

1727 Worldwide, Massive Mint and Used Dealer's Stock. A perfect holding for online or stamp show sales as the work has all been done and it comes in four large dealer carrying cases. All priced and often Scott numbers as well, neatly mounted on 102 cards and additionally housed in medium binders, with 20 binders to each case. - 1728 Worldwide, Mint & Used Collection & Accumulation, 1853-1970s**, Don't let the end date fool you, most of the material here is pre-WWII, beginning with a huge one-volume 1943 edition Schwaneberger album covering Europe. Many better stamps throughout, such as Liechtenstein mint #111-13, B7-10 and used 64-69, B14, Luxembourg used 1-2, 59, 69, Monaco mint 159, B19-23 and used 3-7, Portugal used 7-8, 9, 17, 24. All stamps are hinged and many mint seem to be adhering to the page. We also have a large stack of stamps hinged on quadrille pages and organized by country, around 90 covers, eight stockbooks of which seven are Germany covering not only the Reich but also States, Offices, WWI & WWII Occupation, Plebiscites, etc., and five shoeboxes packed with worldwide stock, most notably from Austria, Belgium, France, Hungary, Italy, Poland, Russia, Serbia, Switzerland, Turkey & Yugoslavia. And you know this accumulation was assembled a long time ago, not only because the boxes and envelopes look dated, but some bear the inscription "Oesterreichisch-ungarische Bank"! Another thing I love about these old-time lots is that you're never sure what will pop up, like randomly opening an envelope and finding Switzerland used B2-3, B4-6 (2), 100 (3) or paging through the stockbooks of common material and suddenly finding one with Austria used 225a, Italy mint 117-18 (VLH), 125 (LH), 246 (NH), Q1 and used 124-25, 141-42, B3, Netherlands used 97-100, Germany mint B11 (NH) and used B55a, B56-57, C34, C41, B104 (2) or rummaging through an old shoebox and pulling out Spain MNH B108Kl. And everything I described is in this lot and undoubtedly much, much more, Condition varies but generally Fine to Very Fine, Some images available online. Shipping charges apply - weight 56 lbs. - 1740 Worldwide, “The Whole Nine Yards” Accumulation, 1850-2000**, Here we go, another one of those lots when you’re not quite sure what you will uncover next. There’s a worldwide collection of 1000’s of stamps hinged on album pages, from Andorra to Zaire, other collections of Spain and Mexico with some nice classics, a binder of used Australian stock, another mostly of Scandinavia both mint & used, many 100’s of glassines in boxes filled with U.S. & worldwide, a binder filled with U.S. souvenir sheets with over \$200 in face, three counter books along with two boxes of “102” cards with better material, a large wooden box with 1000’s of stamps organized in envelopes by country, ten plastic tubs crammed with many 1000’s more, much of it still on paper, another tub with 100’s of covers, many of which are FDCs, a couple of stockbooks, postal card packs from the USPS, some still unopened, and then there’s the more unusual. One box is filled entirely with old approval books, and then I encounter two homemade collections on pages, one an all-mint collection of stamps & souvenir sheets on Churchill, the other on the theme of space running nearly 200 pages and organized alphabetically by country. After opening mint sheet folders containing full & partial sheets of Christmas Seals and Boys Town, and perusing a gorgeous 2-volume set of Wildlife Conservation Stamps from the National Audubon Society, things just got weirder when I came across a folder stuffed with partial sheets of mint Latin American revenues and a complete set of progressive color proofs of Sharjah (Michel #1158B-77B) in sheets of 15 including more mint oddities from the Trucial States. You gotta love these lots! generally Fine to Very Fine, personal inspection highly recommended. Shipping charges apply - weight 161 lbs. (photo on web site)..... Estimate \$1,500 - 2,000

Mostly U.S. but one box of Canada, one of Israel and a bit of worldwide scattered in three others. This lot would have gigantic catalogue value if it were not for moisture damage which seems to not have affected the cancelled stamps, but much of the mint is adhering to the glassines and/or other stamps. Nevertheless there is still much to be salvaged here, and if you’re looking for a bargain, you should set aside some time and inspect this lot in person, Condition obviously varies but many Fine to Very Fine.
