Grading and Condition

Covers

Minor imperfections are normal for 19th-century envelopes that have been postally transmitted. These include, but are not limited to, nicks, edge or flap tears, or slight reductions; folded letters will often have at least one file fold. Further, covers may have an ordinary stamp with a minor defect. Acceptable forms of conservation include light cleaning and edge mending. These conditions, even if not described, are not grounds for return.

Catalog Values

Unless otherwise noted, the currently available (2023 edition) Scott Catalogue values are quoted in U.S. dollars and rounded to the nearest dollar. Other catalogues are often used for foreign countries or specialized areas as required.

Collection Lots

Please note that **all** collection lots are sold on an “as-is” basis and therefore **not returnable for any reason**. Every attempt has been made to provide an accurate description, and extensive imaging is available on our website. Most collection lots will contain stamps and/or covers with varying imperfections or faults. We strongly suggest that all lots of interest be viewed in advance of the sale.

Introduction

The Professor's Hoard

Lots contained within and referenced as above are from a massive holding put together over many years by an avid philatelist who has been buying collections and removing “only the good stuff”, and selling off the remainders in order to keep his holdings to a reasonable size. Even this selection has overcome the Professor, and Mrs. Professor has put him on notice to get serious at selling those stamps. Many of the lots referenced as such represent, more or less, one-of-a-kind collections or items purchased from many sources, that the good Professor plucked out and placed onto 102 or 107 cards, amassing so many—well you know the story, it's gotta go. Most are in the \$50 to \$1000 range and are nicely annotated with appropriate catalog numbers and values. These lots are therefore ideal for re-sellers, be it online or in-person. Each item would be a nice selling lot regardless of the venue and there is no waste. Collectors would delight in purchasing these lots, removing what they desire and reselling the rest.

The Professor has an eye for quality and visual aesthetics, soaked-on-the-nose cancels and overly fresh color and centering and truly knows his stuff. These lots do not contain bogus or inflated/misidentified material, so it's all useful and valuable. Focusing on the time period 1840 to 1960, the classic period of collecting is best represented. There is also a plethora of varieties of every type, even some catalog-unlisted by. Please enjoy viewing these online or in-person to fully appreciate the opportunity presented by these interesting and meaty lots.

Please note that late payment for purchases may, at Daniel F. Kelleher's option, be considered just cause to revoke all return privileges.

Allan L. Galloway

Allan L. Galloway was a graduate of Newark Academy in New Jersey and the Stevens Institute of Technology in Hoboken, New Jersey. In his professional life Allan was an engineer for Long Island Lighting Company from 1949 through his retirement in 1987. He achieved the lauded status of an Eagle Scout after an incredible tenure with the Boy Scouts of America. Allan was a member of the historic Caroline Episcopal Church in Setauket, New York from 1952-2019, having served on the Vestry for over twenty years. He was a loyal and long-term member of the Port Jefferson, New York branches of the Rotary and Freemasons. He met the love of his life, Dorothy May Prachar, at sixteen years old and they had a long loving marriage of seventy years. Allan was an enthusiastic supporter of the arts especially the opera, ballet, and symphonies. He also loved to travel and appreciated all cuisines. He was an avid stamp collector starting his collection as a young boy and continuing to collect through his entire life. For every birthday and holiday his only request was "stamp money" and one of his greatest pleasures was sitting with his granddaughter Beth and talking through the collection.

Joseph (Joe) Schramm

Joseph (Joe) Schramm was an avid history buff and stamp collector for over 60 years. He was born in Philadelphia, April 16th, 1943. His family moved to New Jersey in 1959. After attending St Joseph High School in Camden, he went to New Jersey State Teachers College at Glassboro graduating in 1966 majoring in Secondary Education and started his first teaching job at West Deptford High School that same year.

Joe was drafted during his first year of teaching and enlisted in the Army for two years, 1968-1969. He was stationed in Viet Nam and assigned to the 716th MP Battalion in Saigon where he was part of a team given the task of protecting senior ranking officials and dignitaries. It was during his stay in Viet Nam that he further developed his interest in collecting stamps, especially Vietnamese and southeast Asian ones where he developed an extensive collection. His collection also included a full range of philatelic items from nearly every country encompassing nearly 100 volumes. He joined the Gloucester City Stamp Club where he was the Treasurer for 25 years prior to his death. Joe encouraged stamp collecting among his friends and students and used much of the stamp information

while teaching history to his high school students.

Joe married Susan White in 1970 and settled in West Deptford where they raised their two children. During this time Joe actively supported township activities and coached the high school sports teams. Along with his wife he founded the West Deptford Little Theatre where he directed shows and built scenery for all their productions for nearly 50 years. He was very well-rounded and was respected by all who knew him.

Raymond Lambrecht

Ray was born in Bay Ridge Brooklyn, New York on March 1st, 1940. Ray's parents are the late Raymond and Gertrude Lambrecht. Ray began collecting stamps when he was 8 years old, his Uncle Harry got him started, and he still has that original collection. When he was 12 years old the family moved to Saddle Brook, New Jersey. In 1958, Ray graduated from Saint Cecilia High School located in Englewood, New Jersey and attended Seton Hall University. At Seton Hall, he was a member of the National Society of Pershing Rifles. He was drafted in 1960, and served in the US army as an instructor on tanks at Fort Knox, before a transfer to Germany, joining the 1st 64 Division in Kitzingen, in the German state of Bavaria. After an honorable discharge, Ray went to work for the Teamsters, Local 863 as a tractor trailer operator. He later retired from Wakefern foods, ShopRite Supermarkets after more than 20 years without a single accident. Prior to his retirement, Ray and Sherry traveled to Europe and started collecting British and Irish stamps. In 2007, after his retirement, he and his wife, Sherry moved to Pittsboro, North Carolina, where Ray was able to devote all his time to his hobbies. He became fully immersed in his stamp collection, including first day covers and railroad certificates, as well as model railroading, model cars, and antiques. Ray had been diagnosed with multiple sclerosis and once his disease made it difficult to continue his collections, he made the decision to sell his collections. He wanted others to enjoy what he had worked so hard to

collect. Ray has been a member of the American Legion for over 45 years, most recently with Post 362 located in Sanford, North Carolina.

Roy Babbitt

Honorable Roy Babbitt was Chief Bankruptcy Judge for the Southern District of New York, a World War II Veteran, a Native Son of Brooklyn and an Avid Stamp Collector.

Roy was said to have 4 great passions: his wife, the Brooklyn Dodgers, the Opera and his stamp collection. And not necessary in that order he would remind people.

The child of immigrant parents, Roy grew up in the Luncheonette business. At age 12, he sold his first stamp collection to enable his parents to buy inventory and supplies. At 15, he was awarded a full scholarship to Harvard and by age 18 he had completed 3 years of college and was commanding a tank in the Philippines. He devoted much of his professional life to public service. He joined the Immigration and Naturalization Service and presided over the administration of the Oath of Allegiance to more than 7,500 new Americans. Roy was a brilliant writer who also taught at Fordham Law School for more than 40 years. He was a master of wringing tons of meaning out of ounces of words.

His love, admiration and respect for Philately came in very handy in his worldwide travels. He knew places and people that most individuals had never heard of. All thanks to his stamp collections.

Wayne Miller Compton

Son of Earl and Frances Compton of Fort Wayne, Indiana, he began collecting U.S. postage stamps as a young boy. Wayne graduated from Yale University in 1948 with a Bachelor of Science degree in Chemistry and then received his Master of Science in Organic Chemistry from the University of California, Berkeley.

From 1951 - 1954 he worked as a chemist for Tidewater Associated Oil Company at their Avon, California refinery. In November 1954, he moved to New York City to be a Process Engineer for the Arabian American Oil Company (ARAMCO). Wayne was sent to a computer programming course in Schenectady, NY in 1956, where one of the instructors was Jeanne Katherine Graves, who became his wife June 8, 1957.

Twins, Robert (deceased) and Laura were born in 1958. ARAMCO transferred Wayne from the New York Office to their headquarters in Dhahran, Saudi Arabia, to work in Data Processing. He spent the rest of his career in Dhahran, eventually becoming Head of the Computer Science Division.

He started collecting Saudi Arabian postage stamps as well as resuming his general stamp collection and he devoted a lot of time to his hobby. He participated in a stamp club, became a specialist in Saudi Arabian philately, and frequently advised Stanley Gibbons on new issues while living in Saudi Arabia.

Upon retirement in 1986, after 32 years with ARAMCO, Wayne and Jeanne moved to San Diego, California for the beautiful weather. He continued to grow his stamp collection, enjoyed spending time with other stamp collectors, joined several local stamp clubs, published an article in The Philatelic Reader, and served on the San Diego County Philatelic Council. He also drove a red Camaro convertible, read detective novels, and solved many sudoku puzzles until he passed away after 33 years of retirement at the age of 92.

Wilhelm Peetz

Wilhelm Peetz was born November 3, 1934 in Fuerth/ Germany - October 27, 2019. He was married to Elise Peetz and they had two sons Martin (born 1958) and Till (born 1960). His profession was in the plumbing industry and throughout his life he was active in various charitable organizations and held a post as a senior city council member in his hometown Fuerth from 1972 to 2002. Besides being an ardent stamp collector whose focus was on US stamps, he was a Historian, a Botanist as well as a hobby Archeologist specializing in prehistory from stone to bronze age. In his youth he was a boy scout leader inspired by his protestant faith and altruistic spirit. He loved classical music as well as American folk music, with his favorite tune being the "Charlie on the MTA" song from the forties.

He visited the US multiple times throughout his life and had a deep bond to this nation going back to the days when he was a kid and encountered American troops that liberated his hometown. Although the children were told not to eat any food handed out by the GIs because it may be poisoned, that advice was quickly disregarded when American candy and chewing gum made the rounds and won over the hearts of the population.

These childhood memories were published in a book about his hometown and there is also a voice recording on his wikipedia page. www.fuerthwiki.de/wiki/index.php/Wilhelm_Peetz

Dr. Robert (Bob) Greenwald

Dr. Robert (Bob) Greenwald was born on January 23, 1943 to Lilian Schmulevic and Charles Greenwald. Born and raised in the Bronx, he was valedictorian of the first graduating class of Herricks High School in Roslyn, New York in 1961. From there he headed west to Caltech to study biochemistry, before returning to the east coast to study medicine at Johns Hopkins. Bob was a founder of the Rheumatology Division at Long Island Jewish Hospital, where he served from 1972 until 2010 as Chief of Rheumatology and trained 35 fellows. In 2009, he was named a Master of the American College of Rheumatology for a distinguished career in scientific research, teaching, and patient care.

Following his father's lead, Bob collected stamps as a kid, but lost interest when he went away to college. His passion for stamps was rekindled after his father died, when he approached Larry Sherman, a fellow doctor on Long Island, to inquire about how best to dispose of his father's collection. Larry, an inveterate stamp collector, instead infected him with the bug.

In the 80s, Bob focused his collecting efforts on worldwide booklets. He wrote a weekly column for Stamps Magazine, called (you guessed it) Booklets. This column generated extensive correspondence with other booklet collectors, who eventually banded together to form the Booklet Collector's Club (BCC). From 1988–1992, Bob edited *The Interleaf*, the Quarterly Journal of the BCC. Bob was also integral to the club's efforts to produce a souvenir booklet, shown here, which was issued for Ameripex '86, an international stamp show held in Chicago. Although the BCC eventually folded, the friendships he formed with members of that group lasted his whole life.

By the 90s Bob's interests had shifted to Asia—Hong Kong and Macau in particular. He was speculating on the value of their stamps, given their looming transfer of sovereignty. As was par for his course, he joined the relevant club and assumed a position of leadership. In this case, he became the librarian of the Hong Kong Collector's Club, although he was dismayed to find that requests for the literature in his possession were few and far between during the years of his tenure! In the coming days, we will learn whether his Asian investments paid off, but just as he always suspected (following Charles Schultz), “when his ship finally comes in, he was sure to be at the airport

Bob was a prolific writer. In addition to the aforementioned columns and articles, he published multiple articles publicizing health issues on postage stamps, including “Giving Medicine its Stamp” (in 1992 in *Medical Times* 110(2)), “The World Health Organization: Stamping Out Disease” (in 1992 in *Medical Times* 110(8)), “The Postage Stamp as Messenger” (in 1992, in *Tobacco Control* 1(2)), “How Stamps Combat Smoking” (in 1983, in *Pharmacy Times*), “The Stamp Album: The Yellow Fever Story” (in 1985 in *Medical Heritage*), and “Arthritis on Stamps” (in 1979, in *Arthritis and Rheumatism* 22(5)). He also published “The Philatelic Rheumatologist” in the *Journal of Rheumatology* 19(9) in September 1992 and “The Rheumatological Philatelist” in 2013 in the *American Philatelist* 127(7).

Bob was light on small talk, and at times could be brusque, but was always one for a laugh. His myriad contributions to the academic literature include publications such as the “ACRONYM project: Acronyms for Clinical Research Opportunities: Names You Missed!” (for example, TORAH: Theologic Options for Rheumatoid Arthritis Healing). He published one article in the *Journal of Irreproducible Results* on “Protecting the Rights of Cells in Culture,” and another on how to use electrophoresis to uniformly distribute fruit throughout jello (rather than leaving it to fall to the bottom). Since his death, his daughters discovered an unpublished work deep in the bowels of his desk describing the eponymic Greenwald's Disease, an ailment that afflicts mostly males in their 3rd to 5th decade who have a tendency to identify obscure insignificant ailments with the intent that they be named after themselves.

Bob always said, “Opposites attract,” and nowhere was this more clear than in his marriage of 55 years to Elaine Kamhi, Ph.D., a woman 13 inches shorter than him (in heels). He adored her, and was so grateful for her efforts these past few years to sustain him in spite of his health complications.

Bob is survived by his wife Elaine, his daughters Amy Greenwald (Justin Boyan), Carolyn Greenwald (Adam Schaye), Michele Even (Ron Even), and his grandchildren Ella and Carmen Boyan, Nathan, Teddy, and Jaime Greenwald-Schaye, and Hannah and Jared Even.

Better material from the very first page, such as two nice 4-margin copies of #1, and many other better **used**, like 10, 78a, 156-63, 165-66, 239. Some fresh-looking **MNH** too, for example, 235, 284, 285, 323-25, and other better **mint**, such as 273, 298, 314 (Schermack Type III strip of 4), 347 (Schermack Type III pair), 368 (US Automatic Vending Type III pair), 397-400, 395 (pair), 658-79, 803-34, 2870, C1-3, C13-14, C18. But perhaps the real value is in the modern mint; there are over 2,200 **Forever stamps** alone. Add that to the other high denominations including Express Mail and we're talking about a lot of face here. In addition, a mint sheet folder, a binder of souvenir pages, and 25 FDC albums from the Postal Commemorative Society from 1981-2012 and other publications from the P.C.S., like the Norman Rockwell Cover Collection, Birds & Flowers of the 50 States FDC Collection, and around 70 Gold Replica FDCs from the 1990s. There are also occasional better mint: #339 plate number strip of 3, 331a/332a/374a/375a in various positions, 424d/425e/462a/463a with various positions or plate numbers, 467 NH, 479-80, 501b/502b with various positions or plate numbers, 524 with plate number, 528 plate block with monogram over plate number, as well as used: large strips of 424 and 425 with Coil Stamps inscription, 505 on piece, 524 blocks in various positions including top plate number with single black 8179 plate number, etcetera. We noticed occasional better plate numbers, as listed by Durland, as we were browsing, which you can find too by looking at our video which we produced for viewers on our website. Of course, when collecting a topic so rare, factors such as centering or condition are exchanged for ever finding any example of these rare stamps, so there might be some occasional faults or poorly centered stamps, but the rarity of these positions more than makes up for that, generally Fine to Very Fine, ex Shaff. Shipping charges apply - weight 34 lbs. (photo on web site) Estimate \$7,500 - 10,000
- 81 Bank Note Specialized Collection with Plate Numbers, 1870-87 (Scott 134-218)**, housed in Scott Specialty album and boasts hundreds of different stamps, with a particular focus on used plate number singles. It is sorted by issue and plate number and also contains interesting varieties, cancels, and interesting postally used covers - features that are typical of specialized old-time collections. The collector's goal was to acquire the most elusive used plate numbers, resulting in more elusive plate numbers. The collection includes occasional better mint plate number singles or multiples, including 134 pair with split grill, 134 used on cover, a pages of various 136 grill varieties, 147 group of pages containing many imprint and plate number pieces along with a preprint paper fold and a cover that appears to have a fancy cancel which looks like a male figure, page of #148 with color cancels and imprints, along with repurposed official business cover, 150 several stamps with various colors including a possible brown, several 151s, 152 with large portion of imprint and a couple usages on cover, 154 with large portion of imprint, page of #156 singles with several imprints and partial plate numbers, a couple pages of 157 with a single capturing imprint on cover, several pages of 158 with partial imprints, strip of three on cover with partial Continental imprint, several paper varieties, including: double paper and vertically ribbed paper, stitch watermark, etcetera, several stamps with captured plate numbers, 159 with partial imprints fancy cancels, with paid, numerals, paid all, etcetera, 160 several stamps with color and NYFM cancels, 161 a couple pages of stamps with interesting cancels with color and NYFM cancels along with imprints and partial plate numbers, 162 page of stamps with interesting cancels and one stamp with a dramatic imprint capture, 163 page full of imprints and plate number singles, several 165's, 166, as you move into the latter Continental issues, you encounter many more dramatic fancy cancels with quite a few paid, numerals, letters, color cancels, as well as many imprints and plate numbers up to the 15c, along with large imprint strips of 5 or 6 on Scott 212 (2 large strips), 213, 213 (3 large strips), some double perforation varieties on 216 along with 217 and 219 high denomination singles. The main focus of this collection is on used plate number singles, and the collector spent almost five decades acquiring almost every available stamp in this category. As a result, it's highly likely that most of the stamps in this collection are among the rarest in the market. We've already discovered some extremely scarce numbers in other parts of the collection, and we expect to find more in this section. If you want to see the collection for yourself, a video is available on our website. When collecting such rare stamps, the mere existence of the stamps takes precedence over factors like centering or condition, so occasional faults or off-center stamps may be present. However, their rarity far outweighs these minor flaws, generally Fine to Very Fine, ex Shaff. Shipping charges apply - weight 6.4 lbs. (photo on web site) Estimate \$7,500 - 10,000

(photo on web site)..... Estimate \$6,000 - 8,000
- 83 **Commemoratives Used Plate Number Collection, 1909-33 (Scott 367//726)**, many thousands (likely well over 10,000) of different (mostly used) plate number singles in six Scott Specialty albums, along with the occasional mint plate number singles or plate block when a suitable plate number single could not be found, there are also some very difficult covers with plate number singles or multiples on contemporary covers. There are also complete **mint** sets, such as broken circle varieties on 616 along with other plate varieties, blocks of the Harding set, 658-79, several White Plains sheets, occasional first day covers, etcetera. We noticed occasional better plate numbers, as listed by Durland, as we were browsing, which you can find too by looking at our video which we produced for viewers on our website. Of course, when collecting a topic so rare, factors such as centering or condition are exchanged for ever finding any example of these rare stamps, so there might be some occasional faults or poorly centered stamps, but the rarity of these positions more than makes up for that, generally Fine to Very Fine, ex Shaff. Shipping charges apply - weight 44 lbs. (photo on web site) Estimate \$6,000 - 8,000
- 84 **Fourth Bureau Imperf Flat Plate through Rotary Issue Plate Number Collection, 1923-31 (Scott 575//701)**, many thousands (probably over 10,000) of different (mostly used) plate number singles in three Scott Specialty albums, along with the occasional mint plate number singles or plate block when a suitable plate number single could not be found, there are also some very difficult covers with plate number singles or multiples on contemporary covers. There are also complete mint sets of the stamps (except for the 2c type II which is used). We noticed occasional scarce plate numbers, as listed by Durland, as we were browsing, which you can find too by looking at our video which we produced for viewers on our website. Of course, when collecting a topic so rare, factors such as centering or condition are exchanged for ever finding any example of these rare stamps, so there might be some occasional faults or poorly centered stamps, but the rarity of these positions more than makes up for that, generally Fine to Very Fine, ex Shaff. Shipping charges apply - weight 20 lbs. (photo on web site) Estimate \$5,000 - 7,500
- 85 **Specialized First Bureau Issue Collection with Plate Numbers, 1894-97 (Scott 246-284)**, in two Scott Specialty albums containing many thousands of stamps, with a strong concentration of used plate number singles, sorted by issue and plate number, along with shades, cancels or interesting postally used covers, which you only find in the most specialized of old-time collections. The goal was to find the most elusive used plate number single, so you don’t tend to find a lot of high Scott catalog value items, as you do scarce listed Durland numbers, so it is hard to create a wall of numbers for you to relate back to, however we found a few items to give you a taste, **mint plate number singles (unless noted otherwise)**: 253 plate number strip of three, 255, 256, 266/267 Type II and III pair and block of four, many plate number singles and strips of three of various 1c and 2c denominations, 268 (3 and plate number strip of three), 269 (3 and plate number strip of three), 270 (5 and plate number strip of three), 271 (2), 272 (2), 273 (3), 280 (5), 281 (3 singles and 2 plate number strips of three), 282 (2), 282C plate number strip of three, 283 single and plate number strip of three, 284 and **used**: 264-78. It is important to note that this collector acquired virtually every available used plate number single over a period of nearly five decades, which means that the stamps in this collection are likely among the most comprehensive in the market. As we reviewed other sections of the collection, we discovered some highly elusive stamps and anticipate finding similar gems in this segment. You can view a video of the collection on our website and see for yourself. When dealing with such a rare collection, aspects such as condition and centering take a back seat to the mere existence of the stamps. Consequently, there may be occasional flaws or off-center stamps, but their scarcity more than compensates for any imperfections, generally Fine to Very Fine, ex Shaff. Shipping charges apply - weight 11.2 lbs. (photo on web site)..... Estimate \$5,000 - 7,500

- 90 Specialized Commemoratives Collection with Plate Numbers, 1893-1907 (Scott 230-330)**, housed in Scott Specialty album and boasts, hundreds, if not thousands of stamps, with a particular focus on used plate number singles. It is sorted by issue and plate number and also contains shades, cancels, and interesting postally used covers - features that are typical of specialized old-time collections. The collector's goal was to acquire the most elusive used plate numbers, with occasional better mint plate number singles and multiples along with very interesting cover usages, but it is a little difficult to find the better individual Scott listed items as plate number was often selected over Scott number, making it challenging to create a wall of numbers for comparison. The primary theme of the collection is that the collector spent almost five decades amassing nearly every used plate number single available, making it highly likely that most of the stamps in this collection are among the rarest in the market. While going through other sections of the collection, some extremely scarce numbers were discovered, and more are anticipated in this section. You can view a video of the collection on our website to see for yourself. When collecting such rare stamps, factors like centering or condition take a back seat to the mere existence of the stamps, so occasional faults or off-center stamps may be present, but their rarity outweighs these minor flaws, generally Fine to Very Fine, ex Shaff. Although the goal was to find the most elusive used plate number single, there is also occasional scarce item, with **mint**: E1, E2, E5, E6 (2 with plate numbers), E7 with plate number, Q11 pane, O20 (2), O21, O98 large block of 50 which has been separated at center vertically, O76, O87, O91, PR5, PR10, PR16, PR57, PR81, PR125 with plate number, and **used**: E7 (3 with plate numbers), E12 with large foldover error, F1 (4 plate numbers singles, one of which is on cover), JQ3 right side plate block, Q7 with plate number on special delivery cover, Q8-9 plate number singles, Q11 block of four with plate number, O6, O8, O12, O57-66, O120, PN1-18 complete on postal note, only with duplicates of lower denominations to 50c, PR11, PR13, PR121-23 with plate numbers and PR125 with plate number. Some areas of note include, section of parcel posts on cover, officials with fancy cancels, complete postal note set, post office seals and many different plate numbers of special delivery issues, especially from E11 on. As we made our way through other parts of this collection, we have some very scarce numbers and expect to find the same here. You can browse for yourself by looking at our video which we produced for viewers on our website. Of course, when collecting a topic so rare, factors such as centering or condition are exchanged for ever finding any example of these rare stamps, so there might be some occasional faults or poorly centered stamps, but the rarity of these positions more than makes up for that, generally Fine to Very Fine, ex Shaff. - 92 1898, 2¢ Trans-Miss., Plate Number Pairs Study (Scott 286)**, in mint never hinged and mint hinged, plus five singles in mint hinged condition; includes 88 of the 121 plate numbers with two scarce plates (675 and 685); some better quality that might be worthy of grading, Fine to Very Fine. Scott \$15,065. (photo on web site) Estimate \$3,000 - 4,000
- 93 Plate Number Single and Plate Block Specialized Collection, 1935-56 (Scott 702//1109)**, in 15 albums, mostly Scott Specialty albums, packed with plate number singles and plate blocks, but also containing various covers, with the occasional first day cover, along with various other interesting varieties which caught the collector's eye, such as gutter snipes, misperfs, etcetera. The main focus of this collector's interest was used plate number singles, but often he couldn't find the plate numbers or varieties he wanted, so he would resort to filling those spaces with mint stamps, such as 859-93 plate block set, which you see in sections such as the Liberty coil strips which are nearly all mint and capture portions of the plate number at top and bottom to make a complete plate number. You will also find occasional mint plate blocks just to make a set. Plenty of value to be found here, generally Fine to Very Fine, ex Shaff. Shipping charges apply - weight 90 lbs. (photo on web site) Estimate \$3,000 - 4,000
- 94 Specialized Second Bureau Issue Collection with Plate Numbers, 1902-03 (Scott 300-320)**, in Scott Specialty album and large home-made album containing many thousands of stamps, with a strong concentration of used plate number singles, sorted by issue and plate number, along with shades, cancels or interesting postally used covers, which you only find in the most specialized of old-time collections. The goal was to find the most elusive used plate number single, so you don't tend to find a lot of high Scott catalog value items, as you do scarce listed Durland numbers, so it is hard to create a wall of numbers for you to relate back to, however we found a few items to give you a taste, **mint plate number singles (unless noted otherwise)**: 300 strip of 3, 301 (2 singles and 4 strips of three), 302 (3), 303 (3), 304 (2), 308 (2), 309, mint booklet panes: 301c (2), 319g (4 panes with 3 position E and 1 position D plate number 3198), 319Fq, 300-13 used set and, 300-7 used blocks of four. One important aspect to consider is that the collector had amassed practically every available used plate number single over a span of around five decades, indicating that this collection probably contains most of the stamps present in the market. During our review of other areas of the collection, we discovered a few incredibly uncommon stamps and anticipate discovering similar ones in this section. You can visit our website and watch the video to examine the collection yourself. However, when dealing with such a rare collection, factors like condition and centering are overlooked in favor of finding any example of these exceptional stamps. Therefore, there may be some occasional flaws or poorly centered stamps, but their rarity and uniqueness far outweigh any imperfections, generally Fine to Very Fine, ex Shaff. Shipping charges apply - weight 14.8 lbs. (photo on web site) Estimate \$3,000 - 4,000

- 95 Plate Number Single and Plate Block Specialized Collection, 1986-2021 (Scott 2168//5551)**, in 22 Scott Specialty albums, packed with plate number singles and plate blocks, but also containing various covers, including the occasional first day, interesting cancels, shades, varieties, or whatever caught his eye. The main focus of this collector's interest was used plate number singles, but often he couldn't find the plate numbers or varieties he wanted, so he would resort to filling those spaces with mint stamps and this became considerably more common with mint panes which became popular in the mid 1990's. Modern used stamps are quite popular with some U.S. collectors, in addition to the used plate number material, there is quite a bit of face value postage, generally Fine to Very Fine, ex Shaff. Shipping charges apply - weight 150 lbs. (photo on web site) Estimate \$3,000 - 4,000
- 96 "Stepping Up to the Plate" Powerful Plate Block Collection, 1901-2012**, Exceptional mint collection in six binders, with three for **commemoratives** (1901-95), one for **regular issues** (1902-2009), one for **Christmas issues** (1962-2009) and one for **airmail** (1918-2012). Each volume begins with singles or blocks of four for the earliest issues, but the vast majority of this collection is with plate number. In addition, scores of **booklet panes**, **coil pairs**, and **PNC strips** of three for later issues. - 97 Small Bank Note Specialized Collection with Plate Numbers, 1890 (Scott 219-229)**, housed in Scott Specialty album and boasts hundreds of different stamps, with a particular focus on used plate number singles. It is sorted by issue and plate number and also contains interesting varieties, cancels, and interesting postally used covers - features that are typical of specialized old-time collections. The collector's goal was to acquire the most elusive used plate numbers, making it challenging to create a wall of numbers for comparison. The collection includes occasional better mint plate number singles or multiples, including 13 very large plate number strips of 220, 221 (2 pairs), 223-27 plate number singles, 223 plate number strip of five, 225 (3 plate number pairs and one plate number strip of five), 226 plate number strip of four, 228 plate number pair, and an interesting variety such as the 219 candle flame variety. The primary theme of the collection is that the collector spent almost five decades acquiring nearly every used plate number single available, making it highly probable that most of the stamps in this collection are among the rarest in the market. While examining other sections of the collection, extremely scarce numbers were found, and more are expected in this section. To see the collection for yourself, you can view a video on our website. When collecting such rare stamps, factors like centering or condition take a back seat to the mere existence of the stamps, so occasional faults or off-center stamps may be present, but their rarity far outweighs these minor flaws, generally Fine to Very Fine, ex Shaff. - 101 Specialized Collection of 1861-67 Issue, with Plate Numbers (Scott 63-97)**, on Scott Specialty pages, with a particular focus on used imprint captured singles. It is sorted by issue and also contains interesting varieties, cancels, and a few interesting postally used covers - features that are typical of specialized old-time collections. As anyone who knows these early classics, it is incredibly difficult to find imprint captures of some of these early issues as the selvage was not typically saved and the margins were quite narrow. Notable items start with a page of the early 1861 issues, with a couple great candidates for pink or rose pink shades, 72, 76, 78, moving on to a page of #63 with various shades, color cancels, double perfs, paid, a couple covers, etcetera, 68 page with some fancy cancels: ie: cogwheel, paid, color cancels, as well as a lovely imprint single, partial page of 70/78 several stamps with a variety of shades, one stamp with double perforations, 73 page of stamps with various cancels, a couple revenue cancels, paid, color cancels, 9 stamps and 1 cover with imprint selvage including one which says "Plate" but the number was probably on the next stamp, 76 a couple stamps, one with prominent imprint capture, a page of the various grills with wide straddle margin #85B, along with some other gridded issues: 86, 89, 92 (2), several 93s with color cancels or paper varieties, 96-97 and 97 with small preprint paper fold. The collection primarily centers around individual used imprint stamps. He preferred plate numbers, but they are exceedingly difficult on these early issues. The collector has spent close to fifty years amassing nearly all of the available stamps in this category. This makes it highly probable that a majority of the stamps in this collection are some of the scarcest ones in the market. Other areas of the collection have already yielded incredibly rare stamps, and we anticipate finding more in this particular section. If you're interested in viewing the collection, a video is accessible on our website. Given the rarity of these stamps, their existence is the most important factor, with considerations such as centering or condition taking a backseat. Thus, some stamps may have faults or be off-center, but their scarcity far surpasses these minor imperfections, generally Fine to Very Fine, ex Shaff. Shipping charges apply - weight 0.6 lbs. (photo on web site)..... Estimate \$2,500 - 3,500
- 102 Plate Number Single and Plate Block Specialized Collection, 1958-88 (Scott 1110//2375)**, in 28 Scott Specialty albums and another home-made album, packed with plate number singles and plate blocks, but also containing various interesting covers, including the occasional first day, interesting cancels, shades, varieties, or whatever caught his eye. Includes two quite comprehensive books of Transportation coils and plate number singles, with quite a bit of mint strips adding up to significant face value. The main focus of this collector's interest was used plate number singles, but often he couldn't find the plate numbers or varieties he wanted, so he would resort to filling those spaces with mint stamps. So, in addition to all of the used plate number material, there is a decent amount of face value postage here too, generally Fine to Very Fine, ex Shaff. Shipping charges apply - weight 219 lbs. (photo on web site) Estimate \$2,500 - 3,500
- 103 "Building Blocks" Highly Organized Plate Block Holding, 1906-59**, An excellent plate block holding organized in glassines by catalogue number and a great deal of it covering all four plate positions as well as some of the scarcer plate numbers as listed in Durland. - 105 #CE2 Plate Block and Sheet Collection, 1936**, approximately 1,000+ different plate blocks, in individual glassines, album of quadrille pages containing larger pieces or large black stock pages, collection contains a decent section of X and rarer Durland rarities, including **with arrow**: F21841-F21950, F21842-F21951, F21844-F21856, F21852-21948, F21854-21857, F21854-21948, F21854-F21950, F21902-21857, F21902-F21951, 21903-21858, 21904-21949, 21917-21855, and **without arrow**: F21841-22185, F21841-F22185, F21846-21835, F21849-21855, F21849-22185, F21850-22191, F21853-21949, F21902-F22185, 21912-21857, 21912-22185, 21918-21855, 21918-F21857, 21919-21949, 21920-21838, 22197-F21837, 22197-21838, 22197-F21856, 22198-F21837, 22198-21856, 22199-21857 and 22199-F21951, o.g., mostly never hinged, generally Fine to Very Fine. Shipping charges apply - weight 6.8 lbs. Scott \$12,500 + w/o premium for NH or #. (photo on web site) Estimate \$2,000 - 3,000

- 107 Fourth Bureau Perf 11 Flat Plate Issue Plate Number Collection, 1922-25 (Scott 551//573)**, many thousands of different (mostly used) plate number singles in Scott Specialty album, along with the occasional mint plate number single or plate block when a suitable plate number single could not be found, there are also some very difficult covers with plate number singles or multiples on contemporary covers. There is a complete set of mint plate number singles as well as a used set along with several of the high denomination numbers, including massive 572 bottom margin plate block of 20 with two plate numbers, quite a few position pieces of 573 with various selva inscriptions, several with plate numbers and used right arrow block of 30. We noticed occasional scarce plate numbers, as listed by Durland, as we were browsing, which you can find too by looking at our video which we produced for viewers on our website. Of course, when collecting a topic so rare, factors such as centering or condition are exchanged for ever finding any example of these rare stamps, so there might be some occasional faults or poorly centered stamps, but the rarity of these positions more than makes up for that, generally Fine to Very Fine, ex Shaff. Shipping charges apply - weight 9.4 lbs. (photo on web site) Estimate \$2,000 - 3,000
- 108 Premium Plate Blocks Selection, 1907-54**, mostly NH blocks on sales cards and including 328 (stamps NH), 329 NH, 371 NH (2), 373 NH, 397 (stamps NH), 401 (stamps NH), 538 "S30" block of six NH, 548-50, 589 NH, 617-19 NH, 833 NH, 1030-52 NH, C46 matched set NH, E13 (stamps NH, some slight oxidation), F1, typical mixed centering with most F-VF; Scott \$7,200+. The collector's goal was to acquire the most elusive used plate numbers, resulting in more elusive plate numbers. The collection includes occasional better mint plate number singles or multiples, including a few of the notable items here: 112-19 (a couple appear mint), 121, 112 one with imprint, another revenue use and one red paid all, 113 with some arrows or entry guidelines, a couple fancy cancels, paid all and brown color, split grill, 114, a couple imprints, one of which has partial plate number and one stamp with preprint paper fold, several color cancels, pair with split grill, several singles with imprint captures, 115 a couple color cancels, arrow margin marking, single used on cover to Canada, 116 one with red circle of wedges cancel, another with arrow margin capture. - 112 Postage Due Specialized Collection with Plate Numbers, 1879-1959 (Scott J1/J104)**, housed in two Scott Specialty albums and contains hundreds, if not thousands, of stamps. The concentration is primarily on used plate number singles, arranged by issue and plate number, and includes shades, cancels, and intriguing postally used covers, which are typically only found in highly specialized old-time collections. The primary objective was to locate the most elusive used plate number singles, resulting in a scarcity of high-value Scott catalog items but featuring numerous scarce Durland numbers. Therefore, it may be difficult to create a wall of numbers for reference purposes. The key point to consider is that the collector spent nearly five decades acquiring almost every available used plate number single, making this collection one of the most comprehensive in the marketplace. We encountered some highly uncommon stamps while reviewing other areas of the collection and anticipate finding comparable gems in this section. You can view a video of the collection on our website and see for yourself. However, when collecting such rare stamps, factors such as condition and centering take a back seat to the mere existence of the stamps, so occasional flaws or poorly centered stamps may be present. Nevertheless, their rarity more than compensates for any imperfections, generally Fine to Very Fine, ex Shaff. Shipping charges apply - weight 12.6 lbs. (photo on web site)..... - 114 Specialized Collection of 1851-57 Issue, with Plate Numbers (Scott 7-37)**, on Scott Specialty pages highlight used imprint captured singles, with an emphasis on sorting by issue and including interesting varieties, cancels, and a few postally used covers - typical of specialized old-time collections. Early classics are known for their scarcity in imprint captures, as selvage was not typically saved and margins were narrow. Notable items include 9X2 reprint pair, 7, 8 (or 8A), 9, 10 (2), 12, 14, 15, 17, 24 (no gum), 26 (appears NH), 29, 32, 35 (eight different stamps with large imprint captures), 36, 36 pair (with partial captured imprint), 37, and 37 (with strong captured imprint). The collection primarily focuses on individual used imprint stamps, with the collector spending nearly 50 years amassing almost every available stamp in this category, making it highly probable that the majority of the stamps are among the rarest on the market. While some stamps may have faults or be off-center, their rarity far outweighs these minor imperfections. When we examine covers, we see some lovely first days, some interesting advertising or some unusual cancellations. There are occasional EFOs, along with everything else you can imagine. Plate number singles and blocks were really the focus of the collection, so there are pages and pages of used plate number items, sorted by plate number. Collection seems to have soaked up most of the used plate numbers which have been available on the market for the last 50 years, so now you have an opportunity to add some unusual items to your collection too, generally Fine to Very Fine. Shipping charges apply - weight 5.6 lbs. (photo on web site) Estimate \$10,000 - 15,000
- 135 Highly Specialized Revenue Collection, 1862-1963,** in three volumes (two of which are Scott Specialty and one album is of revenue stamped paper). Most of the strength appears to be in the First Issue with 90%+ of a packed Scott Specialty album dedicated to the first issue. As you examine this album, the first thing you must realize is, this collector loved cancels, so you will see so many socked-on-the-nose cancels where the collector goes into detail about what type of cancel it is (whether it was railroad, fire insurance, bank, etc.). He also really loved larger pieces, so among the First Issue imperfs and part-perforations, you have some large selvage pieces and larger multiples, with the following better: #R1a pair, R1b pair, rather large R4a, R13b, R19b pair and block of 10, R22b, R24b pair, R40b with imprint, decent size R62b with large margins, R64b with massive sheet margin, R59b strip of three and several plate number selvage singles, R65a, R68a with imprint capture, R82a, R85a, massive R88a, large R90a, large R91a, R98a, R101a, perforated issues are mostly complete, appearing to only miss the typical 6c proprietary \$20 Probate of Will and \$200 Internal Revenue stamps, but instead of focus on the completeness, you really should look at all of the supplementary section as there are well over 100 pages of just the perforated issue, with many documents, including a few photos, stamps with extra perforation rows, many stamps with imprint captures or plate numbers, quite a few pairs and blocks, including some rather large pieces (especially if they had plate numbers still attached), cancels were always purchased, especially railroad, pre printing paper folds, quite a few railroad stock certificates. The same type of specialization carries over into the Second and Third Issues, where you see the Second Issue mostly complete, only missing the \$1.60 up to the \$25, and the Third Issue complete, with some amazing imprint and plate number pieces along with extra perforations, multiples, etc. As you move into the second volume, you find #R159-R160 along with an extra R159 with plate number, then you get into the highly specialized Spanish-American War Battleship issues, with various cancels, imperforate-between, multiples, documents, etc., then you get to the large Documentary issues which look similar to Newspaper stamps, small Red Documentary issues of the 1910s and finally 1940s Documentary issues with occasional high denominations, we move to first Proprietary set where you have the better 5¢, 6¢ and 10¢ denominations of various papers, collection then goes back to the Battleships where you see quite a few medicine cancels, large multiples, future delivery mostly complete (only missing the last couple stamps); Stock Transfer very strong until you get to 1940, where it drops off a bit, but still has occasional higher denomination Green Stock Transfer stamps, quite a few of the first Silver Tax issue, decent Wine stamps, quite a few Beer stamps, with some various papers, and with #REA20, REA34, REA75, along with some Distilled Spirits, Distillery Warehouse and Prohibition prescription forms, finally strong section of Playing Cards, with the normal Scott-listed items, followed by interesting cancels of the various companies or varieties. Of course, as a person collects Revenues, they are not typically looking for graded material, but for cancels, multiples, etc. This is an "old-time" collection, so condition was sometimes sacrificed for a beautiful cancel or variety, generally Fine to Very Fine, ex Shaff. Shipping charges apply - weight 20.2 lbs. (photo on web site) Estimate \$8,000 - 12,000

There's also a box of complete booklets and individual panes, manila file folders of partial sheets, annual mint sets from USPS from 1971-79, and hundreds of FDCs from the 60's & 70's. Some higher denomination face, such as almost 400 copies of the \$1 Eugene O'Neill coil stamp and some higher in catalogue value too, from a sizeable offering of mint from the fourth bureau issue to complete plate blocks of the Presidential series. Nevertheless, difficult to ascertain how much face is actually here and for this reason, needs to be reviewed on-site, overall Fine to Very Fine. (photo on web site)..... Estimate \$2,000 - 2,500
- 186 Duplicates from a Superior Quality Collection, 1850's-1980's**, in 18 albums or stockbooks filled with the typical Flotsam one usually encounters in a balance lot, but this lot has some strong potential because as the collector filled in his high-quality stamps, he moved the duplicates over to these stockbooks leaving behind some really great singles if you have the patience to go through everything, although most of the value is in two stockbooks. In addition, the collector was working on the back of the book section, but did not get around to acquiring pages, so there are some lovely back of the book stamps which never made it into the main collection. Some better items we noticed as we browsed included - mint: 211, 230-40, 302, 304-7, 329, 337-39, 341, 400, 401, 433, 692-701, C1, E1, E3, E5, E7 (2), E8, E11-13, F1, Q1-11, PS11b, PS12b, PS15 (2), WS2, WS7b, WS8b (2), WS11 and used: 9, 78, 154 and 239. Condition and centering are mixed as usual, but occasionally, there are also plenty of great stamps scattered about, generally Fine to Very Fine. Shipping charges apply - weight 60 lbs. Face Value Lots

- 202 Massive Face Value Collection, 1950's-2021**, in 35 albums full of face value postage, 8 of these albums contain mint sheets and 27 of these albums contain singles, blocks with the occasional mint pane (some of these albums are of topical singles or USPS yearsets). When we add up the sheet section (which should be the densest concentration of value), we come to a **face value of over \$5,600**, much of which is made of forever rate panes. The remaining 27 albums should add up to another quite substantial figure making this easily worth our low estimate with the possibility of much more value, o.g., mostly never hinged, generally Fine to Very Fine. Shipping charges apply - weight 154 lbs. (photo on web site)..... Estimate \$7,500 - 10,000
- 203 Powerful Sheet Collection, 1930's-2013**, in 17 sheet file albums, containing over \$7,000 face value, without counting the airmail sheet album which adds substantial face value, some better sheets include: 704, 783, 785 (3), 787, 788, 791-92, 799, 802, 812, 836 (2), 854, 856 (2), 858, 903, C7-8, C9 separated, C17, C19, C24 (2) and C28, generally Fine to Very Fine. Shipping charges apply - weight 81 lbs. (photo on web site)..... Estimate \$6,000 - 8,000
- 204 Massive Face Value Hoard, 1960's-2020**, 20+ USPS year-sets from 1970's until 2020 and 20+ albums, stockbooks and sheet file folders filled with singles and mint sheets, plus four shoeboxes. Some albums and the shoeboxes contain groups of mint and used stamps, so a bit of effort is required to sort everything out. On the plus side, most of the value of the face value postage seems to be grouped among the 2000-2020 issues, so there will be many sheetlets and forever rate stamps which will quickly add up. In addition there is a book of Kennedy half dollars with 25 years from 1964 on. So, get ready with a trash can and some sorting trays to mine all of the value out of this lot, generally Fine to Very Fine. Shipping charges apply - weight 138 lbs. (photo on web site)..... Estimate \$4,000 - 6,000

- 206 Modern Face Value Collection, 1950's-2015**, neatly mounted in 8 Scott National albums, plus another 13 stock books / homemade albums filled with complete mint panes, coil strips, plate blocks and booklets. Starts off as a pretty typical postage lot, with face value singles and plate blocks starting with the 3c, contains complete Liberty set 1030-53. Face value really starts to pick up in the 1990's when you start to see full panes and complete booklets until you get to the earlier Forever issues. Plenty of face value to be found when you take the time to add up the many sheets and modern issues here, o.g., mostly never hinged, generally Fine to Very Fine. Shipping charges apply - weight 87 lbs. (photo on web site)..... Estimate \$2,500 - 3,500
- 207 "Face in the Photograph" Humongous Face Value Lot, 1950-2010**, A mountain of mint, partly sorted by denomination but for the most part a free-for-all. Full & partial sheets, plate blocks, booklets, coil strips and fistfuls of singles. Because there are only so many hours in the day, I counted up all the sheets which came to about \$1,600. But that only accounts for a quarter or less of the overall volume. What you see in the second photograph has not been counted; the majority seems to be in the 8¢-13¢ range, but countless more higher denominations too. Avoid losing face by bidding today! Fine to Very Fine. Shipping charges apply - weight 34 lbs. (photo on web site)..... Estimate \$2,500 - 3,500
- 208 Multiple Mint Collections in Albums & on Pages, 1870-2008**, Thirteen albums total, the majority hingeless in excellent condition, such as four volumes from SAFE (1938//2008), one from Lighthouse (1988-95), and four from Schaubek (1870-2002), which in addition to some premium **mint**, like #189, 308, 548-50, 557-58, 560, 569-72, 581-85, 591, 692-701, 723 (joint line pair), 803-34, 839-51 (joint line pairs) and a Legends of the West recalled sheet, these is also a bit of very worthwhile 19th century **used**, such as 156-60, 162-63, 165-66, 190-91, 218. Many 100's of White Aces pages filled with mint spanning 1938-2000 and eleven USPS annual mint sets still in their original envelopes. Guesstimation of face should be well over \$3,000, generally Fine to Very Fine. Shipping charges apply - weight 105 lbs. (photo on web site)..... Estimate \$2,000 - 3,000
- 209 Modern Issue Collection, 1935-2012**, carefully mounted into five blue Lighthouse hingeless albums with slip-cases, containing recalled Legends of the West pane in original blue folder, plus each stamp collected in singles, with occasional plate number strips of three for the coils and full panes of the modern sheetlet issues, collection starts to drop off shortly after the forever issues in late 2011 and contains a few 2012 issues, generally Fine to Very Fine. Shipping charges apply - weight 33 lbs. (photo on web site)..... Estimate \$2,000 - 3,000

- 210 “Face Lift” Big Number Face Value Lot, 1893-2016**, Wait a minute! A face value lot starting at 1893? No one said you have to use all of this as postage. Many better you might want to hold on to, like #328-30, 548-50, 616 (NH block), C18 and many more. But the bulk of this is pure face beginning with a stack of mint sheet folders that adds up to \$2,200 in face with approximately 550 Forever stamps. And that’s just the sheets. The big pile of blocks, booklets & singles you see in the picture hasn’t even been counted and judging from the amount of high denominations, there should be nearly as much in there if not more. Whatever the total is, it’s a big number! Fine to Very Fine. Shipping charges apply - weight 32 lbs. (photo on web site) Estimate \$2,000 - 3,000
- 211 Modern Face Value Accumulation, 1950’s-2021**, loosely organized group of face value duplicates, plus many items which were never integrated into the collection. Here, you will find, groups of stock books, mint sheet file folders, stock pages, bags of stamps, full mint sheets, group of USPS postal packs full of mint sheets sorted by year (from 2015-2021), plus many more unsorted USPS retail packs. This lot will need to be figured in several groups, as you find the typical mint sheets and plate blocks of the earlier issues, but then you also have large groups of full and coil rolls of modern issues, where a few stamps were removed from each roll for the collection, along with various complete sheetlets, and finally you have quite a bit of Forever rate face value stamps, among the large Ziplock bags sorted by year and filled with complete mint panes. There is substantial face value here, especially when you start to count six years of Forever rate postage sheets and many modern sheetlets, o.g., mostly never hinged, generally Fine to Very Fine. Shipping charges apply - weight 30 lbs. (photo on web site)..... Estimate \$2,000 - 3,000
- 212 “Hot Plate” 60 Years of Plate Blocks Organized in Glassines, 1932-92**, Many thousands of plate blocks arranged in catalogue order in glassines in a dozen boxes. Virtually all in multiples, but not mere duplicates; without a doubt, this collector had a Durland catalogue at hand and collected not only the varying plate numbers but positions as well. You will certainly find better items, such as #740-49, 756-65, 771, C31, E14, etc., but this lot will inevitably be looked at as a face value lot. How much face is certainly up in the air, but judging from the volume, it should be well over \$3,000 in face but probably much more, generally Fine to Very Fine. Shipping charges apply - weight 40 lbs. (photo on web site)..... Estimate \$2,000 - 2,500
- 213 “Get Your Sheets Together!” Mint Sheet Holding, 1916-81**, Mint sheet folders and binders with 100’s of full sheets, from a half-cent to the \$1 Airlift. The Famous Americans are complete, as are the Overrun Countries including two sheets of the “KORPA” plate flaw, a recalled Legends of the West mini-sheet, and a folder of various EFOs. Other better include #490, 552, 554 (4), 635-36, 704, 716, 740-42, 796 (2), 806-09, 814, 824, 827-28, C20-22, C23 (5), C26-29, CE2, FA1, J88, PS12, R733 (2), etc. And if you’re wondering about overall face value, it clocks in at about \$2,900 with some considerable catalogue value to boot, Fine to Very Fine, a flip of that EFO folder viewable online. Shipping charges apply - weight 25 lbs. (photo on web site) Estimate \$2,000 - 2,500
- 214 Forever and High Value Plate Blocks Selection, 2012-18**, with issues running between #4591 and 5338, including Priority Mail, Express Mail, and high value stamps; **total face is \$1835**, Fine to Very Fine. (photo on web site)..... Estimate \$1,500 - 1,800
- 215 Face with some Premium, 1939-2012**, in three boxes of glassines, filled with singles, sorted by issue, with occasional premium items, including some graded and better items including: 1030-59Ab (several with PSE graded 95-98 certificates), 1052-53 plate blocks with two 1053 singles, plus a few more 1960’s-early 70’s PSE graded airmails. By volume, the first box contains stamps to 1970, second box runs from 1970-1995 and the final box is from 1995-2012. We expect it to break down with the better items to be found in the first box and a respectable section of face value postage in the third box, prepare your calculator, o.g., most appears to be never hinged, generally Fine to Very Fine. Shipping charges apply - weight 26 lbs. (photo on web site) Estimate \$1,500 - 2,000
- 216 “Say No More” \$5 John Bassett Moore in 100 Plate Blocks, 1966**, This one’s very simple, 100 plate blocks of the \$5 stamp from the Prominent Americans issue adding up to \$2,000 in face. Need I say more? Very Fine. (photo on web site) Estimate \$1,200 - 1,500
- 217 “Face the Music” Face Value Lot with Over 2,000 Forevers, 1950s-2020**, Let’s face it, postal rates keep going up and up, but at least by stocking up with forever stamps, we can beat the hikes. Over 2,000 of them in this lot, mostly in the form of mini-sheets, and many other high denominations. As a matter of fact, just counting up everything over 13¢ came to well over \$2,000 in face and there’s plenty more in mint sheet folders, stockbooks and a box of plate blocks. The one who personally inspects this lot will undoubtedly be the winner! overall Very Fine. Shipping charges apply - weight 27 lbs. (photo on web site) Estimate \$1,200 - 1,600
- 218 Face Value Plate Block Accumulation 1940’s-1980’s**, in five large albums and stockbooks with the following premium items: 704-15, 893 as well as many additional items of moderate premium, plenty of face value to be found among the 1970’s-1980’s plate blocks, generally Fine to Very Fine. Shipping charges apply - weight 40 lbs. (photo on web site) Estimate \$1,000 - 1,500

- 219 Meticulous Plate Block Holding by Plate # & Position with High Face, 1948-74**, Three long files and a smaller box packed with glassines; at first glance, it seems like just a bunch of plate blocks, but each glassine contains a card listing the plate numbers assigned to that particular stamp and the four plate positions. It's uncertain if all the stamps from this date range are here, as the envelopes are not completely in numerical order, but after numerous spot checks, the contents seem complete. There should be at least \$2,000 in face here, but despite the high face value, it would be a shame to simply use this as postage given the tremendous amount of work undertaken to amass such a collection. But we'll leave that decision up to the winner of this lot! Fine to Very Fine. Shipping charges apply - weight 16.8 lbs. (photo on web site)..... Estimate \$1,000 - 1,500
- 220 Plate Block Face Value Accumulation with Better, 1908-1976**, mounted in three Scott National plate block albums, with the following premium plate blocks: 368, 370, 548, 611, 612, 614-15, 627, 648, 649-50, 698, 718-19, 740-49, 756-65, 785-94, 803-33, plus four additional 833 plate blocks and two arrow blocks, 1030-1053, C9, C11 and C12, generally Fine to Very Fine. Shipping charges apply - weight 25 lbs. (photo on web site)..... Estimate \$1,000 - 1,500
- 221 Face Value Lot with Some Better Items, 1923-2013**, On the face of it (pun intended!), this is a postage lot made up of mint sheets, a plate block collection in Minkus albums up to the 1970s, a mint singles collection up to 1994, and various annual mint sets and other binders. The majority is between 10¢-29¢ with many higher denominations too, like a dozen copies of the \$2 Inverted Jenny sheet and many Express mail stamps. But there are numerous items you would not want to use as postage, such as plate blocks of #610, 615, 617, 830-33, 832c, C18 and a recalled Legends of the West sheet. Quickly flipping through without a calculator, a guesstimation of at least \$1,500 in face seems very realistic. You are more than welcome to visit and tally it up yourself. You can even borrow my calculator! generally Fine to Very Fine. Shipping charges apply - weight 62 lbs. (photo on web site)..... Estimate \$1,000 - 1,500
- 222 "Face It Yourself" Blocks & Sheets Face Value Lot, 1923-2001**, Mint sheet folders, a White Ace collection of blocks & booklet panes, and Scott pages from 1999-2001, all with a whole lotta mint. Consignor gives total of face at \$1,850, Fine to Very Fine. Shipping charges apply - weight 31 lbs. (photo on web site)..... Estimate \$1,000 - 1,500
- 223 "Time to Face the Music" Postage Lot**, with most values in the 13¢ to 33¢ range; most full sheets, though numerous plate blocks and strips of 20 present, along with Bicentennial souvenir sheets; some issues well-duplicated, others lighter, but counting just the souvenir sheets and full sheets (not the smaller blocks or strips) comes to \$1515 face value; a useful lot to let you keep up with the ever-changing first-class rate, Very Fine. Shipping charges apply - weight 8.4 lbs. (photo on web site)..... Estimate \$800 - 1,200

Slavery/Black History

The company, founded in 1814 by Dickinson and Joel Shrewsbury along the banks of the Kanawha River, was a large user of slave labor in their salt works and mines, often rented from local slave owners. In December 1865, William Dickinson initiated dissolution proceedings against Joel Shrewsbury. At the time, the company owned four salt furnaces and 59 parcels of land in Kanawha County and Virginia, Tennessee, and Kentucky, and the company claimed ownership of 130 enslaved laborers. In the fall of 2019, a group of over 2,000 documents (some of which are slave-related, others business-related) were sold for \$140,000 hammer (<https://catalogue.swanngalleries.com/Lots/LotDetails?salename=%28SLAVERY-AND-ABOLITION.%29-Records-of-the-Dickinson-%26-Shre-2517%2B%2B%2B%2B%2B204%2B-%2B%2B759975&saleno=2517&lotNo=204&refNo=759975>). The lot description reads in part, "The connections between the renowned educator Booker T. Washington and the salt works of Kanawha Salines were numerous and deep. He was born circa 1856 in Hale's Ford, Franklin County, VA, in the eastern foothills of the Blue Ridge Mountains, close to Bedford County where Dickinson and Shrewsbury had first joined forces. His mother Jane was enslaved; the name of his white father was not known, but was thought to be likely his owner James Burroughs (1794-1861) or a member of Josiah Ferguson's family on a neighboring plantation Booker's stepfather Washington "Wash" Ferguson, owned by T.C. Ferguson, had apparently been hired out to work at Kanawha at least intermittently from 1844 onward, returning long enough to marry Booker's mother Jane in the early 1860s. A few months after the war ended, Wash summoned Jane, Booker and the rest of the family to join him in West Virginia. 9-year-old Booker was set to work packing barrels of salt. His stepfather only grudgingly allowed him to attend school between shifts at the salt works, working a schedule of 4 to 9 each morning and then returning for two hours after school. Circa 1867, Booker was able to leave the salt works for life as a household servant with Lewis Ruffner, one of the area's rival salt moguls (and a son-in-law of Joel Shrewsbury). See Harlan, "Booker T. Washington's West Virginia Boyhood," in *West Virginia History* 32:2 (January 1971), pages 63-85", Fine to Very Fine, see the entire group online. The intriguing part though, is that many of these are signed. Philippines

- 694 Philippines, 1898 2m orange brown, an incredible complete bundle of 500 sheets (Scott 193),** of 100 stamps each with serial numbers 0006001 to 006500 at top right with original Spanish post office printed label affixed and bundled by original string which has worn through the labels on both sides and the cardboard covers at the edges, the stamps are basically stuck together and are in fine condition but it doesn't matter because this is the only complete bundle of any Spanish Philippines stamp extant, it is stunning that this museum worthy artifact has survived intact for 125 years, Very Fine, According to an article by Don Peterson and Richard Miggins that appeared in the Third Quarter 2016 Philippine Philatelic Journal, the bundle was shipped from the National Stamp Factory in Madrid to Manila in late 1897 and sales began on January 1, 1898. They wrote, "According to Bartels et al. (1904), 700,000 of these stamps were printed and shipped to Manila (meaning) a total of 14 separate bundles the number "13" was written at the top of this bundle. Also, the 2m was issued to pay the newspaper rate to Spain and its colonies, and since the use of Spanish stamps in the Philippines was abruptly ended in June 1898, there surely were many leftovers of this issue in the post office where, presumably the stamps remained in their bundles waiting for use. (photo on web site) Estimate \$1,500 - 2,000

Russia

- 699 Russia, "Revolutionary" Highly Specialized Mostly Mint Collection, 1857-1968,** Three Scott Specialty albums which go way beyond the Scott catalogue; the collector made numerous notations in pencil referencing both the Zverev & Zagorsky catalogues, and in many instances, the stamp in question wasn't listed in either, such as a signed Scott #28 used (missing center (rose color)) or an imperf pair with double impression of 107a with accompanying certificate). In addition to the usual color & paper varieties, you'll encounter countless **errors**, such as misplaced frames, double strikes, pairs imperf between and inverted overprints, a few **specimens** and some **unissued** stamps, like the 40k Voroshilovgrad Diesel Locomotive Plant design of 1958. Numerous forgeries have also been identified by the collector and notated as such. There's also scores of **locals** and **private overprints**, which even for the specialist may very well be uncharted territory. - 779 **Middle East, "Masha'Allah" Errors and Other Mint & Used Rarities with Covers, 1889-1992**, Quite often, things do not go as planned. Perhaps an overprint is just shifted, as we have here for **Iraq** #RA7//12, or worse, inverted overprints on pairs of **Syria** 86b & 87a, or even worse, double inverted overprints on **Jordan** N18-22. Errors abound in this lot from missing colors, such as a **State of Oman** 1968 sheetlet for the Mexico Olympics with color blue omitted, or double impressions, like three denominations of **Qatar's** 1965 UNESCO series in sheetlets of twelve. There are specimen overprints on **Yemen** 7-23 and many Scott-unlisted varieties, for example, imperforate sets of **Syria** 378-86 & CB1-4, and **Yemen** souvenir sheets in Memorial of Dag Hammarskjöld with both black & red overprints (MiNr. Block 1a+b), progressive color proofs of **Dubai's** first issue, even a genuine inverted center of **Persia** 565a (unpriced in Scott) along with unauthorized reprints of other denominations with inverted centers including the 9r in sheetlet format. Some darn interesting covers too, like a registered cover of Bangladesh with twelve postally-used copies (six on front & six on back) of the Palestine Freedom Fighters stamp withdrawn from sale on the day of issue, Oct. 3, 1992, as well as unused stamps in blocks of four and six, and two **Saudi Arabia** covers with booklet panes from the Holy Ka'aba issue (961a & 968a) cancelled on the day of issue in Riyadh, very rare to begin with let alone used (unpriced in Scott) due to vending machine breakdowns. Absolutely irresistible lot with tons more to be researched, generally Fine to Very Fine, viewable in its entirety online. Shipping charges apply - weight 4 lbs. (photo on web site) Estimate \$2,000 - 3,000

General Collections

- 829 Worldwide, Formidable Scott Blue International Collection, 1840’s-1973,** with the main collection in 13 albums, each stamp carefully hinged to page, plus duplicates in an additional album plus two stock books. The main collection containing 128,000+ different stamps and includes inventory list available on our website. Far better overall collection than typically encountered. Overall, a very decent level of completion and a very diverse range of country collecting focus, so you will see nice sections of early PRC or Japan along with decent sections of Africa as well as Eastern Europe. Each page has the stamps carefully counted and cataloged, but unfortunately, we did not see a master inventory list to give you the grand totals. Each page seems to have Scott values of between around \$10-\$100 with several pages much higher. A real powerhouse of the collection is on the U.S. pages with the following better used: 1-2, 9, 68-69, 72, 76-78b 112-18, 208, 149, 153, 160, 190, 217, 229, 239, 240 no gum, 291, 311, 658-79 mint, C1-6, C18 mint and Q1-12. It doesn’t take much imagination to see this collection getting well into the six figures quite easily. A great collection to expand upon or to break down into smaller country collections, generally Fine to Very Fine. 2019 Scott \$350,000 ++ (Owner’s). (photo on web site)..... Estimate \$20,000 - 30,000
- 830 Worldwide, “High Volume” Massive Mint & Used Collection in Minkus Globals, 1844-2008,** Here’s an easy way to assess an international stamp album collection before even opening a volume. If they look worn and fanned out, or better yet, a broken spine held together by duct tape, you know they will be packed with stamps. This set has many of these characteristics, but it’s not just the quantity but also the quality. 29 volumes of the Minkus Globals with a mix of mint & used both hinged and in mounts, there are no glaring weaknesses, as the entire world is well covered. Way better classics on average and modern mint runs on many countries. In short, it’s not often we see collections such as this with such a high level of comprehensiveness. If you’re still not convinced, just have a look at some of the scans and video flips online, overall Fine to Very Fine. Shipping charges apply - weight 300 lbs. (photo on web site)..... Nine in total, the oldest is a “Common Sense” album (yes, that was the actual title) from Scott in 1872. Some of the best stamps are in this one, from auspicious **Austria & Australian States** to brazen **Brazil** and captivating **Cape of Good Hope**. Also from Scott are a few Internationals up to 1912, the earliest being a third edition from 1877. Equally intriguing is a set of Borek albums which I had never seen before; published sometime during the 1930s, these four albums do not cover German areas as one would expect, but the colonies of **Belgium, Denmark, Great Britain, Netherlands, Portugal and Spain**. Some better individual items include used **Austria** #1, **Brazil** 28, **Cape of Good Hope** 3-4, 6, **Great Britain** 1, **Nova Scotia** 1-2, and many more. Some mixed condition to be expected, but on the whole Fine to Very Fine, many additional images online. Shipping charges apply - weight 51 lbs. (photo on web site)..... Estimate \$1,200 - 1,800

- 913 Worldwide, "Alphabet Soup" Mostly Mint Collection from A to Z, 1930s**, Normally, these types of collections with a small sampling of stamps from every country and alphabetized from A to Z are dull and contain only minimal value stuff. Accumulations & Assortments

- 921 Worldwide, Massive Collector Accumulation of Better Mint Singles & Sets, 1850's-1990's**. If you enjoy working with stamps whether you are a dealer or collector, please take the time to view this lot in person or the many dozens of scans available online. It is certainly one of the most interesting, worldwide in scope, lots that we have had the pleasure to offer. It was formed by a clearly passionate collector with very deep pockets who loved mint stamps in superior quality. It is housed in five cartons which are packed with 20 long red boxes with #102 size cards with singles and sets, Album pages, Original intact Auction lots, 2 flat boxes also overflowing, retail purchases on cards and much more. The scans will give you an idea of the outstanding material present and the significant amount of stamps and sets valued from \$100. to over \$1000. each that are in abundance. Unlike dealer stocks that are often loaded with Hawaii-value off-quality 19th century this collector formed holding contains literally only a handful of stamps with any faults out of many many thousands. The criterion was to buy N.H. or original gum sets and singles in F-V.F. or better quality. Also, it is readily noticed that many of the better items also include a plethora of varieties. Sections include very strong British Empire with Barbados, British Guiana, Ceylon, St. Helena, Kuwait, India and States and more. In most countries present you will find 20th century runs of mint N.H. with strong Q.E. II sets up to the 1990's plus, of course, better quality earlier key sets and singles. France and French Colonies are well represented with Algeria including a nice collection of Parcel Post issues, Martinique, New Hebrides (French), Tunisia, Reunion, Cilicia, France with specialized booklets and also strong Parcel Post issues. Included are Portugal and Colonies with worthwhile Azores, Angola, Macao plus others, Excellent Nepal, Section of imperf sets of Laos and Cambodia. Vietnam Democratic Republic has a box of mint sets and virtually all perf and imperf versions of several hundred sets plus another Vietnam group of mixed mint with some used. We note a box of only Swedish mint complete booklets, Spanish Colonies including better Provisional issues, key sets of Greece on pages, Great Latvia and Estonia, Spanish Morocco, Iraq, Palestine, Shanghai, Germany, Switzerland and too much more to mention. Shipping charges apply - weight 83 lbs. The collector reused many 102 cards, so on a few cards we indicated current Scott numbers often written next to an old Scott value at a fraction of the current Scott value. The Scott values on the non-reused cards are often 30 to 40 years old and again often very modest compared to 2023 values. A perfect collection for online retail, auction sales or a fun project to assimilate into your collection. A huge Scott value and retail will be relatively easy to unlock as almost all is identified by Scott numbers. Don't miss this one. (photo on web site) Estimate \$25,000 - 35,000

- 922 Worldwide, Massive Collector Accumulation of Mint Sets, Singles, Souvenir Sheets, Booklets and Coils, Primarily 20th Century.** An extraordinary collection of many thousands of mint Sets, Singles, Souvenir Sheets and Booklets all primarily 20th century, all mounted on retail sheets as purchased as well as auction lot pages and also in glassines with Scott numbers identifying each item and values up to \$1000. each. The Windsor collector formed this holding with minor duplication and over 100 countries with significant 20th century runs from earlier material through the 1990's. A very significant quantity of sets and singles valued over \$100. each and only a portion are scanned so viewing is a worthwhile pleasure to fully appreciate the depth of this lot. All is housed in eight packed banker boxes. The holding is too large to list all of the highlights but to give you an idea of one country, Iran, here is a partial listing by Scott numbers: 3a margin copy \$225., 59 \$150., 136-1511 \$787., 169a \$175., 422-427 \$345., 543-549 \$920., 621 \$250., 786-794 \$118., 870A to 870E perf + imperf sheets \$528., 978-982 \$157., 1023-1026 \$492., 1372-1387 \$94., C65 \$225., C29-C33 \$265., 041-057 \$142., Certainly, Iran is one of the better countries but there are numerous others. Shipping charges apply - weight 141 lbs. including Fiume, French Colonies, Greece, France, Panama. Belgium, Yemen, Morocco, North Vietnam, Bhutan plus too many more to mention. We note excellent South America with many varieties and mainly purchased from a knowledgeable specialist dealer, Good European sections often with complete Booklets. Trucial States with good earlier issues, British Empire with some early material and a huge amount of new issues from early QEII up to the 1990's. The overall face value alone is many many thousands of dollars in this massive collection. This lot is so large that we did not have time to scan all the better items. The collector reused many sales pages so that the Scott value is often too low or 30 years out of date and many additional highlights will be discovered that eluded us. A perfect lot for online sales or to augment your Worldwide Collection. Condition is exceptional with very few faults and most all is in Fine to Very Fine or better, o.g. or N.H. quality. (photo on web site) Estimate \$20,000 - 30,000
