Garry Hart was born on June 18, 1944, in Los Angeles, California. Garry received his bachelor's degree from the University of California, Riverside, master's degree from the University of Oregon and a doctorate degree in mathematics from Kansas State University. He began his career in education at California State University, Dominguez Hills where he served as a mathematics professor until retiring in 2007 as the Dean of the College of Arts & Humanities.

Brian Barton

The Thomas F. Barton Stamp Collection is an impressive and extensive collection of stamps from over 200 countries, territories, colonies, and protectorates. It was started by the late Thomas F. Barton or “Tom” as he was known by his friends, when he was just seven years old in Southern Illinois. He started to develop his international stamps while living in Thailand and Great Britain. Tom was a member of the American Philatelic Society for many years.

Tom was a social worker by profession. He was educated at Indiana University in Bloomington, Indiana, and Columbia University in New York City. He last worked at Bellevue Hospital in the City, the oldest hospital in the U.S., in its Opiate Treatment Program, where he helped people try to overcome their severe addictions. He was also active in the Civil Rights movement, veteran groups, and various worker rights organizations.

His hobbies included collecting stamps, coins, folk music, and African Art. He was a voracious reader of history, politics, and economics. Tom had an astonishing ability to provide a little-known historical context to a modern subject that helped explain why things are today.

Tom’s father, Thomas F. Barton Sr., was a professor and department chair of Geography at Indiana University, the long-time editor of the Journal of Geography, and President of the National Council for Geographic Education. Tom’s interest in stamps was partly attributed to his father’s influence. He was fascinated by world cultures, politics, and geography, and his stamp collection often covered a country’s historical arc. Philatelists know that collecting stamps is a great way to learn about the past. Tom believed that owning a collectible stamp was like possessing a small piece of history.

Howard Michael Bricker

Howard was born on February 17, 1943, in New York to Nettie (Colbert) Bricker and Louis Bricker. Howard had a long, rewarding career with New York Telephone Company, starting as a cable splicer, and moving up to management prior to retirement. He then moved to Cobleskill to start his own business-PLASH Tools and Surplus. In his younger days, he enjoyed playing racquetball, and softball and coached his daughters’ softball teams to victory. His children have fond memories of playing softball in their yards in Mohegan Lake and Sharon Springs, N.Y.. For many years he was an auxiliary police officer in Yorktown Heights. He enjoyed all things Mickey Mouse, collecting stamps, going to auctions, watching TV westerns, and all things related to his business. He was an avid and knowledgeable collector, ahead of his time reusing and recycling all kinds of tools and machines. Howard’s most important achievement was caring for and supporting his wife, children, and their families.

Carter Gilbert

Carter’s lifelong passion for stamp collecting began at the age of five when a church minister awarded him a postage stamp for good behavior. This hobby endured throughout his life, culminating in a collection spanning over nine decades. Notably, he was a founding member of the University Stamp Club in Gainesville, Florida. Alongside his academic pursuits as a retired professor of ichthyology and former Curator of Fishes at the Natural History Museum at the University of Florida, Carter’s collection boasted stamps from diverse corners of the globe, with a focus on US and British Colonials.

Lloyd Brown

Lloyd J. Brown was born July 28, 1942, in Riverside, CA. Along with California, he spent some of his childhood in Huntsville, AL. In his adolescence, he lived in Central and Latin America graduating in 1960 from Balboa High School in the Canal Zone, Panama. He graduated from the University of California, at Davis, with a PhD in Mathematics in 1967.

It was during his adolescence that Lloyd became fluent in Spanish and with his father started his stamp and coin collections, developing an affinity for Central and Latin America countries as his father would travel to various Latin American countries for his profession.

While attending UC Davis, he met and married Wendy Bunting. They were married for over 58 years and raised two children. Lloyd worked as a statistician, for Shell Agricultural Chemicals, in Houston, Texas, and Modesto, California for 17 years and in 1986 transferred to Dupont, in Hockessin, Delaware. After retiring, he followed Wendy to Mt Vernon, WA where he consulted for a few more years while being an active community volunteer.

Lloyd was an avid hiker and climber for his entire adult life and is one of only a few people to have climbed all 240+ registered peaks in the Sierra Nevada. He continued to hike in Washington, participating in Alpine search and rescue for the Skagit Valley area, and logging over 6000 miles with the Skagit Audubon Hiking Club.

He continued his collections through all these years, but was very active during his years in Modesto, CA. As a mathematician and statistician, he was a technical, methodical collector. In the late 1980s, Lloyd stopped collecting stamps and focused on his community volunteer work.

Lloyd served on the Skagit County Parks and Recreation Advisory Board for 20 years and was a member of the Sedro-Woolley Lions Club for over three decades, serving as the treasurer for 15 years. Lloyd was also active for 7 years as a Volunteer Firefighter and treasurer at the Big Lake Fire Department in Washington.

David Edwin Tanner

David Edwin Tanner was born on December 7th, 1946, in Paia, Maui, in the Territory of Hawaii. His parents had moved to Hawaii from Japan in 1940. His father, Elmo Tanner, was a traveling school principal, and was stationed on Maui at the time of David's birth. David and his brother and sister spent an idyllic and carefree childhood in 1950s rural Hawaii on the islands of Maui, Molokai and Lanai. In the early 1960s, his father Elmo got his final principal posting, and the family made the move to settle for good in Hauula, on the island of Oahu.

After high school, David attended Church College of Hawaii (now Brigham Young University Hawaii) and majored in mathematics. He then attended the University of Indiana Bloomington and received his Master's degree in mathematics.

David got his interest in stamp and coin collecting from his father, Elmo. His father began collecting US stamps and coins when he moved to Hawaii. David started collecting alongside his father in high school. At first he collected US stamps and coins like his father, but he soon found a personal passion for the stamps and currency of Mexico, which would remain the focus of his collecting for the rest of his life. Over many decades he constructed and curated a personal collection of Mexican stamps and currency that was the pride of his work as a collector.

In addition to his love of mathematics, and his passion for stamp, coin and currency collecting, David developed a deep interest in history, engineering and model making. He was an expert model railroad builder. He created elaborate model railroad tracks and landscapes with historical accuracy. David was also a WWII history buff. He focused his model making skills on creating accurate models of WWII tanks and aircraft.

David taught math at Kahuku High School on the north shore of Oahu in the late 1970s. During this time, David purchased one of the first personal computers, and taught himself programming. In the early 1980s, David left teaching to pursue a career as a software engineer. Over the course of his career, he worked at Electronic Data Systems Corporation, Saturn Automobile Manufacturing, and Twixtel Corporation. In 1990, he began working as a Software Engineer with the Information Systems and Technology department at MIT.

In 2005, on a trip to Beijing, China, David met his future wife, Jinmei Wang. Together they toured the Great Wall and the Forbidden City, and took in a Chinese acrobat show. They married that same year in Chongqing, and built their lives together in Ashland, MA. In their nearly 19 years of marriage, his wife Jinmei describes David as a kind man who valued family happiness. She says that his hobbies and knowledge filled their lives with meaningful and colorful surprises.

David worked at MIT until his retirement. He spent his retirement years continuing to refine his stamp, coin and currency collection, watching WWII documentaries, and having breakfasts at the Sunnyside Café with his close friend and fellow MIT-retiree, Henry Bergler. David passed away on November 17, 2023, at the age of 76.

Arthur L. Cox

Arthur L. Cox ("Art") was born Arthur L. Willits in Detroit Michigan on October 16, 1932 to Glenn and Hilda Willits. Art was the second child of three with two sisters. Due to the Great Depression, and poor health suffered by their father, the three Willits children had to be split up and adopted by Aunts and Uncles who were better financially able to raise young children during the Depression. Art was adopted at age 5 by his Aunt Helen and her husband Steven G. Cox, an established Patent Attorney.

Art then grew up in Westfield, NJ and excelled in academics and sports during his childhood. He secured a degree in Electrical Engineering from Lafayette College and then attended the Wharton School of Business of the University of Pennsylvania. During his college years Art was a member of the United States Army Reserve Officers Training Corps, advancing to the rank of First Lieutenant. Upon graduation, Art secured a position with RCA Corporation in Moorestown, NJ where he met Patricia Burns, his wife of 67 years. Art and Pat then first settled in Levittown, NJ and started a family, having three children, a girl and two boys. The Cox family then moved to Weston MA, for 10 years and then back home to NJ where Art and Pat have resided in Basking Ridge for the past 50 years. Art's professional career included executive sales and marketing positions with Electronics manufacturers that serviced the US Government and various Defense Contractors. Art's career in Sales allowed him to travel the world throughout the 1970's and 1980s, often including Pat on the trips.

Art's biological father, Glenn Willits, became an avid stamp collector in 1926 at the age of 22. He had suffered an illness requiring long term care at a facility in Billings Montana and took up stamp collecting to while the time away. Over the next four years Glenn assembled a nice collection of US Stamps, and then in 1930 with the issuance of First Day Covers, Glenn became obsessed with Covers because of the historical attachment between the stamp being issued and the event that the Cover commemorated. Glenn placed his efforts into Covers and amassed a collection of 10,000 pieces over the next 20 years. Glenn's love for Stamp Collecting inspired him to get several young boys and men in the Billings MO. area interested in the hobby.

Dr. Peter P. Dukes

Dr. Peter P. Dukes was born in 1930 in Vienna, Austria. As a child he attended school in Austria and Hungary, and later attended the University of Graz. In 1953 he emigrated to Canada with his family, and then to Chicago, Illinois where he earned his PhD in Biochemistry from the University of Chicago. Peter met and married the love of his life, Lois, had two children, and moved the family to L.A. where Peter began a long career with The University of Southern California/Children's Hospital Los Angeles. He achieved tenure as a professor at the USC School of Medicine, worked as a hematology/oncology researcher at Children's Hospital, and eventually became the hospital's Director of Research.

Peter was fluent in English, German, and Hungarian, studied Latin in school, and taught himself some French and Russian. He loved many types of world music and classical music, enjoying a spectrum from Wagner opera to Klezmer to Zydeco. In the years following his wife's death, Peter took up the sport of Dressage, having ridden horses as a child. He owned a series of dressage horses, and competed in local shows, earning many ribbons and riding multiple times a week well into his 70s.

Peter was introduced to stamp collecting at a young age, but it was not until his retirement he devoted himself intently to the pursuit and began buying box lots at international auctions. From 1998 to 2020 Peter regularly bought collections several times a year, integrating them into his increasingly impressive accumulation. He leveraged and deepened his impressive knowledge of world history as his collection grew in scope beyond his initial interest in European classics, eventually becoming broadly worldwide. After his retirement from a career in biochemistry, Peter found a passion for particle physics and cosmology. He kept up with this rapidly changing field by consuming the latest books and lectures by the world's leading theoretical physicists. He truly enjoyed exploring the boundaries of humankind's understanding of the universe.

Thomas Klingensmith

Thomas Klingensmith (Tom) was born on July 31, 1933, in Canton, Ohio. Tom was the middle child of three kids. Tom was a 1952 graduate of Principia High School in St. Louis, Missouri. He then enlisted in the Army National Guard of Ohio, and later received a Bachelor's Degree in Architecture from Kent State University in 1961.

Tom was married to Caroline for 48 years from 1964 until her passing in 2012. They are survived by their only son, Scott, daughter in law, Cynthia, and two grandchildren, Anna and Atalie. Tom spent every summer at Chautauqua Lake, New York, enjoying time with family, boating, playing golf and taking in the evening concerts at the open amphitheater on the Chautauqua grounds.

Tom went on to have a successful career for 52 years as an architect in Canton, Ohio. Tom had fond memories of buying coins and stamps on special trips with his father, who used to travel extensively for business. At one time, Tom had a nationally recognized Lincoln penny collection before selling it 20 years ago to expand his stamp collections. Tom was always meticulous at getting his stamps categorized and mounted once they arrived in the mail.

Sadly, Tom passed at the age of 89 in September, 2023. He will be greatly missed, but would be happy to know other stamp collectors will enjoy his stamps for years to come.

Jim Wentzell

Jim Wentzell was passionate about stamp collecting at the young age of 12.

Born In New Jersey, Jim moved to Germany at a very young age as his Father was in the Army. It was in Germany where he discovered the wonderful world of stamp collecting from his uncle Jorge who was also a collector.

Jims Mother was born In Berlin. Jim was able to learn to speak fluent German and French while living in Europe. He was fascinated with history and the world. Stamp collecting made him feel connected to all the countries that he wanted to learn about and eventually visit. And he visited many!

He was very passionate about traveling to various stamp shows in Europe and was recently at one this past October. His suitcase would be packed with German chocolate (his other passion) and great stamp "jewels" that he purchased from the shows or private stamp stores that he frequented.

Jim was a collector for over 50 years. His "day job" was the owner with his wife Marcia, of a dog daycare and training facility for over 18 years. His dream was to eventually open a stamp store or become a stamp dealer after he would retire from the dog daycare business.

He also loved to read about all things relating to Germany due to his mothers life during the War. He was interested in German coins and anything relating to Nazi warfare.

Jims collection of covers and post cards is huge with many other interesting items in his vast collection.

Jim was the past President of the Cobb County Stamp Club in Marietta, Georgia and the auctioneer! He loved that responsibility and his stamp friends loved Jim doing it! Jims outgoing personality and generosity brought people together.

Gary A. Kosvic

Gary was born and raised in Elizabeth, NJ and lived in New London, CT for most of his life. After graduating from NJIT, he began working at Electric Boat (now General Dynamics), as an engineer, with a large portion of his career focused on the Seawolf class nuclear submarines.

Gary's was also keenly interested in his family's Croatian heritage and began devoting a significant focus on stamps from Croatia and the Balkans. His eclectic collection also included stamps from the postal history of the occupation of these countries during WW2, which were some of his personal favorites in his collection.

Throughout the years, he kept expanding his taste, amassing a large collection of stamps from the country of Bhutan, which he also loved, as well as finding rare worldwide stamps of submarines, which he had spent his professional career designing.

Gary had a keen mind and was able to remember each stamp purchase and loved telling stories about all the unique and interesting stamps he had amassed for his collection. Over the years he collected, he became friends with many of the dealers he worked with and loved corresponding with other philatelists worldwide.

General Works on Philately

- 2919 **Fournier "Album de Fac-Similés" Forgery Collection**, Published in 1928 by *L'Union Philatélique de Genève* with foreword in French, Italian, German & English by renowned philatelists Fernand Serrane, Emilio Diena, Heinrich Köhler and Fred Melville, a complete collection from one of the masters of philatelic forgeries, François Fournier. For those unfamiliar with this little piece of history, it was the *Union Philatélique de Genève* who purchased Fournier's stock after the death of Charles Hirschburger, an employee of Fournier who unsuccessfully tried to further the business. Students from the Geneva School of Arts & Crafts were employed to create 480 albums to showcase Fournier's work, and it is now rare to find a complete collection intact, as more often than not, the pages were eventually broken up and distributed by country. This is #471, and not only is it an indispensable reference work, but also an eye-popping collection to be savored in its own right, viewable in its entirety online. Before Kelleher will send such lots, payment in full must be received by Kelleher within three (3) business days of receipt of the aforesaid notification by the mail bidder. However, a purchaser known to Kelleher at its option may have purchases delivered or forwarded for immediate payment (by a dollar draft, ACH or wire transfer from a U.S. bank in the case of overseas purchasers). Mailed delivery will be to the address on the bid sheet and proof by Kelleher of receipt of a sending at the advised address shall constitute delivery. This includes disputes for payments made via PayPal and/or credit card. Buyer acknowledges that he/she waives their right to file a dispute in such cases with PayPal or their Credit Card Company. All charges for handling, delivery and insurance obtained by Kelleher on behalf of the purchaser shall be added to the purchase price; a minimum charge of \$20.00 will be made for same.
5. Title shall not pass to the purchaser until full payment has been received by Kelleher as agents for the consignor or vendor.
6. (a) Purchasers agree to pay for lots as specified in Condition of Sale 4 (or as the same may be modified by Condition of Sale 8), and no credit is extended; a late payment charge of 2% per month or fraction thereof shall be added if payment is not made in accordance with the aforesaid conditions. (b) In the event that a bidder shall fail to comply with these Conditions of Sale ("Non-Complying Bidder"), then, as to any lot with respect to which such failure to comply occurs, Kelleher, may, in its sole discretion, re-offer such lot during the same auction or at an auction at a later time, or by private treaty sale at such time as Kelleher Auctions, in its sole discretion, deems appropriate and the Non-Complying Bidder shall be liable for the deficiency, if any, between the hammer price and the net proceeds of a sale to a subsequent purchaser, whether at auction or by private treaty, as well as for all costs and expenses of both sales, including all other charges due thereunder, including commissions with respect to both sales, whether payable to Kelleher or to a third party and all incidental damages. It shall be in Kelleher's sole discretion to determine whether to re-offer the lot theretofore hammered-down to a Non-Complying Bidder at the same auction, or by private treaty in due course, or at a subsequent auction conducted by Kelleher. In no event shall any surplus arising from the sale of a re-offered lot be payable to a Non-Complying Bidder. (c) A defaulting purchaser shall be deemed to have granted Kelleher a security interest in property in Kelleher's possession owned by such purchaser. Kelleher shall have all of the rights afforded a purchase money secured party under the Connecticut Uniform Commercial Code (UCC) with respect to such property and may apply against such obligations all monies held or received by it for the account of, or due from Kelleher to such purchaser. Kelleher is authorized to file a Financing Statement in order to perfect its rights as a secured party. (d) If Kelleher takes any legal steps to secure payment of a delinquent account, the defaulting purchaser shall be liable for all legal and other expenses incurred by Kelleher to secure such payment, including but not limited to a reasonable allowance for attorneys' fees. For purposes of this paragraph, the term legal steps shall be deemed to include any and all consultation by Kelleher with its attorneys with respect to all matters arising out of a delinquent account. (e) Unless otherwise acceptable to Kelleher, payment is to be made only in the form of cash, bank check or certified check, personal check (which must clear prior to delivery of lots), credit card (AMEX, Visa, MasterCard and Discover), PayPal or a bank ACH or wire transfer. Payments made by credit card are accepted as a courtesy without surcharge.

- (b) Each lot is sold as genuine and correctly described, based on individual description as modified by any specific notations in this Catalogue or as announced at the time of sale.
- (c) Quality. Any lot which a purchaser considers to be incorrectly described and was not examined by the bidder or his agent prior to the sale, may be returned to Kelleher within two weeks of its receipt by such purchaser ("Returning Purchaser"), provided, however, that the same is received by Kelleher within four weeks of the date of the auction and in its original packaging; however, Kelleher may, in its discretion, refuse acceptance of such returned lot. If an opinion of a mutually acceptable authority is desired (Extension), the period of time within which a lot must be received by Kelleher will be extended in accordance with Condition of Sale 7(g). In the event that a dispute cannot be resolved by reference to a mutually acceptable authority, and Kelleher thereupon undertakes to re-offer the lot with a description identical to the description disputed, the Returning Purchaser shall be liable for the deficiency, if any, between the proceeds of the sale to the Returning Purchaser and the proceeds of a sale to a subsequent purchaser, as well as for all costs and expenses of the re-sale, including commission, and all incidental damages. Any lot, the description of which is disputed, must be returned intact and in the original packaging and in the condition received (unaltered) by the purchaser. The following lots are not returnable except at the discretion of Kelleher: (i) lots from purchasers who attended the exhibition of the lots; (ii) lots examined by postal viewers; (iii) lots on account of their appearance, if they are illustrated in this Catalogue or online; (iv) lots described as having repairs, defects or faults for any reason. (e) Expenses incurred by a purchaser in the submission and the return of a lot under Conditions of Sale 7 is not subject to refund. (f) Numerical grading is subjective and is based upon the condition of each issue. Lots may not be returned if a third party grades a stamp at lower than our grade.
