Kenneth C. Wukasch

Kenneth C. Wukasch is a third generation Austinite who has collected Austin postcards for almost 40 years. He graduated from Stephen F. Austin High School and from Southwest Texas State University with a degree in History and Political Science. He earned his master's degree in education from the University of Houston.

Wukasch is married, has two sons, six grandchildren and two great grandchildren. He and his wife Janice live in Cedar Park, Texas.

David Brender

David was born in Farmington Illinois in 1946. He was an only child, I always thought that's how he got started collecting stamps. It was something he could do alone. He started collecting when he was 12, specializing in China. When we would go to stamp shows 35 years ago, and the Dealers who didn't know David, would ask what he could show David. When the reply was China, the Dealer always looked puzzled and would say, you don't look like our usual Asian collector. Why China? Dave would reply, because it's difficult, no one else collects it, and it's a challenge. Often times David would help the Dealers he knew identify Asian stamps. They knew he was knowledgeable, and was always willing to help them. They considered him an expert.

He was always proud of the fact he served in the Vietnam war. He received an accommodation for his work as body guard for the General. This General liked to be in the front lines, not in the rear watching.

David was an Electronics Engineer for IBM working 30 years, before retiring.

He was also an excellent pool player. We went to the International Pool Tournament in Las Vegas several years in a row. His team did very well in the tournament, and it was always an interesting adventure.

That's a brief history of the man who was in my life 38 years, passing away in 2017.

From matchandmedicine.com — “George Carter was born in 1864 and made his residence in New York City since 1887. He was a printer by trade and was the founder of the N. Y. Printer’s Supply Salesman’s Guild. As a printer he must have been attracted by the beauty of US revenue stamps and he began to trade in them. For a period he published Carter’s Messenger – “Issued occasionally- In the Interest of Stamp Collecting in General & Revenues, Match and Medicine Stamps in Particular” as he proclaimed in the masthead. Naturally he needed an album to house the M&Ms he was selling; thus the “Carter album” with which newer Revenuers may not be acquainted, was born. The album was somewhat curious by present standards. Instead of the usual taller rather than wider format, the Carter album was the reverse and the pages were approximately 11.5” x 9” inches. The pages appear somewhat quaint, not only because of the horizontal arrangement but also because of the partial illustrations Carter afforded the collector. Regulations of the time somewhat incomprehensibly, forbade illustration of even obsolete U. S. revenues, so Carter resorted to use of crude partial sketches, though not all spaces were illustrated. The (album) was touted as “the most complete ever issued – gives most minute details as to every variety of paper in the Match & Medicines–etc. etc.” Testimonials were forthcoming from such stalwart collectors of U. S. revenues as Clarence Eagle (DFK note — who assisted in the catalog production by provided images), Hiram Deats, George Hetrich and others.”
