1807-1812 $5 Capped Draped Bust

3314

3314 **1810 Capped Bust $5 Gold Half Eagle, Large Date, Large 5, BD-4-PCGS MS62,** An impressive Mint State example of early United States gold coinage, struck at the Philadelphia Mint during the presidency of James Madison. This 1810 Capped Bust Left $5 Half Eagle is the desirable Large Date, Large 5 variety, corresponding to the Bass-Dannreuther BD-4 die marriage, and is certified MS62 by PCGS.Designed by John Reich, the obverse presents Liberty facing left wearing her distinctive cap, surrounded by thirteen stars with the date below. The reverse features a powerful heraldic eagle with shield, outstretched wings and the E PLURIBUS UNUM banner, surrounded by UNITED STATES OF AMERICA and the denomination 5 D. The distinctive large, rounded numeral 5 identifies the reverse variety. The coin was struck in the early federal gold standard at approximately 91.7% gold and has a weight of 8.75 grams.The Large Date, Large 5 is attributed as BD-4 and is the most obtainable of the four major 1810 half eagle varieties, making it particularly important as a representative of John Reich's classic early American gold design. Despite a reported overall 1810 mintage of 100,287 pieces, survival is only a small fraction of the original production; PCGS estimates approximately 675 examples of this variety survive in all grades, with roughly 330 in Mint State.This specimen displays attractive yellow-gold color with considerable remaining mint luster and a well-defined strike. Certified PCGS MS62, it represents a notably high-grade survivor of a more than 215-year-old American gold issue and offers substantial appeal to the advanced early gold specialist as well as the collector seeking a Mint State Capped Bust Half Eagle for type.A handsome and historically significant early United States gold coin with excellent eye appeal and strong collector demand. Estimate $12,000 - 15,000

3332

3332 **1907 $20 Saint-Gaudens High Relief Double Eagle, Wire Rim-PCGS MS64 CAC,** A superb example of one of the most celebrated and visually dramatic coins ever produced by the United States Mint. This 1907 Saint-Gaudens $20 Double Eagle is the famous High Relief, Wire Rim issue, certified MS64 by PCGS and further distinguished by a CAC approval sticker, confirming the coin's exceptional quality and eye appeal for the assigned grade.The High Relief Double Eagle represents the original realization of Augustus Saint-Gaudens' revolutionary design for America's largest circulating gold denomination. Commissioned as part of President Theodore Roosevelt's effort to elevate the artistic quality of United States coinage, Saint-Gaudens created a bold sculptural design unlike anything previously produced for regular American circulation.The obverse depicts a commanding full-length figure of Liberty advancing forward with torch and olive branch, rays of the rising sun behind her and the Capitol visible at lower left. The date appears in Roman numerals as MCMVII, one of the defining characteristics of the original High Relief issue. The reverse presents Saint-Gaudens' magnificent eagle in flight above the rising sun, surrounded by UNITED STATES OF AMERICA and TWENTY DOLLARS.The extraordinary depth of the design proved exceptionally difficult for the Mint to manufacture. Each High Relief coin required multiple blows of the dies to fully bring up Saint-Gaudens' sculptural detail, making mass production impractical. Only 12,367 High Relief Double Eagles were ultimately struck before the design was modified to a much lower relief suitable for normal production. The Wire Rim variety resulted when metal was forced upward at the junction of the die and collar during the repeated striking process, producing the characteristic thin raised edge seen on these pieces.This handsome specimen exhibits rich golden color, strong mint luster and the remarkably complete definition expected from the multiple-strike High Relief production process. Liberty's figure, the radiating sun and the sweeping feathers of the flying eagle are rendered with tremendous dimensionality. Certified PCGS MS64, the coin resides at the desirable Choice Mint State level, while its CAC endorsement provides an additional measure of quality within the grade.The 1907 High Relief has long transcended the Saint-Gaudens series to become a landmark of American numismatics—widely collected as a stand-alone rarity and admired as one of the finest achievements of American medallic art. An exceptional opportunity to acquire a Choice Mint State, CAC-approved example of this iconic early 20th-century gold issue. Estimate $30,000 - 40,000
