Lanyon, Tharwa, Australian Capital Territory.
Lanyon was established in 1835 by the Wright brothers and J. M. H. Lanyon, pastoralists. The present single storeyed homestead was built in 1859 and extended in 1905. Constructed of fieldstones with stuccoed walls and a verandah on two sides, Lanyon is typical of early homestead design. The property retains earlier stone outbuildings which form a rear courtyard. Lanyon is administered by the ACT Parks and Conservation Service and is open Tuesday to Sunday and public holidays.

Envelope design: Brian Clinton, Melbourne.

Sender's name and address.

This special postcard commemorates the centenary of New Zealand Post Office stationery. The first item, a postcard, was issued on 1 November 1876. The postage imprint and the distinctive border design used on the first postcard are reproduced on the front of this card and the postage imprint (7c) introduces a new design which will be used on all future printings of postal stationery.

Just over one million cards were produced in the first printing and 92,500 of these were sold in the first two months (i.e., 1 November – 31 December 1876).

From this small beginning, various items of postal stationery have been added over the years and today the range consists of postcards, letter cards, envelopes, (large, small and airmail), newspaper wrappers, registered letter envelopes and aerogramme forms (unstamped).
