4 Dec 65

Dear Mr. Nicholson,

Your 15 Nov. Letter has just arrived after I answered (yesterday) your two previous letters, with tear sheets etc.

We rushed the following issues to complete them before the 23 Nov. Starabul Conference which is supposed to form a P. W. Govt. & probably a new postal arrangement:

- 15 Sept Cooperation Year
- 27 " Yemen V.
- * 1 Oct LATS (4 Oct. Peace thru Communications & cachet for Papal Peace visit N.Y.)
- 15 Oct flowers
- 10 Nov. Outer Space
- 20 Nov. Tokyo Winners

Because our supplies are tied up in Saudi customs en-route we have none of these on hand to distribute for publicity yet except the Flowers & another * set which is only half-issued as the Souvenir sheet must be overprinted to change the motif from NY World's Fair to the motifs listed above. Of these I can send you samples when I get back to our mountain base (I am briefly transitting Jizan, Saudi Arabia, for hospital attention & I do not have these with me but only a few used for postage on my yesterday's mail sending with other ordinary stamps)

As fast as the other 5 sets clear customs I will begin to send out samples to the philatelic press. I regret we do not have proofs etc as you need for a Churchill exhibit as the proofs are sealed in our 1,000-copy reserve stock to be stored in the Ministry vaults after the war. Also please do not send any postal museum specimens yet as we have no facilities for keeping them safe & unwrapped in our moving mess tent quarters.

Dear Mr. Nicholson,

Thank you for your letters returning the check list + enclosing tear sheets of your Japan listings.

We may have some Tokyo Olympics in our old key stock in Qara but we are awaiting a reprinting up to the amount of quantities lost in transit before announcing availability of that or Hariner IV or Astros for single-set sales. There are also some other older issues in Qara which I should be able to furnish you when we return there after the Starabk Paris Govt. is established, but it is slow in forming as the Sallal (YAR) puppet regime is attempting (without Egyptian backing, which is ridiculous) to impose its "revolutionary republican" form of govt, which we don't want + will not accept. We are striving for a neutral caretaker govt to supervise Egyptian withdrawal + a free national plebiscite on monarchy vs Republic. These events will eventually be reflected philatelically + I will keep you advised.

With best wishes,

Sincerely yours,

Amir
Bayan
