

Please find attached a PDF copy of our inventory of this collection. A few comments are needed:

1. the valuations are from a 2015 copy of Scott's Classic Catalog
2. for the larger countries the valuations do NOT include values for the more common -- only singles and sets cataloging \$10 or more but, for small issuing countries, the complete holding has been counted and valued
3. page types are: P, Palo black & white; CP, colored Palo; M, Minkus; L, Leuchtturm; SI, Scott International; SS, Scott specialty; SK, Schaubeck
4. about 95%+ are sound, undamaged stamps -- used and mint mostly OG LH, some NH
5. 95%+ are 1840-1940; of the post-1940 stamps, only a few have been included in the valuation but have been counted, thus, about 99% of the valuation is pre-1941
6. 2 albums are not Palo albums: Danzig in a Safe album and Turkey in a Scott Specialty
7. re duplication: I estimate about 10% and most of that is due to mint and used copies of an item
8. postal stationery is not counted or valued even though there are quite a few (all cut squares), particularly in the German states
9. although reprints and any suspicious stamps are not valued they have been counted
