Mr. Philip W. Snowdon,
51, Roundtable Road,
Downham Estate, Bromley,
Kent, England

Dear Mr. Snowdon:

Thank you for your letter of August 11, 1969, and for your thoughtfulness. We appreciate your kind words and support of our program. We were all very pleased with the Apollo 11 mission and, like you, are looking forward to an equally successful Apollo 12 flight.

The information you requested about the Apollo 13 and 14 crews is as follows:

	<u>Prime Crew</u>	<u>Backup Crew</u>
Apollo 13	CDR - James A. Lovell CMP - Thomas K. Mattingly LMP - Fred W. Haise	John W. Young John L. Swigert, Jr. Charles M. Duke, Jr.
Apollo 14	CDR - Alan B. Shepard, Jr. CMP - Stuart A. Roosa LMP - Edgar D. Mitchell	Eugene A. Cernan Ronald E. Evans Joe H. Engle

The members of the Apollo 13 support crew are Jack R. Lousma, William R. Pogue, and Vance D. Brand. Support crew members for Apollo 14 have not yet been named.

I am including some information and pictures from the Apollo Program which I hope you will find interesting.

Again, thank you for your interest in our program.

Sincerely,

Donald K. Slayton
Director of Flight
Crew Operations

Dear Mom, Hal & family;

Well the 3rd was a big day on the Rearrange. It will be a day that I will not forget. I would say that about 3,000 of the crew were able to watch the whole capsule ordeal. The rest of the crew ~~was~~ was below decks on watches. I ^{am} was one of the lucky 3,000.

One of my buddies that has a camera was on watch, so I borrowed his camera. I got the high points of the whole ordeal on film, from the time the capsule was first spotted too when the astronaut climbed out of the capsule.
