Issue Has Become Controversial because

- (1) Appeared minus Announcement (2) Small number
- (3) over-print Appeared easy to fake (4) Scott did not list it - In its Favor: (1) Syria issued it in previous years and would Have issued it even if she Hadn't joined UAR; (2) Fakes Have not appeared; If they do, comparison with pictures may Help detect them

Like its 55M Henna Brown counterpart, this hitherto fore unreported stamp was overprinted from Egypt's Scotts #335. #335 was first designed and printed in 1953 instead of printing more 55M in 1955,

Registration
issued 1-20-59

Egyptian authorities could not find the original plate, or if found they were too worn. So a new plate was produced, showing many design differences. The color difference was also marked.
