WHY I SHOULD BUY WAR SAVINGS AND THRIFT STAMPS

The Government is just as much your Government in times of peace as in war.

While the fighting was on you helped your Government. Keep it up now—CONTINUE TO INVEST YOUR SAVINGS.

Does my Government need my small savings?

Decidedly, YES. During 1918 the sale of War Savings and Thrift Stamps produced for the Government about a billion dollars—very little of this would have been invested otherwise. This year the Government counts on the investment of still greater savings by everyone.

Why should I save now?

(1) The Government needs large sums of money to complete the work which the armistice made possible and take full advantage of a victorious peace.

(2) Saving will help you personally—the Government will take the little amounts you would otherwise spend, keep them safe for you, pay you interest, and help you to accumulate a fund for your future needs.

Questions and Answers

What is the difference between a Thrift Stamp and a War Savings Certificate Stamp?

The 25-cent Thrift Stamps are issued to help you to save and exchange for a \$5 War Savings Certificate Stamp. The Thrift Stamps bear no interest; the War Savings Certificate Stamps earn interest.

Why do I get a \$5 War Savings Certificate Stamp for from \$4.12 to \$4.23?

The \$5 is payable January 1, 1923. It includes the return to you of your money with the compound interest that the Government will pay you. The sooner you fill up and exchange your Thrift Card for a War Savings Certificate Stamp, the more interest you will receive.

Why should I exchange my full card of Thrift Stamps for a War Savings Certificate Stamp?

Because the War Savings Certificate Stamp bears interest and the Thrift Stamps do not.

What becomes of the money I pay for a stamp?

It is a loan to the United States Government.

How can my 25 cents really help?

A loan of only 25 cents by every person in the Nation will provide the United States Government with 25 million dollars.
