Fossil shells from the Andes, South America, collected by Darwin and illustrated in his book *The Geology of the Voyage of HMS Beagle*.

2906/2907/2908

Some of Darwin's most important work involved the study of tropical islands. He concluded that several types, from high volcanic islands through to atolls, were produced by the gradual subsidence of ocean volcanoes. Coral reefs surrounding an island often grow upwards at the same time.

POST BOXES

The earliest known surviving posting slot was placed in the wall of Wakefield Post Office in 1809. Britain's first roadside pillar boxes appeared in the early 1850s but, in more remote and less populated areas, a cheaper and more practical alternative was needed, resulting in the development of smaller post boxes. Initially, they were installed in walls, buildings or brick pillars; later designs were also attached to lamp posts.

Roald Dahl's The BFG

The BFG took his time. He was very dignified in his approach. When he was close to the window where the three of them were standing, he stopped and made a slow graceful lunge. His head, after he had straightened up again, was almost exactly level with the sashers at the window. "You Majesties" he said. "Is your bombing over?" He bowed again.

5 APRIL 2016 400th DEATH ANNIV. OF WILLIAM SHAKESPEARE 2 phosphor bands

to thine own self be true

COWARDS DIE MANY TIMES BEFORE THEIR DEATHS. THE VALIANT NEVER TASTE OF DEATH BUT ONCE.

Love is a smoke made with the fume of sighs

THE FOOL DOETH THINK HE IS WISE, BUT THE WISE MAN KNOWS HIMSELF TO BE A FOOL.

THERE WAS A STAR DANCED, and under that — WAS I — BORN.

3816 a

BUT IF THE WHILE I THINK ON THEE, DEAR FRIEND, ALL LOSSES ARE RESTORED AND SORROWS END.

LOVE comforteth like sunshine after rain

WE ARE SUCH STUFF AS DREAMS ARE MADE ON; AND OUR LITTLE LIFE IS ROUNDED WITH A SLEEP.

Life's but a walking shadow, a poor player That struts and frets his hour upon the stage

I wasted time, and now doth time waste me
