IF YOU THINK YOU ALREADY HAVE THIS MINT NEVER HINGED M/S LOOK CAREFULLY AT THE DATE WHICH IS SHOWN AT THE BOTTOM OF THE STAMP IN THE M/S. THE DATE ON THIS SHEET IS 1990. MORE THAN LIKELY, THE

DATE ON YOUR SHEET IS 1990A - Why the difference? The printers Walsall Security Printers were situated in England. When a new stamp issue was printed, the printers would post by airmail a small number of the newly issued stamps to Tonga while the bulk of the new issue was sent in a large parcel by sea-mail. The FIRST printing of this whale M/S showed the 1990 date at the bottom of the stamp. A small number were sent to Tonga by seamount, and the rest as usual went by sea-mail. However the large parcel which went by seamount somehow got lost and never reached Tonga, so all they had were a very small number of sheets with the 1990 date on the stamp. The printers were asked to print another lot of M/S's urgently and they were instructed this time to put the date 1990A on the second printing of these sheets and these reached Tonga safely. So 99% of the sheets that went out to new issue dealers contained the 1990A date on them. Those with the 1990 date on them are quite rare. Sometime later, the parcel which was lost was found and returned to the printers. The sheets from the parcel were then all overprinted with the SCIENTIFIC EXPEDITION overprint and this sheet was issued in 1991. Stanley Gibbons makes the note under this set that a few examples of the sheet with 1990 date were used in Niuafoou in 1991 (these were the ones sent by airmail - mint examples are rare). The sheets with 1990A date are catalogued by Gibbons at 9 pounds. No price is given for the sheets with 1990 date as very few have ever appeared and been sold.

 CARTE POSTALE

This is a very interesting
 typical South Sea island.
 They were well named the
 Friendly Islands by Capt. Cook.
 The natives are not spoilt,
 coming very little in contact
 with civilisation, as we know it.
 The Tongan Queen has her
 palace here, a few hundred
 yards from the ship.
 We leave tomorrow for Lifuka
 another island in these group.
 There are about 100 islands
 altogether in the Tongas.
 We get a good swim from
 the ship in water of a temp of 80°
 Quite enjoying life.
 Regards, C. H. W.
