COLUMBUS *didn't have a Cameraman along!*

Think what it would have meant to history if he had—and if
he could tell you—as Eckener does—the story of his voyage!

BY ALL MEANS SEND THE KIDDIES!! They will enjoy and profit by every minute of this all talking record of an event that will go down in history along with the achievement of Columbus. Their grandchildren will thrill to this picture just as you would thrill to the voice and picture of Columbus telling the story of the discovery of America.
