25th ANNIVERSARY OF THE CORONATION 1953

Unicorn of Scotland. This most beautiful of fabulous beasts was used by Scottish kings to support their arms from the early 15th century. The beast was inherited by Her Majesty from the House of Stuart who gained the English crown after the death of Elizabeth I. Great Frigate Bird. These aerial pirates of the Pacific can outfly all other seabirds with their light bodies and 7 ft wingspan.
