Expertisation Certificate No. 0122/99

Source: Dr. S. Sheynberg

Russia: 1931. Control Stamp, 300 R. surcharged 25 kop and handstamped 10 k. in black.

Opinion: Believed to be Genuine.

Comments: The 300 R definitive is the special printing used for this issue.

The 50 k. Control surcharge is the genuine Typographed surcharge, sub-type 4.

The 10 k. handstamped overprint is in black ink which has a similar I.R. spectrum as other handstamped issues of this period. This stamp has only been recorded used with a violet-black handstamp. I can not fault the handstamped overprint. It is not a digital reproduction.

Condition: Very Good, unmounted mint, original gum. Slight damage to perforation at lower left corner.

Dr. R.J. Ceresa 22/9/99
