The function of the artist is to express reality as *felt*. Robert Matherwell

ABSTRACT EXPRESSIONISTS

The abstract expressionists revolutionized art and moved the U.S. to the center of the international art scene during the 1940s and 1950s. Based primarily in New York City, this group of artists with radically different styles created a new visual language based on color, motion, and the expression of universal truths. In the process, they transformed the act of painting into a means of self-discovery, which was both uniquely American and utterly new.

LEGENDS OF HOLLYWOOD

Actor Gary Cooper (1901-1961) started his movie career working as an extra in Westerns, and eventually went on to play the all-American hero in many classic films. His ability to "become" the characters he was playing made it easy for audiences to forget he was acting. His subtle and naturalistic style helped him win Academy Awards for his performances in *Sergeant York* (1941) and the highly respected Western *High Noon* (1952).
