M40

The very rare provisional. In error it was priced at only \$20.00 in the catalogue whereas it should be at least \$50.00 as it is very many times scarcer than M9, a most difficult star on its own right.

Signed copy as a guarantee of its being genuine.

#M93

So rare is this variety that for more than 65 years it was unknown and it is only lately this was discovered and irrefutably proven. The type differs from the JF and it is surmised that it was used at Selkirk, Manitoba, and in Winnipeg. The same type of 10¢ and 25¢ value, both of course on the \$1. value.
