Memo from *K. Bileski* Station B, Winnipeg, Canada

A truly remarkable lot. All the possible plate numbers on ALL of the issued George V mint strips of four. There just is nothing more to add to these.

Believe I should list these in a separate section of the forthcoming Canada plate block cat. After all few plate number varieties still exist for all of the Canadian revenue stamps.

EG1 - 11

Quite complete MINT

\$30.00

WM73 - 84

The complete set in MINT condition
including the rare 15¢ and 20¢ values.

\$20.00

SASK. 1st DEFINITE SET.

All 12 values complete including the \$20.00 rarity easily worth \$30.00 or more alone.

Set was issued in 1908.

1958 marks its golden jubilee year.

The original supply of 500, \$20.00 red brown evidently sufficed well into the 1930's. Then an additional order was placed and the new \$20.00 stamps that arrived were quite different in color to the old red brown, being a deep ORANGE brown certainly an entirely new variety. I had very few of these.
