DESIGN ITALIANO PER UN NUOVO PAESAGGIO DOMESTICO

Il settore del mobile e dell'arredamento italiano ha mostrato negli ultimi decenni segni di grande vitalità, fornendo un contributo determinante all'affermazione internazionale dei suoi migliori progettisti, oltre che di numerose imprese. Abbiamo di un'ampio progettualità esiste da sempre: un profondo dibattito culturale sulle idee e di continuo si sono sviluppati nuovi orientamenti, nuove tendenze, nuovi modi di concepire l'abitare e gli stili di vita. Dopo la generazione dei maestri e la lunga stagione del post-moderno, l'innovazione, sia formale, sia tecnologica, non ha subito soste e nuovi oggetti di più giovani progettisti sono stati proposti alla ribalta, arricchendo il già brillante panorama del residenziale domestico. Oggi tutto sembra più leggero, trasparente, spazioso, colorato, semplificato e essenziale, con l'inevitabile apporto, nelle realizzazioni, di materiali innovativi e tecnologie avanzate. Anche le interpretazioni dei linguaggi, dalle poetiche, dagli stili si trovano nuove classificazioni e attribuzioni, così il più attuale design dell'arredamento italiano assume di volta in volta caratteri minimalisti, boicottati (aperta al fumetto e allo styling americano), neo-pop, lasciando intravedere interessanti prospettive per il futuro.
