U.S. Fish & Wildlife Service

2016-2017 Migratory Bird Hunting and Conservation Stamp

In 1916, the U.S. and Canada signed the first international treaty to protect migratory birds. Overharvest and loss of habitat affected many migratory bird species, prompting important agreements and new laws to conserve shared wildlife resources and leading to cooperative habitat and population management. As we prepare for the next century of conservation, we still face many challenges to migratory bird conservation. But together, we can all do our part to create a bright future for our feathered friends.

Certificate of Appreciation

Thank You for Putting Your Stamp on Conservation!

Since its creation in 1934, the Federal Migratory Bird Hunting and Conservation Stamp – or simply, “Duck Stamp” - has been a vital conservation tool, raising over \$1 billion dollars to conserve essential wetland habitats across the nation. As part of the National Wildlife Refuge System, these lands and waters are home to hundreds of species of plants, mammals, fish, amphibians, insects and, of course, myriad wetland and grassland birds. But it's not just wildlife that reap the rewards of your Duck Stamp purchase. Lands and waters acquired with Duck Stamp dollars provide vital services to people and communities; wetlands help purify water, aid in flood control, and reduce soil erosion and sedimentation. They also support outdoor recreation opportunities for all Americans, including hunting, fishing, wildlife watching and much more.

Sales of Junior Duck Stamps support programs that connect young people with their natural world. With its science and arts focused education curriculum, the Junior Duck Stamp Conservation and Design Program has influenced a generation of wildlife conservationists, outdoor enthusiasts and artists. Each year, students in all 50 states, Washington D.C. and the U.S. territories use a dynamic multidisciplinary education curriculum to learn scientific principles of waterfowl and wetland ecology and conservation. Students use visual and language arts to express their knowledge of the beauty, diversity, and interdependence of wildlife, habitats, and communities. It is estimated that over 300,000 students, educators, families and community members are engaged annually through the program.

Your community, your neighbors and the young people in your life – and of course the wildlife who cannot voice their thoughts – thank you for buying Federal and Junior Duck Stamps and making an investment that will pay dividends for generations to come.

Certificate of Appreciation

Thank You for Putting Your Stamp on Conservation!

Since 1934, the U.S. Fish and Wildlife Service's Migratory Bird Hunting and Conservation Stamp (Duck Stamp) has been a vital conservation tool. In its 89-year history, the Duck Stamp has raised over \$1.1 billion dollars which are dedicated to conserving important wetland habitats. As part of the National Wildlife Refuge System, these lands are home to hundreds of species of plants, mammals, fish, amphibians, insects, and a myriad of wetland and grassland birds. It's not just wildlife that benefits. Wetlands acquired with Duck Stamp dollars help purify water, aid in flood control, reduce erosion and sedimentation, and enhance outdoor recreation opportunities.

The Junior Duck Stamp Conservation and Design Program has been influencing our next generation of wildlife conservationists and artists for over 30 years. Kindergarten through twelfth grade students in all 50 states, Washington D.C., and the U.S. territories participate in this educational program. Students learn scientific principles of waterfowl biology, wetland ecology, and conservation through a dynamic curriculum. Students share their knowledge of the beauty, diversity, and interdependence of wildlife, habitats, and communities through state and nationally sponsored art and literary contests. Over 300,000 students, educators, families, and community members are engaged annually through the program. Sales of Junior Duck Stamps support programs that connect young people with their natural world through science and the arts. Junior Duck Stamp artists have gone on to careers as wildlife conservationists and wildlife artists and share their talents as teachers.

As we release the 89th Federal Duck Stamp, we celebrate the millions of people who voluntarily invest in protecting quality wildlife habitat and engaging our youngest citizens so they grow up appreciating nature. By purchasing Federal Duck Stamps and Junior Duck Stamps, you have made a valuable and timeless contribution to habitat conservation.
