American Bank Note Commemoratives, Inc.

Newfane, Vermont 05345-0420

Dear Collector:

It is with great pleasure that we enclose your first three limited edition vignette sheets from the 1989 American Bank Note Archive Series.

Each vignette sheet displays intricate engravings originally used to embellish currency, stocks, stamps, bonds, scrip or checks from the 19th and early 20th century.

"United States Presidents" is an especially timely acquisition during this inaugural year, which commemorates the 200th anniversary of the American Presidency. It is a vignette sheet of extraordinarily elegant design. A superb engraving of George Washington is at the center, surrounded by portraits of other distinguished past Presidents.

"Allegories of Finance" brings you fascinating, symbolic images which were created especially for bank notes, stock certificates and other documents. These complex and powerful images portray such subjects as Progress...Agriculture...and the Arts. They are sure to attract the comment and admiration of all who see them.

"The Iron Horse" presents delightful images of the railroads as they used to be. Each is a masterful rendition, capturing the strength and beauty of the old steam locomotives, and bringing us back to the days when traveling by railroad was grand and exciting.

All these engravings have been intaglio-printed with specially formulated bank note inks on museum-quality, acid-free paper, so they will retain their beauty for long years to come.

Each vignette sheet is eminently suitable for framing. Or, you may prefer to house your vignette sheets in the custom portfolio created for the series. The Certificate of Authenticity enclosed may be kept in your portfolio, which will be sent to you along with your next shipment of three vignette sheets.

As you will see, each vignette sheet is accompanied by a data sheet providing historical information about each engraving. At the base of each data sheet you will find a pictorial key representing the engravings, for easy reference. The vignette titles appearing in quotes were assigned by the original engraver. Vignette titles appearing without

(over, please)

quotes were assigned by the American Bank Note Company archivist.

Our archival records have enabled us to assign dates to certain vignettes; these dates indicate the completion dates of the original engravings. Dates shown for the existence of engraving firms have been retrieved from our archival records and are accurate to the best of our knowledge. For each vignette, you will also find a list of security documents on which that vignette has appeared. (Please note, however, that this list cannot be considered all-inclusive.)

Congratulations on being one of the select group of collectors to acquire this extremely limited edition. I know your collection will bring you great pleasure and satisfaction as it builds to completion, and that it will remain a prized and treasured acquisition.

Sincerely,

Aurelia Chen

Aurelia Chen
Product Manager

P.S. You may wish to further protect your Archive Series folio sheets in sleeves of Mylar D -- the same acid-free material chosen by important museums for their own archival collections. A complete description of these protective sleeves is enclosed, along with a convenient order form.

American Bank Note Company

CERTIFICATE OF AUTHENTICITY

This is to certify that the engravings which appear on the folio sheets of the 1989 American Bank Note Archive Series are intaglio-printed and were selected from the original 19th and 20th century hand-engraved steel dies held in the vaults of the American Bank Note Company; and that the 1989 Series is strictly limited to 3,500 editions.
