

LIBERIAN FLAG STAMP ERRORS

In 1816 an organization called the American Colonization Society was formed to resettle freed African-American slaves in Africa. The ACS eventually joined with other such organizations to form the Commonwealth of Liberia, which gained independence in July, 1847.

In May, 1943, President William V. S. Tubman was elected to office. In 1956, a series of stamps was issued to commemorate President Tubman's visit to several European countries. Each of the seven stamps issued shows the country visited, and the flag of that country.

Somehow, a small quantity of these stamps was printed with the flags **INVERTED!** These error stamps are not only rare, but very visually appealing.
