WESTERN AUSTRALIA, 1902.

I have examined the postage stamp issued by the Postal Administration of Western Australia in October of 1902, "**Queen Victoria**" five shillings emerald-green, perforated 12.2 x 12.4, on medium white wove paper with watermark "*double-lined 'V' over Crown*", inverted, Scott Classic Specialized Catalogue #86; Stanley Gibbons Catalogue #126; Brusden-White Specialized Catalogue #W62, used, with a bold "R." circular cancellation, a colour reproduction of which is below, magnified to 125% of true size, and am of the opinion that:

The stamp submitted is **genuine in all respects**, postally used, and is entirely free from faults or repairs at the time of examination. The arrangement of the plate was such that exactly 50% of the stamps printed showed watermark inverted.

FRANCE, 1927.

I have examined the set of two Air Mail postage stamps issued by France on June 25th of 1927, "Merson" 2 Francs orange and blue green, and 5 Francs dark blue and yellow, each overprinted with Airplane and "Poste Aérienne" in dark blue or black, Scott Catalogue #C1-C2; Ceres Catalogue P.A. #1-2, unused, a colour reproduction of which is below, magnified to 125% of true size, and am of the opinion that:

The two stamps submitted are **genuine in all respects**, unused, with full original gum and lightly hinged. The two stamps have fresh original colours, are well centered, and are entirely free from faults or repairs at the time of examination.

FINLAND, 1874-1875.

I have examined the postage stamp issued by the Grand Duchy of Finland in 1874-1875, "Coat of Arms" 1 Markka light brown, serpentine roulettes type II, 1.50 mm in depth, on thin wove white paper without watermark, of average thickness 0.062 mm, Scott Classic Specialized Catalogue #11a; Facit Catalogue #10C², used, with small part of a blue two-ring cancellation "**(HELSINGFORS / ...)**", a colour reproduction of which is below, magnified to 125% of true size, and am of the opinion that:

The stamp submitted is **genuine**, postally used. There are two pulled perfs at left and five short perfs at right. There is a stain in the hinge area which affects the front. There are no other faults or repairs at this time.

Syracuse, New York, 2015.01.31.

NEW ZEALAND, 1856.

I have examined the postage stamp issued by the Crown Colony of New Zealand in March of 1856, "**Queen Victoria - Chalon Portrait**" two pence blue, imperforate, recess-printed by J. Richardson, Auckland, on medium bluish wove paper without watermark, of average thickness 0.10 mm, Scott Classic Specialized Catalogue #5; Stanley Gibbons Catalogue #5, unused, a colour reproduction of which is below, magnified to 125% of true size, and am of the opinion that:

The stamp submitted is **genuine**, unused, without gum. It has narrow margins, barely clear at left, touching the framelines at top and bottom, and slightly cut into the design at right. The stamp had been somewhat soiled (may still be seen under low frequency ultra-violet light). In cleaning, the stamp has lost some of its original colour.

Syracuse, New York, 2015.01.31.

NEW ZEALAND, 1857.

I have examined the postage stamp issued by the Crown Colony of New Zealand in 1857, "**Queen Victoria - Chalon Portrait**" two pence blue, imperforate, recess-printed by J. Richardson, Auckland, on stout white wove paper without watermark, of average thickness 0.12 mm, Scott Classic Specialized Catalogue #8; Stanley Gibbons #10; used, with a barred oval numeral cancellation "17", which corresponds to the post office of Christchurch, a colour reproduction of which is below, magnified to 125% of true size, and am of the opinion that:

The stamp submitted is **genuine**, postally used. It has very narrow margins, touching the framelines on three sides, and cut into the value tablet at bottom. By oxidation, the stamp has yellowed, changing the aspect of the paper, and the overall colour of the stamp as well.

Sergio Sismondo.
