CONGO (1975) Clement Ader*. Primitive aeroplane*. Deluxe sheet in multicolor honoring the **father of French aviation**. Ader made a steam-engine powered flying machine, the **Ader Eole**, that made a low-level flight of approximately 160 feet on October 9, 1890, in the suburbs of Paris on a level field. The machine pictured on the stamp was built in 1897, the **Ader Avion**, in which he claimed to have made a flight of 900 feet, later discredited. This remarkable machine was designed based on **the wing structure of the bat**, which it resembles in shape. A remarkable piece which would enhance any collection on flight! \$30.20
