French postal entire dispatched from Jaffa with two Type 4 French Jaffa postmarks in blue dated 4 March 1908. The card was postmarked upon arrival in Jerusalem with a Type 5 French Jerusalem postmark in black dated 5 March 1908. Note that the Jaffa postmarks have the month in letters while the Jerusalem cancel has month expressed by numerals. Index markings are present in the Jaffa cancels while the Jerusalem postmark contains an asterisk.

Official envelope of the French Consulate General in Jerusalem bearing a blue Jerusalem Postes Françaises cancellation dated 14 May 1948. The cover is addressed to Paris and was carried by the French courier. As the cover was never handled by a "foreign" postal service no stamps were required.

The French Consulate not only provided postal services to the consular officials but also to the French community in the vicinity of Jerusalem. This service was instituted when the postal services of Palestine failed in this region during the siege of Jerusalem. This postal service was in operation until near the end of December, 1948.

Portion of a French folded letter with lozenge type postmark "5009" from Jaffa cancelling a Republic France Empire stamp with "Jaffa-Syria" ring postmark dated 29 October 1975. The Jerusalem Cross cachet and "PP" boxed cachet were applied in Jerusalem where the stamp was affixed to the letter.
