UNITED STATES SENATE
WASHINGTON, D.C. 20510

March 18, 1980

Ms. Marilyn Medberry
3310 W. 13th
Eugene, Oregon 97402

Dear Ms. Medberry:

Thank you for your letter. I am enclosing the photograph and the autograph which you requested.

I support the goals of national health insurance -- good health care for all citizens regardless of ability to pay, improved health care delivery and reduction of health care inflation. The present health delivery system is not capable of providing all the benefits included in most of the comprehensive insurance proposals. Therefore, I support a several-stage effort which would build up the delivery system -- by such means as health maintenance organizations and increased use of paraprofessionals -- as it builds up the benefits. Benefits would be developed with improved Medicaid for the poor and insurance against the costs of catastrophic illness for all. Any precipitous, compulsory and universal approach would produce worse inflation in the health sector and intolerable costs for taxpayers and workers. In addition, systems must be developed for administering a cradle-to-grave comprehensive benefit system for over 200 million people. The country hasn't been able to administer a relatively simple Medicaid system without serious waste.

With best wishes,

Sincerely,

Adlai E. Stevenson

Dear Sir:

I have your letter of the 5th instant, inviting me to an informal luncheon to meet the representatives of the Joint Executive Committee on the Improvement of the Harbor of Philadelphia, on June 11th, and very much regret that my public duties will not permit me to leave Washington at this time.

Thanking you for the honor of the invitation,

I am,

is now on the other side again, or at least has signed the petition to the present legislature protesting against the proposed repeal of the water-gas law. If such are the facts, I think Professor Wood ought to be called upon to give his reasons for the faith that is now in him, whatever his faith may have been in the past or may hereafter be in the future. As one living dog is said to be worth infinitely more than an army of dead lions, so a living, speaking witness is worth a good deal more than a hundred paper witnesses. If Professor Wood can be called and will testify that the law ought not to be repealed, and make a respectable appearance, it would be a mistake I think not to call him.

Truly Yours,

A large, elegant handwritten signature in cursive script, reading "Richard Olney". The signature is written in dark ink and extends across the width of the page.
