520,000 acres

K&M Division POLY-VIJ
Torrance, CA #PV119E-50

National Parks Imperforate Issue of 1935

These special release issues (Farley's) provide many more collectible items than do their 1934 perforated cousins. However, the 1935 imperforate issues were released in substantially smaller numbers.

	Stamps Issued	
Park	Perforate	Imperforate
Yosemite	89.5 million	4.89 million
Grand Canyon	74.4 million	2.74 million
Mt. Rainier	95.0 million	6.25 million
Mesa Verde	19.2 million	1.82 million
Yellowstone	31.0 million	1.72 million
Crater Lake	16.9 million	1.66 million
Acadia	16.0 million	1.69 million
Zion	16.3 million	1.64 million
Glacier	17.5 million	3.87 million
Great Smokey Mtns.	18.9 million	1.64 million

The uncut sheets provide wide margin stamps and plate blocks which are not available on the trimmed blocks.

K&M Division POLY-V'I
Torrance, CA #PV119E-50

National Parks Imperforate Issue of 1935

Another way to collect these stamps is as guide line pairs. These lines generally were removed when the sheets were perforated and cut into the individual panes to be sold at the Post Office.

K&M Division POLY-VU
Torrance, CA #PV119E-50

National Parks Imperforate Issue of 1935

The guide lines also had an arrow head in the margin, providing yet another species for the collector. These are available in Top, Right, Bottom, and Left positions.

National Parks Imperforate Issue of 1935

The intersection of the vertical and horizontal guide lines yields one center line block per sheet of 400 imperforate National Parks stamps.

K&M Division POLY-VIJ
Torrance, CA #PV119E-50

K&M Division POLY-VIJ
Torrance, CA #PV119E-50

National Parks Imperforate Issue of 1935

In addition to the release of the no gum sheets of the imperforate stamps, sheets of the 1934 American Philatelic Society and the Philatelic Society Exposition souvenir sheetlets also were released. Instead of guide lines , these sheets were divided by wide margins or gutters. Thus, another type of collectible.

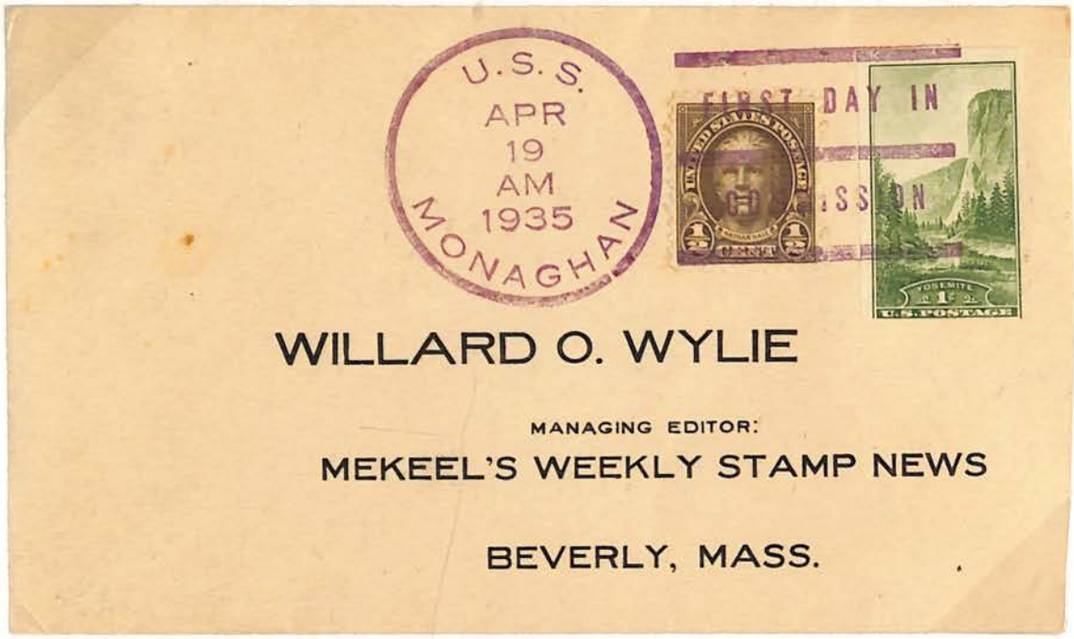

K&M Division POLY-VU
Torrance, CA #PV119E-50

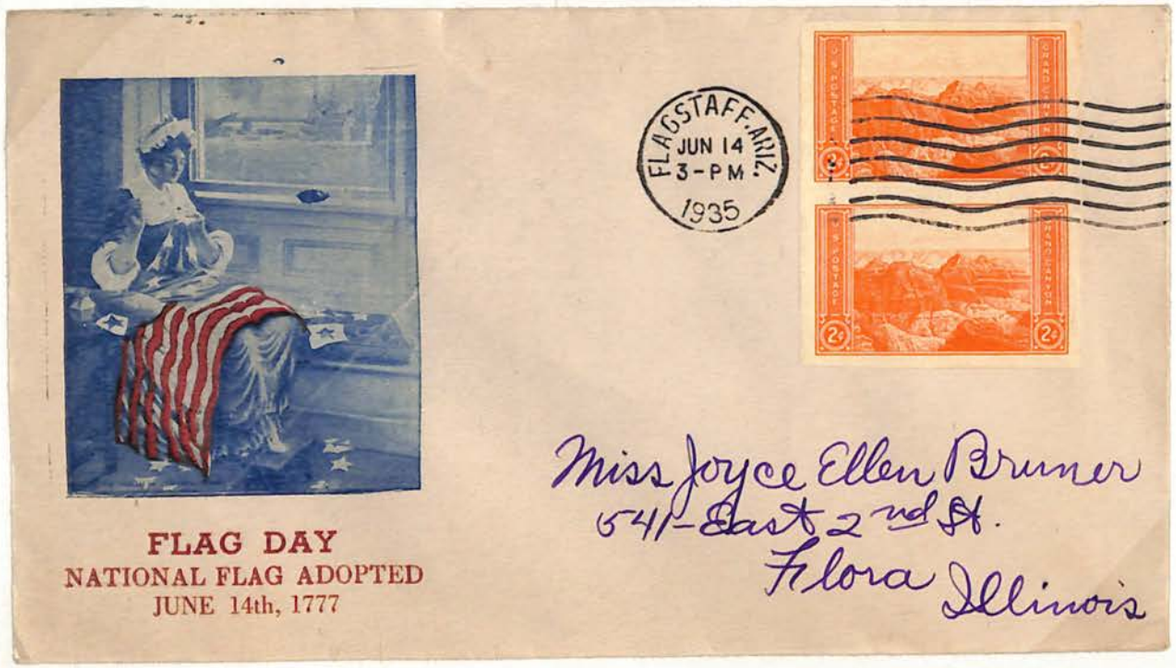

National Parks Imperforate Issue of 1935

The collection of this issue on cover is hampered by the small number of stamps released, their lack of perforations and gum, by the tendency of many collectors to soak stamps off the envelop to save space in their album, and their large size.

Special Event Covers

Shipboard cancels were a popular 1930's topicical.

Flagstaff is 79 miles south of the Grand Canyon.

National Parks Imperforate Issue of 1935

First Class - Two Cent Drop Letter Rate

Torrance, CA #PV119E-50

K&M Division POLY-VIJ
Torrance, CA #PV119E-50

National Parks Imperforate Issue of 1935

First Class - Three Cent Intercity Rate

Probably 1935 release; however, the 1934 Philatlic Exposition margin and printing may have been may have been removed.

National Parks Imperforate Issue of 1935

First Class - Three Cent Intercity Rate

K&M Division POLY-VIJ
Torrance, CA #PV119E-50

National Parks Imperforate Issue of 1935

First Class - Three Cent Intercity Rate

Mailed two weeks before the March 15, 1935 release shows this is from the Philatelic Exposition souvenir sheet, and is not a "Farley".

Mailed after the March 15, 1935 release, but without the gutter, leaves the identity of this stamp in question.

K&M Division POLY-VU

Other Airmail

National Parks Imperforate Issue of 1935

Registered Mail

Three cent first class, three cent return receipt, and fifteen cents registered rates.

Postscript

The 1935 imperforate National Parks stamps are an attractive, scenic, and historic issue to collect. The uncut sheets provide the philatelist with unique collecting opportunities. Many of these stamps rank at the bottom (lowest) of a stamps issued list.

K&M Division POLY-VU
Torrance, CA # PV119E-50

National Parks Imperforate Issue of 1935

First Class - Three Cent Intercity Rate

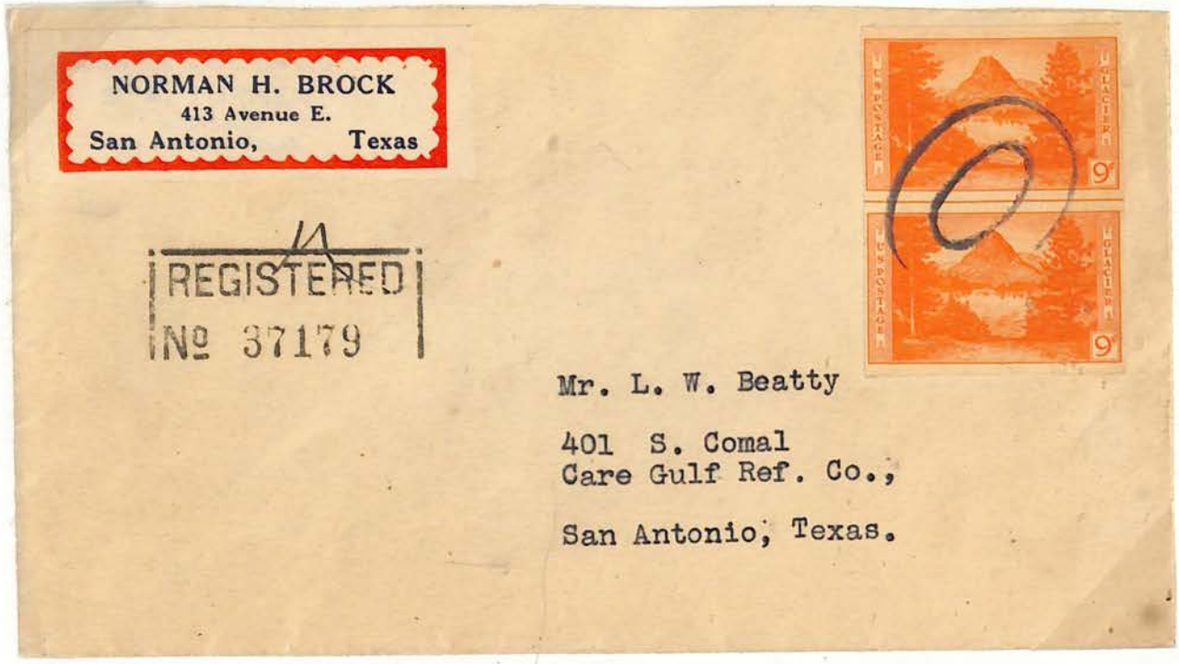

The gutter clearly identifies these stamps as the 1935 release.
