The Maple Leaf Issue of 1897 was in use for a very short time. In 1898 a new set was issued which was the same as the 1897 series, except that the lower maple leaves were replaced with the numerals of value. The set is sometimes called "The Numeral Issue."

Champlain's Departure for West

Cartier Arrives in Quebec

Where the St. Lawrence River narrows at Quebec City, French explorer Jacques Cartier in 1535 came upon an Indian village called Stadacona. But no attempt was made to establish a permanent European settlement at this spot until the start of the seventeenth century. By this time fur hats had become the fashion in Europe, increasing the demand for beaver pelts and renewing French interest in North America. Samuel de Champlain founded the first permanent European settlement at Quebec in 1608. It remained French until 1759, when the British won the battle of the Plains of Abraham.
